American Railroad Journal.

Saturday, August 28, 1875.

Financial and Commercial Affairs.

Rather more activity has been reported in the Money line, chiefly through the increasing requirements, in the mercantile way, of the Fall trade, which has been developing more satisfactorily in the leading branches. The ample offerings, however, have been the source of continued ease to borrowers, in unexceptionable standing. Call loans have been ranging from 1½@4, generally 2@2½ per cent; and best commercial credits, from 4@6 per cent per annum. Cable advices early in the week were of a somewhat disturbing tenor, because of the inevitable "Eastern difficulty"—but had no very decided influence on our own markets. The City banks, through the week, were losers, in the line of reserves—to the amount of over a million of specie, and of about ⅞ths of a million of legal tender notes. Their deposits were cut down nearly two millions; due undoubtedly to the reviving fall business. They contracted their loan and discount averages moderately; and their circulation was also diminished. The U. S. Sub Treasury added handsomely to its currency balance, while reducing its coin hoard. The City Banks last week diminished their reserve of legal tender notes $325,500, their deposit item $1,856,400, and their specie average $1,056,400. They report a contraction of $580,700, in the loans and discounts, and a falling off of $385,500 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $62,318,527, against $60,665,191 the preceding week; and a coin hoard of $33,607,443, against

$34,953,085 on the previous return. The City bank exchanges in currency during the week, were $317,911,173, or a daily average of $52,985,195. The customs revenue of the port, during the week, was $2,362,000. The City banks reported their average of gold last week at $12,885,700, and their greenback average at $70,890,700. Their deposits stood at $246,176,800. The loan item was $282,961,200. The circulation was $12,234,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $21,232,200.

The aggregate of the outstanding U. S. currency, of all denominations, August 1, was $416,456,124. The outstanding amount of legal tender notes is $374,755,108. The National bank circulation is now $346,662,878, including $2,640,000 of national gold bank notes.

On Tuesday, the cash balances of the Treasury Department at Washington were of Currency, $3,491,875; special deposit of legal tenders for the redemption of certificates of deposit, $69,345,000. Coin, $70,738,807. Coin certificates, $18,561,000.

The week's import entries of Foreign Merchandise at New York, were $7,600,230, and included of dry goods $2,769,032.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 17 millions.

Gold has been somewhat brisker within the extremes of 113@114¼. The speculative inquiry was stimulated by the reports from Europe relative to the threatening aspect of affairs in the East. The export drain has been light; and the customs call moderate. The extremes of the week have been 113@114⅛, closing on Wednesday at 113⅜ as against 113⅝, on Wednesday of the preceding week. The specie outflow last week was only $622,978 against $1,572,520 the previous week. The imports of specie at this port since Jan. 1, have been $8,223,594, against $3,105,000 same time last year. The customs demand for Gold last week averaged $393,666. Foreign Exchange has been in fair demand and quoted rather firmer. Bankers' sixty day bills on London closed on Wednesday at $4 86½@$4 87½; sight bills on London at $4 89@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,997,355. The week's imports of Dry Goods and general merchandise were to the specie value of $7,600,230 against $6,871,325 same week last year.

Government Securities varied in price, in sympathy with the fluctuations in Gold. A good investment prevailed through the week at the ruling figures. The later dealings indicated a firm market. Washington, advices say that Secretary Bristow decides in reference to the 5 20s of 1865, May and November, and the 5 20s of 1865, January and July that:—The books and records of the department show that the 5 20s of 1865, May and November, (known as the old 1865s,) were the first of these two loans issued, the date of issue being Oct. 21, 1865; while the consols of 1865, January and July, (known as new 1865s,) although the bonds bear on their face the date of July 1, 1865, were not issued until Oct. 6, 1866. Therefore it follows that the 5-20s, of 1865, May and November, (known as the old 1865s,) being the first issued under the law, must be the first called. The date given on the face of bonds is not to be taken as the date of issue, but the fact as established by records of the department in the application of the law.

U. S sixes of 1881 closed on Wednesday of this week at 121½@122; U. S. Five-Twenties of 1864, at 116@116¼; U. S. Five-Twenties of 1865 118¼@118½; U. S. Five-Twenties of 1865, consolidated, 118¼@118½; U. S. Five-Twenties of 1867, 120¼@120½; U. S. Five-Twenties of 1868, 120¼@120½; U. S. Ten-forties at 118⅛@118⅜; U. S. Fives of 1881, (Funding Loan) 116⅝@116⅞; Six per cent. currency Sixes, 123@123¼.

State and Railway bonds have been moderately sought after at generally steady prices. And in the line of Railway and Miscellaneous share property, business has been somewhat brisker, and at the close indicative of a stronger market.

General business has shown more animation in the line of Dry Goods, Groceries, (especially Coffee), Hardware, Boots and Shoes, Leather, Breadstuffs, and Provisions, with prices ruling strong in most instances toward the close. Naval Stores, Petroleum, Tobacco, Cotton, and Wool have been moderately sought, closing rather in favor of purchasers. Fish, Fruit, Hops, Seeds, and East India Goods have been in comparatively limited request. The Metal trade has been somewhat livelier, chiefly in Copper, Iron Rails, and Scrap Iron, at about former rates. Pig Iron has been generally dull, and American quoted weak. Eglinton Pig Iron quoted here at $20@$20; Glengarnock, $32; Coltness, $32; No. 1 American Pig at $26@$27; No. 2 do. at $23 50@$25 50; Forge, $22@$23 50; English Rails at $48@$50, gold; American Rails, at works, $50@$53; Old Rails, $26@$27. Wrought Scrap, $30@$32. Ocean freights have been depressed, and quoted lower, leading to a freer movement toward the close.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Chicago and Northwestern Interest bonds, 103; South Pacific R. R. of Mo. 6s, 75; Chesapeake and Ohio 1st mort., ex-coupon, 33; Central Pacific Land Grant, 96¾; Dubuque and Sioux City R. ☞ Mr. H. J. Jewett, Receiver of the Erie Railway Company, has filed his statement of accounts in the County Clerk's office, showing his receipts and disbursements since his appointment on the 27th of May last, to the 30th of June. The total receipts (including $143,622 86 on hand at commencement,) were $3,192,008; and the total disbursements $2,759,605 91—leaving a balance on hand June 30, 1875, of $432,402 09.

☞ The contractors for the construction of the Columbus and Toledo railroad have sub let the work of preparing the road for the ties, in two sections. Jackson & Russell get the work between Columbus and Delaware, and John W. Rutherford and his associates will take the contract between Delaware and Toledo. Mr. Jackson is from Piqua, Mr. Russell is from Columbus, and Mr. Rutherford is from Louisville.

☞ The Liberty (Va.) Star says that more than one-fifth of the Virginia State debt is owned by the State, and is in effect already paid.

☞ Shortly after 1 o'clock in the afternoon of the 19th inst. the Harlan & Hollingsworth Company, of Wilmington, Del., launched the second and last of the steamships for the Morgan line, which they have been building. The new ship is a consort of the Brashear, which was sent away last week. Her dimensions are 290 feet long, 38 feet in beam and 22 feet in depth of hold. The machinery and general appointments are the same as those of the Brashear. This ship was christened the New York.

☞ At a meeting of the directors of the Canada Central Railway it was decided that the extension from Renfrew to Pembroke should be commenced immediately and completed before January, 1876. In order to do so the Directors have decided to give out the contracts for the Pembroke branch in five mile sections. The location of the extension to French River harbor will also be commenced soon.

☞ The Cumberland (Md.) News, of August 19th says that a force of workmen commenced operation upon the unfinished track of the Salisbury and Baltimore railroad yesterday morning. Work will be pushed vigorously, as it is designed to complete the railroad from its present terminus to the mines of the Cumberland and Elk Lick Coal Company, a distance of four miles, in thirty days.

☞ A narrow gauge railroad has been projected to run from Shelburne Falls, to North Troy, Vermont, a distance of two hundred and forty six miles. The northern end of the route has been surveyed. The estimate of the engineers for building the lower end of the road is $12,500 per mile, and it is thought that the cost of the upper end will be less.

☞ The iron bridge across the Missouri River at Atchison, Kansas, was fully tested on the 11th inst. Under an aggregate weight of 250 tons, there was a deflection of but 1¼ inches, displaying a solidity and firmness unequalled by any bridge ever tested on the river.

☞ Messrs. Keaveny & Buck have finished the last contract taken by them on the Columbia and Port Deposit Railroad. Twelve miles of track will be laid next month on the Columbia end of the road.

☞ The traffic receipts of the Midland Railway of Canada for the week ending July 31, 1875, were $10,340 36; week ending 31st July, 1874, $8,980 23; total, traffic to date, $157,745 34; year previous $177,417 99—decrease $19,672 65.

☞ The coupon due July, 1862, on the Preferred Construction bonds of the Chesapeake and Ohio Canal Company, will be paid at Alexander Brown & Sons, Baltimore, on and after 25th inst.

☞ Trains are now running over the Atchison, Topeka and Santa Fe Railroad from Kansas City to Los Animas, Colorado.

☞ Mr. H. H. Carter has been appointed superintendent of the Frederick and Pennsylvania Line Railroad, vice Mr. E. L. Du Barry resigned.

☞ Work has been commenced on the north end of the Massillon and Coshocton Railway.

☞ C. C. Jenks has been elected President of the Sacramento City Railway Co.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

FOR SALE BY

DANIEL A. MORAN,
40 WALL ST.

INVENTORS.

If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C.

☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

☞ Bridge Building has been going on so extensively all over the North and West during the last ten years that the Detroit Free Pass estimates these structures to have cost one hundred and fifty millions of dollars. The bridges across the Missouri river have cost eleven millions, those over the Ohio river sixteen millions, those over the Mississippi river twenty five millions, those at Philadelphia four millions, and the East river bridge at New York, unfinished, six millions.

☞ A certificate of incorporation of the North and South Railway company, of Columbus, Ohio, has been filed with the Secretary of State by John G. Mitchell, G. W. Sinks, John Short, Samuel Thomas, William Neil Dennison and R. P. Woodruff. Capital stock $50,000 in shares of $50 each.

Official List of Patents Relating to Mechanics, Metallurgy, &c.

(For the week ending August 21, 1875.)

166,180. Fire Tubes for Steam Boilers, H. Bailey, N. Y. City.

166,186. Railroad Switches, D. F. Cavanaugh, Greensboro, Pa.

166,194. Railroad Signals, T. N. Dinkey, Mauch Chunk, Pa.

166,213. Car Starters, J. McDonough, Mt. Clare, N. Y.

166,229. Railroad Rail Joint Fastenings, A. Spencer, Penn Yan, N. Y.

166,235. Water Tube Boilers, J. Warner, Philadelphia, Pa.

166,243. Railway Rail Joints, H. Allen, Titusville, Pa.

166,247. Forges for Blacksmiths, A. Benac, N. Y City.

166,301. Safety Runners for Railroad Cars, L. O. Root, Minneapolis, Minn.

166,327. Car Couplings, J. Q. A. Young, Cedar Mills, Oregon.

166,331. Motors, J. H. Bean, Cincinnati, Ohio.

166,335. Furnaces for Blanks, J. W. Bonta, New Brighton, Pa.

166,338. Machines for Converting Motion, D. C. Burson, Philadelphia, Pa.

166,341. Regulator Cars, J. H. Canfield, St. Louis, Mo.

166,351. Car Brakes, S. Daubleday, Baltimore, Md.

166,369, to 166,377, inclusive, Machines for Welding Chain Links, B. Hershay, Erie, Pa.

166,379. Railroad Rail Joints, S. Hipkins, Wheeling, W. Va.

166,386. Air Brakes, W. D. Jones, Hagerman's Mills, N. Y.

166,387. Metallic Truss Bridges, W. Katte, St. Louis, Mo.

166,393. Blow Valves, F. Lunkenheimer, Cincinnati, Ohio.

166,397. Hydraulic Car Brakes, T. McBride, Philadelphia, Pa.

166,398. Steam Generators, S. T. McLauthuir, Boston, Mass.

166,404. 166,405 and 166,406. Air Brakes, A. L. Perrine, Freehold, N. Jersey.

166,114. Car-axle Box-bearings, T. D. Rulon, Philadelphia, Pa.

166,415. Heating and Ventilating Railroad Cars, W. Sager, Colchester, Vermont.

166,423. Machines for shaping Metal Screws, C. M. Spencer, Hartford, Conn.

166,428. Pipe Wrenches, H. C. Stouffer, Canfield, Ohio.

☞ A passenger, holding a free pass which exempted the carrier from liability for injury, entered a steamer with an intention to travel as a passenger for hire and beyond the distance covered by the pass, and was injured during that part of the transit to which the pass applied. The Irish Court of Common Pleas held "that the onus lay upon the plaintiff of showing that he was travelling as a passenger for hire, and not as a licensee upon the free pass; that the plaintiff, not having communicated his intention to the defendants, had failed to show that he was travelling otherwise than in right of his free pass, and that the defendants were not responsible accordingly."

The Pacific Mail Steamships not subject to Local Taxation.

STOCK OF FOREIGN CORPORATORS, OWNED BY INDIVIDUALS IN THIS STATE, IS NOT TAXABLE HERE.

In the suit brought by the Pacific Mail Steamship Company against the Commissioners of Taxes to test the question whether steamships moving from here to Aspinwall, and others being constructed on the Delaware River, are subject to local taxation, the Court holds, Chief Justice Davis giving the opinion, as follows:

In accordance with the principle of assessment adopted by the Commissioners, the value of the California Dry Dock Company's stock, $104,250, should also have been deducted. This Court has lately held, in The People ex rel. Trowbridge vs. The Commissioners, that the stock of foreign corporators, owned by individuals in this State, is not taxable here, and the Court of Appeals have affirmed that decision. Treating the relators as entitled to the benefit of that rule, requires the deduction of the value of that stock. All the other questions, we think, were disposed of in the question of these relators against the Commissioners in this Court. The assessment should be corrected in the particular above mentioned and affirmed as to the residue, with costs.

Montclair Railroad.

At a meeting of the committee of bondholders of this company held on the 18th inst., it was agreed by the different interests to give control of the property permanently to the first mortgage bondholders, instead of waiting until the 11th of September, the day appointed for the sale of the road—the approval of Mr. A. S. Hewitt, who is the representative in court of the second mortgage bondholders, alone being required to consummate the arrangement. The proposed plans of reorganization contemplates the following:

First mortgage construction bonds, secured by a first lien upon the whole property, and bearing seven per cent interest, with half yearly coupons, will be issued to the amount of $700,000. Of this amount it is proposed to appropriate $175,000 for new rolling stock, $125,000 to putting the road in order and continuing it from its present terminus at Monks so far out as Greenwood Lake; $200,000 to finishing the Caldwell branch so far out as Caldwell, and the balance to reserve for contingencies. Bonds to the amount of $1,800,000, bearing seven per cent. with half yearly coupons, will be issued to the present first mortgage bondholders, and, as collateral for these bonds, stocks for $1,800,000 will be issued. An issue of common stock will be made for coupons past due and maturing and for the face of the present second mortgage bonds. Immediately upon the reorganization of the company, it is reported, an iron and stone bridge will be constructed over the Passaic River, all the trestle work along the route will be filled in, and various other repairs will be made to put the road in first class order.

Southern Pacific Railroad.

The San Luis Opisco Tribune says: "There was filed in the Recorder's office, by D. W. Parkhurst, agent, on Tuesday last, the first mortgage of the Southern Pacific Railroad in favor of D. O. Mills and Lloyd Tevis for the sum of $46,000,000, covering all its tracks, rolling stock, buildings, real estate and land grants, the latter amounting to 11,000,000 acres of the public domain. Following is the route of the road as set forth in the mortgage: From San Francisco in a southerly and southeasterly direction by way Carnadero Junction, Salinas Valley and Polonio Pass, to the Colorado River, at or near the 'Needles;' also from Carnadero Junction to San Benito; also from Los Gatos Creek, via Goshen, to the Junction with the first mentioned line between Poso Creek and Kern River; also from the junction near Tehachipa Pass, via Los Angeles, to the Texas Pacific Railroad near Fort Yuma; and also from Los Angeles to Wilmington, on San Pedro Bay, aggregating 1,100 miles of railroad and telegraph line."

☞ Hon. James Eads has been appointed Receiver of the Paris and Danville Railroad. This road is 84¼ miles in length, and upon it there have been issued $1,190,000 of first mortgage bonds.

☞ Mr. R. S. Stevens has been appointed General Manager of the Hannibal and St. Joseph Railroad.

LACHINE

Canal Enlargement.

NOTICE TO CONTRACTORS.

Sealed Tenders addressed to the Secretary of Public Works, and endorsed "Tender for the Lachine Canal," will be received at this office until the arrival of the Eastern and Western mails on THURSDAY *the Sixteenth day of September next*, for the enlargement of this canal, consisting of the widening and deepening of the channel from near the new basin east of Wellington Street bridge, upwards, to the river St. Lawrence at Lachine, embracing the construction of new locks at St. Gabriel and Cote St. Paul, also the taking down and rebuilding the upper portions of the present locks at these places: building regulating weirs, culverts, bridge piers: the construction of a new entrance lock at Lachine, and the formation of a channel and basin on the south or river side of the existing entrance.

The works will be let in sections of the respective lengths indicated on a map of the line which, together with plans and specifications of the various works, can be seen at this office, and at the Lachine Canal Office, Montreal, on and after FRIDAY, *the* THIRD *day of September next*, at either of which places Printed forms of Tender can be obtained.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque, or other available security, for the sum of from *one to three thousand dollars*, according to the extent of work on the section, must accompany each Tender, which shall be forfeited if the party tendering declines or fails to enter into contract for the works, when called upon to do so, at the rates stated in the offer submitted.

The amount required in each case will be stated on the form of Tender.

The cheque or money thus sent in, will be returned to the respective parties whose Tenders are not accepted.

For the due fulfilment of the contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to the amount of five per cent on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the works.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By Order

F. BRAUN,

Department of Public Works, Ottawa, 9th August, 1875. } Secretary.

The Coal Trade.

The production for the week ending on the 14th instant, as stated by the Philadelphia *Ledger*, was 612,340 tons, and for the year 10,619,823 tons, against 11,965,683 tons to corresponding date last year, a decrease of 1,345,860 tons. The bituminous tonnage for the week was 79,897 tons, and for the year 2,214,679 tons, making a total of all kinds for the week of 692,237 and for the year of 12,834,502 tons, against 14,111,984 tons to the same time last year, a decrease of 1,277,482 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 89,271 tons, and for the year 2,392.449 tons, of which 2,014,883 was coal and 380,376 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 21st instant there were receipts of 70,000 tons of coal, shipments of 60,000 tons, leaving 65,000 tons on hand. The *Ledger* adds:

We have occasional reports from those engaged in the manufacture of iron of an increased demand, but these reports have not yet developed into much activity, and until the furnaces open widely their devouring mouths the coal market will rule languid and weak. The iron furnaces and the steam marine of the country are the chief centres of coal consumption. A favorable symptom in this direction is the proposal said to have been made by the Philadelphia and Reading Coal and Iron Company to furnish all furnaces in the Schuylkill region now out of blast all the raw material and take the product off their hands, paying for the cost of manufacture. The proposition, it is said, is being favorably responded to by the establishments on the line of the road, and there is a fair probability of some, if not all, of the furnaces, being again in blast soon. Of the twenty furnaces in Berks county sixteen are out of blast, while two new furnaces are about being completed, one at Lyons and the other at Bechtelsville. The resumption of the furnaces will have a marked effect upon the business interests of the eastern section of the State, and especially upon the coal business. It is all that is needed to increase the demand for anthracite coal. The Chester (Pa.) rolling mills are busy on iron plating for ships, having one order of 1500 tons for John Roach & Son and several smaller orders from New York and Philadelphia.

☞ The earnings of the Atchison, Topeka and Santa Fe Railroad for June, 1875, were $103,886, against $101,774, in June, 1874, an increase of $2,112. The earnings for six months ending June 30, 1875, were $575,126, against $574,668, for the corresponding six months of 1874, an increase of $463. The completion of the road to Pueblo, and the control of a Kansas City line, will have a good effect on its through business; and with good crops this year, and the steady influx of population in the Arkansas Valley, the prospects for increased earnings are excellent.

☞ City Passenger Railways being an American invention it is natural that as the system extends to other countries they should look to the United States for their supplies. Hence we find that the exportation of passenger railway cars is becoming quite a large item in our list of foreign exports. The American shipments of passenger railway cars go to England, Russia, Australia, Austria, India and other countries, each taking different patterns, constructed to suit the tastes of the locality to which they are sent. Within a week one shipment of a dozen cars has gone out to Liverpool, valued at $12,000.

☞ The report of the Buffalo and Lake Huron Railway for the half year ending June 30, 1875, says that the balance of revenue, including the balance from the previous half year, after providing for the payment of interest on the bonded debt, is £11,559, which will allow of a dividend of 4s. 8d. per share, free of income tax, carrying to the next half year £400. Bonds to the amount of £751,600 have been presented at the office of the Company, and exchanged for the new series, leaving £12,158 yet to come in.

☞ J. W. Smith, of the Southern Pacific Railroad, has been making a preliminary survey of the route from the Colorado river east, having the Salt River valley as one objective point. The line crosses the river six miles below Ehrenberg and is said to be a practicable route. The country is very level.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

American Silk Industry.

From a recent publication made by the American Silk Association it is shown that up to the 30th of June, 1875, the importations of raw silk exhibit a gain of about 325,000 pounds in excess of the previous year, the total consumption being equal to 1,100,000, or an amount approaching to within 30,000 pounds of the most noted of other years. The heaviest silk concern in the United States does an annual business of $900,000 per year, while several others range from $600,000 to $800,000 per annum, and the demands upon the mills are steadily on the increase. More than $8,000,000 worth of raw silk is consumed during the year in various ways. It is claimed that the manufacturers have attained complete success in fixing in a substantial manner dyes, either of subdued or brilliant hues, and that for novelty, chasteness of design and delicacy of shade the American product successfully rivals goods of the same character from Europe.

☞ The second track of the Philadelphia Wilmington and Baltimore railroad was completed last week, and it is thought the new time tables will be put into operation the first of next month. The work just completed fills a gap of fourteen miles between Aberdeen and Chase's Station. The road now has a steel rail double track throughout, between Baltimore and Philadelphia. The last fourteen miles, including widening of the Gunpowder and Bush river bridges, two miles, was done within four months. The only delay experienced was from a strike, during the progress of the work, at the rolling mill supplying the steel rails.

☞ Besides the five blast furnaces, there are two merchant iron mills, two sheet and plate mills, two nail mills, the extensive works of the New Castle manufacturing company, with other smaller foundries and machine shops in full operation in New Castle, Pa.

THE

UPHOLSTERERS'

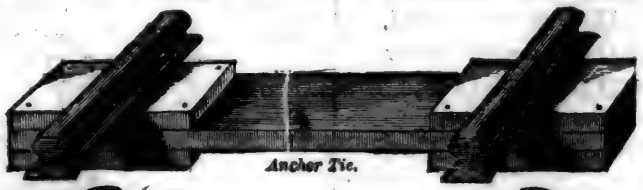
ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.



RAILROAD IRON.

59 Liberty Street,
NEW YORK.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

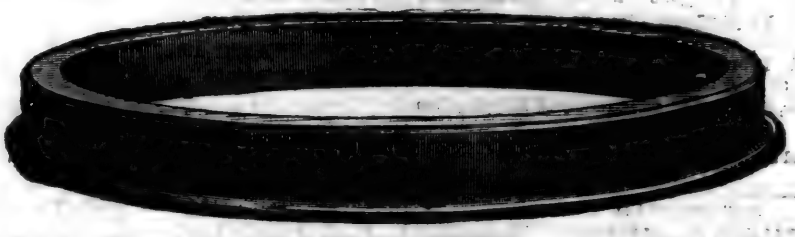
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Condemnation of Property for Railroad Purposes.

The New York Supreme Court, in General Term, has decided that a corporation being the owner of property does not ease it from being taken under the law of eminent domain, where the use of such property is necessary to a railroad corporation to carry out and complete the purpose of its charter. The proceedings in the case were brought some time since by the New York Central Railroad Company to compel a sale to them by the Metropolitan Gas Company of a certain piece of property. The court, at chambers, sustained the railroad company in its claim that the property was necessary to the uses of its business, and that, being so, it had a right, under its charter, to compel its sale by the gas company. The court thereupon made an order appointing commissioners to estimate the price at which the gas company should be compelled to convey the property to the railroad company. From this order an appeal was taken to the general term, where a decision has been rendered sustaining the order made by the court below.

Re-issued Patents must be for the same Inventions as the Original Patents.

INVENTORS OF A NEW COMBINATION OF OLD INGREDIENTS ARE AS MUCH ENTITLED TO CLAIM EQUIVALENTS AS ANY OTHER CLASS OF INVENTORS. DECISION OF THE U. S. SUPREME COURT.

The following is the substance of the opinion delivered by Mr. Justice Clifford in the case of the alleged infringement of improvements in feeding fur after it has been picked by a rotating brush:

Valid letters patent may be granted for an invention which consists entirely in a new combination of old ingredients, provided it appears that the new combination of the ingredients produces a new and useful result; but the rule is equally well settled in such a case that the invention consists merely in the new combination of the ingredients, and that a suit for an infringement cannot be maintained against a party who constructs or uses a substantially different combination, even though it includes exactly the same ingredients. Alterations, however, in a combination which are merely formal do not constitute a defence to the charge of infringement, as the inventor of a new and useful combination of old ingredients is as much entitled to claim equivalents as any other class of inventors; but they cannot suppress subsequent improvements which are substantially different from their inventions, whether the new improvement consists of a new combination of the same ingredients or of some newly discovered ingredient, or even of some old ingredient performing some new function not known at the date of the letters patent as a proper substitute for the ingredient withdrawn. Old ingredients, known at the date of letters patent granted for an invention consisting of a new combination of old ingredients, if also known at that date as a proper substitute for one or more of the ingredients of the inventions secured by the letters patent, are the equivalents of the corresponding ingredients of the patented combination. Such old ingredients, so known at the date of the letters patent granted, are the equivalents of the ingredients of the patented combination and no others; and it may be added that that and that only is what is meant by the rule that inventors of a new combination of old ingredients are as much entitled to claim equivalents as any other class of inventors.

Reissued patents, in order that they may be valid, must be for the same invention as the surrendered originals. Inoperative or invalid patents, which are so by reason of a defective or insufficient specification, or by reason that the patentee claimed as his own invention or discovery more than he had a right to claim as new, may be surrendered if the error arose by inadvertence, accident or mistake, and without any fraudulent or deceptive intention; and the provision is that the commission in that event shall, upon the payment of the sum required by law, cause a new patent for the same invention, and in accordance with the corrected specification, to be issued to the proper party, as prescribed in the fifty third section of the Patent act (16 Stat. at Large, 206). Unquestionably the specifications in such a case may be amended to correct an error which has arisen by inadvertence, accident or mistake, if without any fraudulent or deceptive intention; but the express provision in the new Patent act is that no new matter shall be introduced into the specification, and that in the case of a patent for a machine neither the model nor drawings shall be amended, except each by the other, which is a very important provision to secure the fulfillment of the condition that the reissued patent shall be for the same invention as that secured by the original patent. The rulings below having been in disregard of these principles the decree is reversed.

Emmittsburg Branch of the Western Maryland Railroad.

An arrangement has been entered into between the Western Maryland Railroad Company and a number of persons living in Emmittsburg, whereby the new railroad is to be constructed between Rocky Ridge station, on the Western Maryland road, and Emmittsburg, Md. The road will be about seven miles long, and it is estimated will cost $90,000. The road bed for the tracks has been graded, and the work of laying the rails will commence early in September. The road, it is expected, will be completed in sixty days. The sum of $50,000 in stock has been subscribed, and $40,000 is to be realized from the sale of bonds that the new company is authorized to issue to the extent of $100,000. Enough of the bonds have been sold already, together with the stock subscriptions, to insure the success of the project. The rails will be supplied from the Western Maryland road, and the managers of that road are to superintend the construction. The road will be owned by the Emmittsburg Railroad Company, to whom yearly returns of business will be made by the Western Maryland Railroad Company, who will operate the branch road and furnish the rolling stock.—*Balt. Sun.*

☞ The first heat of steel was made at the J. Edgar Thomson Steel works, at Braddocks, Penn., on the 26th ult.

Consolidation of Railroads.

The following is a copy of an act relating to the consolidation of certain railroad companies passed by the New York Legislature May 7, 1875:

Section 1. Any railroad company organized under the laws of this State may merge and consolidate its capital stock, franchises and property with the capital stock, franchises and property of any railroad company or companies organized under the laws of the State of Pennsylvania, whenever the two or more railroads of the companies or corporations so to be consolidated shall or may form a continuous line of railroad.

Sec. 2. Such consolidation shall be effected in the manner provided for by an act entitled "An act to authorize the consolidation of certain railroad companies," passed May twentieth, eighteen hundred and sixty-nine, and also subject to the laws of the State of Pennsylvania.

Sec. 3. At any meeting of the stockholders of any such company or corporation to consider any agreement or proposition to consolidate, the commissioners or other officer of any municipal corporation holding or having charge of any of the capital stock of such railroad company or corporation shall represent such municipal corporation, and may act and vote in person or by proxy on all matters relating to such consolidation in the same manner as individual stockholders.

Sec. 4. This act shall take effect immediately.

Chicago and Northwestern Railway.

		1,926,477 73
Combined net income		$518,266 38
To this add balance to credit of income of combined roads, on May 31st, 1874		2,119,346 26
Balance to credit of income account May 31, 1875		$2,637,612 64

The number of miles of railroad is as follows: Chicago and Northwestern Railway Consolidated road and branches, 1,058 miles; Chicago and Milwaukee Line, 85 miles; Iowa leased roads (perpetual lease), 356.60 miles—total, 1,499.60 miles. The Proprietary Lines are: Winona and St. Peter Railroad and Mankato Branch, 330.75 miles; La Cross, Trempeleau and Prescott Railroad, 29 miles, Northwestern Union Railroad, 62.63 miles; Iowa Midland Railroad, 68.80 miles—total, 491.18 miles. Total miles of road, 1,990.78. This is an increase of 0.9 of one mile during the year, being an extension of 0.7 of a mile to the iron mines on Peninsula Division, and 0.2 of a mile on the Batavia Branch.

The earnings of the 1,499.6 miles of the Chicago and Northwestern Railway, as stated above, for the year ending May 31, 1875, were $12,707,726 51, against $14,410,124 59 for the preceding year—a decrease of $1,702,398 08, or 11.81 per cent. The operating expenses and taxes were $7,984,694 55, against $9,334,450 92 for the preceding year—a decrease of $1,349,756 37, or 14.46 per cent. The percentage of expenses to earnings, exclusive of taxes, in 1874-'75, was 59.47; same for preceding year, 62.05. Per cent inclusive of taxes, 62.83; same for preceding year, 64.77. The President in his report says:

Compared with the previous year, the decrease in gross earnings on the whole road, inclusive of proprietary lines, was $1,904,234 79, or 12.14 per cent, and the decrease in operating expenses, $1,513,506 60, or 15.4 per cent. The saving on pay rolls, which is included in this amount, was $513,195 50, and in nearly every item of the account there has been a reduction from the figures of the previous year. At the same time, the entire property and equipment have been well maintained, and in some important particulars greatly improved.

The benefit which the company is receiving from the use of steel rails is already apparent, and is shown in the saving of repairs of engines and cars, in track expenses, in the greater ease and safety of transportation, and in the improved condition of the road, at a large reduction of the cost of repairs.

The work of renewing the most important lines, where traffic is heavy and the demands of the service are great, is steadily progressing, beginning at Chicago, and extending in all directions. During the year, 16,500 tons of steel rails were purchased in addition to those mentioned in former reports. A considerable portion was laid during the Spring months, and the remainder, amounting to about 97 miles, will be received and laid the ensuing Summer. These rails, purchased on advantageous terms, are paid for as delivered, partly in gold bonds, and partly by exchange for old iron rails. The amount of gold bonds used for this purpose during the past year was $614,000, and the saving made in track repairs in the same time—which was greatly due to the use of steel—amounted to $595,006 15.

The total miles of steel rail track on the 31st of May, 1874, were 206.6, and on the 31st of May, 1875, there were 323.35 miles, showing an increase of 116¾ miles laid during the year.

Many other improvements have been made to the property within the last year, and a statement of some of the principal items will be found on subsequent pages of this report. Among the most important may be mentioned a renewal, with iron, of two spans of 175 feet each, of the bridge across the Mississippi River, at Clinton, in place of wooden spans removed. The superstructure of this bridge is now all of iron.

The bridge across the Des Moines, in Iowa, which was formerly a Howe truss of five spans, has been rebuilt with combination truss and bottom chords of iron, making a much more durable structure.

The work of filling up the ravine at the long Racine bridge is in progress, and a new bridge, of short span, with suitable drawbridge, is constructing, and will be put in at that place.

Various permanent improvements in filling up trestle work, building stone arches, and renewing bridges with work of more durable character, have been made at different points during the year.

A new freight house, 28×300 feet, has been erected at Milwaukee; a passenger house, of brick, completed at Beloit; an engine house, with 15 stalls, has been built at Kendall's, on the Madison Division, and a few other station buildings have been constructed, at moderate cost, to meet the wants of business.

The equipment is in good condition. Fourteen locomotives; eleven first class passenger cars; one second class car; one baggage car; two hundred and twenty seven freight cars, and sixteen caboose cars have been rebuilt, besides making thorough repairs, sufficient for the maintenance of the entire rolling stock for efficient service.

The expenditures for construction embrace no new projects, but have mostly arisen from settling up old matters connected with the construction of former years. Unsettled rights of way; depot grounds in Milwaukee, acquired by condemnation proceedings; station facilities; grading, ballasting, ditching and fencing on portions of the new roads; extension of side tracks; payments made in settlement of traffic contracts for extensions to iron mines in former years; extra cost of steel rails over iron, and of iron bridges; work on the new repair shops at West Chicago, and a large viaduct over the track at Halsted street in Chicago, in compliance with the assessment laid on the company by the city authorities, and other mis-

cellaneous items, make up the aggregate of this account.

An examination of the business of the year shows that more than one half of the decrease in gross earnings was caused by a reduction of passenger and freight rates, mainly induced by the operation of the "Potter Law," and by the enforcement of other kindred statutes for "regulating" transportation on railroads in the States of Illinois, Wisconsin, Iowa and Minnesota.

There was an average reduction of 0.1852 cents per passenger per mile, amounting to $216,267 96; and a reduction on freight of 0.1742 cents per ton per mile, amounting to $791,819 95; giving a total of $1,008,087 91 taken from the revenue by reduction of rates, and not by reduction of business.

The balance of the decrease in gross earnings, was occasioned by the general depression, which has prevailed every where throughout the country, affecting all branches of trade and manufactures, extending to the agricultural districts in the low prices of grain and other products, and keeping back from market a considerable portion of the crop in the Northwest during the last year. There was a large falling off in the demand for Lake Superior iron ores, and the traffic on the Peninsula Division suffered a decline of $367,811 56 from this source.

These causes of depression cannot be regarded as permanent, as the grain so long withheld will be wanted; and with its movement there will be a recovery of business, extending particularly to the wheat carrying portions of our lines. The stagnation in the iron trade is general, and that the Peninsula line should feel the effect of it is not strange. But the rich ores found in that region, of sufficient purity for the manufacture of steel rails, will be wanted in increased quantities in the future; and this demand will contribute to the revival of the iron industries of the country and the traffic on the Peninsula road.

The cases which arose under the Potter act in Wisconsin last year, and were taken up on appeal to the Supreme Court of the United States at Washington, have not yet been tried, although an ineffectual effort was made to advance them to a hearing at the last October term. It is anticipated that they will be disposed of within the present year, and the important questions presented in this litigation—whether, under the reservation contained in the charters in that State, the Legislature may fix any rates of fare and freight it may choose, whether such rates are at all remunerative or not—will be settled by a decision of the highest tribunal.

Notwithstanding the disappointment which was felt in not obtaining relief from this oppressive act at the last session of the Wisconsin Legislature, to which honorable body a memorial was presented, showing the utter want of precedent either in this country or in Europe for the low rates prescribed by the Potter law,—yet it is confidently believed that the disposition then manifested to modify the statute in a moderate degree, will be followed by its repeal, or by a radical reform of its most unjust features at the next meeting of the Legislature,—whereby confidence shall be restored to capital employed in that State, and owners of railway property shall not be deprived of its beneficial use, under the delusive pretext of subjecting corporations to legislative control.

CAPITAL STOCK.

The capital stock of the company has been increased by $3,080 during the past year, one half of which was common and one half preferred stock; the same having been issued for Peninsula bonds converted, and for adjustment of fractional amounts on old dividends of former years.

The amount outstanding on May 31, 1875, was:

Common stock and scrip	$14,994,600 40
Preferred " "	21,485,653 42
	$36,480,253 82

FUNDED DEBT.

The changes in the funded debt, by the payment and cancellation of various classes of bonds, and by issue of consolidated bonds therefor, are as follows:

The bonds retired were: Preferred Sinking Fund $4,000; Appleton Extension, $1,000; Green Bay Extension, $17,000; Funded Coupon, $8,000; General first mortgage, $10,000; Galena and Chicago Union, first mortgage, $1,000; Galena and Chicago Union, second mortgage, $811,000; Seven per cent. Equipment bonds, $15,000; Elgin and State line, $6,000; Mississippi River Bridge, $4,000; Peninsula bonds, $3,000; Beloit and Madison, $22,000; Chicago and Milwaukee R. R., $54,000; and Milwaukee and Chicago R. R. bonds, $95,500. Total $1,046,500 canceled.

The following bonds have been issued in lieu of the same, viz: Consolidated Sinking Fund currency bonds, maturing A. D. 1915, $397,000; and first mortgage bonds of the Chicago and Milwaukee Railway Company, maturing A. D. 1898, amounting to $58,000. Total, $955,000 issued. Besides these, there has been an issue of $614,000 of the Gold Loan bonds for steel rails, as previously stated in this report, and $149,000 for other purposes of construction.

Since the last report there has been a decrease in various items of unfunded debt of $943,628 10, and an increase in other items on account of current business of $89,496 72, making a net reduction in floating debt of $854,131 38 during the last fiscal year.

Some progress has been made in the sale of land grant lands; but until the wood and timber on the Upper Peninsula shall be wanted for the manufacture of lumber and charcoal, such sales will be slow. And the prairie lands in Western Minnesota and Dakota, which are opened up by the Winona and St. Peter line, will come into demand gradually with the advance of settlement and the occupation of adjacent government lands. For the doings of the year, in this department, reference is made to the accompanying report of the land commissioner.

It is gratifying to state, that the new fiscal year opens with improved prospects for the company. There is encouragement in the repeal of the destructive railroad law of Minnesota accomplished last winter, and a reasonable hope that the example will be followed by the Legislatures of Wisconsin and Iowa at their next session. The strong but mistaken prejudice which culminated in unjust laws and vexatious suits against the railways of the Northwest during the last year, is giving place to discussion and investigation; and as soon as the wrong perpetrated shall be properly understood, and its effect measured, stockholders may hope for a fair interest on their property. The railroad, during all the time of depression since the panic two years ago, has been steadily improving and enlarging its capacity for business whenever the recovery comes. Nearly four millions of dollars have been expended for steel rails during the last three years, the great benefit of which will be felt for many years in the future. The floating debt has been largely reduced, and what remains is in process of extinguishment by the operations of the company. There is an improvement, at the time of writing this report, in the traffic of the line—the month of July showing an increase of about $264,000 over the same month last year. The prospects for a good harvest in the region of country contiguous to our lines are better than in many other portions of the West, and the prices for grain and the demand for export are sufficient to warrant the expectation of a good business the ensuing season, as compared with the business of the last fiscal year.

The equipment of the Chicago and Northwestern Railway on the 31st of May, 1875, consisted of 342 locomotives, and 8,109 cars, viz: 142 first class and 29 second class passenger cars, 65 baggage and express cars, 15 mail cars, 140 caboose and way cars, 4 paymasters,' directors,' officers,' and business cars, 18 boarding cars, 4,278 box freight, 1,025 platform, 404 stock, 26 dump, 1,957 iron ore, and 11 pile driving, wrecking, etc., cars. And of the Winona and St. Peter Railroad, 27 locomotives, and 1,087 cars, as follows: 7 first class passenger, 2 baggage mail and express, 2 caboose, 893 box freight, and 133 platform cars. Total number of engines, 369; total number of cars, 9,146.

The number of miles run by locomotives on the whole road for the fiscal year ending May 31, 1875, were: passenger, 2,491,956; freight, 4,589,081; wood trains, 87,119; gravel, 451,269; switch, 1,953,469—total, 9,572,894, against 10,264,490 for the preceding year—a decrease of 691,596, or 6.74 per cent. Total number of passengers carried, 3,407,620; average number of miles each passenger was carried, 34.27. Total number of tons of freight carried, 3,153,315; average number of miles each ton of freight was carried, 144.15. Average distance run by each passenger train, 99.53 miles; do. by each freight train, 208.25 miles. Average number of passengers carried per mile run, 46.86; average number of tons of freight hauled per mile run, 69.48. Average earnings per mile run: by passenger trains, $1 70; by freight and switching, $1 46; by passenger and freight trains, $1 53. Average cost of running above trains one mile, including taxes, 96.99 cents. Average net earnings on each mile run by above trains, 55.60 cents. Number of miles run to ton of coal or cord of wood, 30.88, against 31.46 in the previous year—a decrease of 2 per cent. The total cost, per mile run, including oil, waste and tallow, repairs of engines, fuel used, and wages of enginemen, firemen and wipers, was 25.25 cents, against 28.37 cents in the previous year—a decrease of 11 per cent. This large decrease in the "cost per mile run" represents a saving to the company of $298,674 29.

The earnings of this road monthly, for a series of years will be found on page 1127 of this week's issue. Also a full description of the company's bonds—amount outstanding, rate of interest, when and where payable, and the date of maturity of the principal—will be found on page 1130.

GENERAL BALANCE SHEET, May 31, 1875.

Old construction:		
Cost of property (in consolidation)		$39,979,262 62
New construction:		
Balance expended to May 31, 1874	$18,023,938 71	
Expended for yr. ending May 31, 1875	1,204,590 07	
		19,228,528 78
New equipment:		
Balance expended to May 31, 1874	$7,953,287 16

President.—ALBERT KEEP.

Vice Prest. Sec. & Treas.—M. L. SYKES, Jr.

Directors.—A. G. Dulman, Charles R. Marvin, Harvey Kennedy, A. B. Baylis, David Dows, R. P. Flower, Samuel M. Mills, M. L. Sykes, Jr., Francis H. Tows, New York: Wm. L. Scott, Milton Courtright, Erie; Albert Keep, John F. Tracy, Henry H. Porter, Wm. H. Ferry, Chicago; James H. Howe, Kenosha, Wis.; J. L. Ten Have Fzn, Amsterdam, Holland.

Assis't Secretary & Treasurer.—S. O. HOWE.

General Manager.—HENRY H. PORTER.

Gen'l Superintendent.—MARVIN HUGHITT.

Chicago and Northwestern Railway.

REPORT OF THE LAND COMMISSIONER.

CHICAGO AND NORTHWESTERN RAILWAY CO.,
LAND DEPARTMENT,
CHICAGO, July 24th, 1875.

ALBERT KEEP, Esq.,
President C. and N. W. Railway Co., Chicago, Ill.

DEAR SIR:—I herewith send you a statement of the number of acres of land sold during the year ending May 31st, 1875, as well as the number of acres held under the respective land grants at that date, as follows:

In Michigan, sold during the year, 13,452.13 acres.
In Wisconsin, " " 10,844.35 "

Total number of acres sold..24,296 48 acres.
Average price per acre of said sales, $4 78.

Number of acres remaining, May 31st 1875:

In Michigan..... 639,750.87 acres.
In Wisconsin..... 864,228.29 "
In Minnesota and Dakota.....1,104,664.00 "

Total.....2,108,643.16 acres.

It will thus be seen that, notwithstanding the company had sold during the year ending May 31st, 1875, some 10,844.35 acres of land in the State of Wisconsin, the company still had more lands in said State than were reported on the 31st of May, 1874. This arises from the fact, that during the past year the company has received patents from the United States Government on the Wisconsin Land Grant, for 24,667.03 additional acres, which the company was entitled to receive under said grant.

During the past year, a considerable portion of the lands in the upper Peninsula of Michigan have been examined, and are now ready for appraisal, but, owing to the great depression and stagnation in the Lumber and Iron Ore interests, the sales of all timber lands are necessarily light, and will so continue until those interests shall revive.

As you are aware, the title to the four additional sections of land granted by Congress for the construction of the Winona and St. Peter Railroad, was not fully confirmed by the Legislature of Minnesota until the past Winter; and until that was done, only a portion of the lands belonging to that company, under the grants of Congress, could be obtained from the State. Since the passage of the necessary act confirming the title to all the lands granted by Congress for the construction of said road, deeds for all of said lands lying in the State of Minnesota, which were ready to be deeded, have been obtained, and a deed for all of the lands lying in the territory of Dakota, containing 443,814.07 acres has been prepared and approved at the State Land Office, and will be executed by the Governor in a few days.

All of the lands lying in the State of Minnesota, except a few scattering tracts, which I have directed to be examined at once, have been examined, and maps and diagrams have been prepared, and the lands are now ready for appraisal. A very considerable portion of the lands in the Territory of Dakota has also been examined, and maps and diagrams of the same are in course of preparation and will be in readiness in advance of a demand for the lands by settlers.

Very truly your obedient servant,
GEORGE P. GOODWIN,
Land Commissioner.

☞ Judge Shipman of the U. S. Circuit Court has confirmed the recent sale of property and franchises of the Northern Pacific Railroad Company and their purchase by the committee representing the bondholders. The company will now be reorganized by the issue of preferred stock to the holders of bonds.

☞ The sixth section of the Southern Pacific Railroad of California, comprising twenty miles, has been accepted by the President.

Consolidated Coal.

The problem of the utilization of coal dust has occupied attention for some years past, and it has been solved in various ways and with varying success. The most recent practical attempt is that now being made by the London and Provincial Consolidated Coal Company, whose works at Blythe lane, Hammersmith, were inspected yesterday afternoon by a party of engineers and other scientific gentlemen. The process of utilization as there carried out is very simple, and, so far as at present proved, very effective. The company buy up the small coal—screenings from the numerous coal depots at the railway stations in and about the metropolis. The agglutinizing mixture consists of pitch and tar, which are melted together in a heater with plaster of Paris and farina (potato starch). The liquified ingredients are transferred in a boiling state to the head of a trough, in which an Archimedean screw, or creeper, works. The coal, and liquid tar, &c., are fed into the trough in certain proportions, and, having been well mixed by the screw in the trough, are delivered into a bopper at the tail end. The bopper is placed over a circular revolving molding table, in which are eight molds, arranged in pairs of two. As the material is fed into one pair of molds it is carried round to the die, where the compound receives compression by hydraulic apparatus, the table in its revolution next landing the loaded bricks at the delivery stage. They are thence removed to the stacks and air dried, two hours sufficing to render them hard and fit for removal and use. The proportions employed are one ton of coal to ninety pounds of pitch, three gallons of tar, five pounds of farina, and five pounds of plaster of Paris. The molds measure 9 inches long by 4½ inches deep, and 4½ inches wide, and the bricks come out the same length and width, but only 2½ inches deep. They are strong enough when dried to bear considerable knocking about without breaking, and the stated advantages over other fuels of this class are that they contain less pitch, and that no water is used in their manufacture, giving ultimately a better class of fuel. This fuel has been tried by the Thames Steaming Company and at the India stores in the Belvedere Road, and in both cases is reported upon favorably. The works were started toward the close of last year, and the products appear to have found favor during the winter as domestic fuel, especially in poor districts, on account of its cheapness and heat-giving qualities. The works turn out about ten tons per day of ten hours, and there is a brisk demand for the fuel, which, it is anticipated, will lead to an extension of its manufacture. At any rate so far as present experience serves, the consolidated coal appears to offer another means of prolonging our coal supply by utilizing the waste of its production.—*London Times, July 31.*

☞ A new enterprise has been organized under an old charter, with the title of the Grant Coal, Oil and Lumber Company of Allegany County, Md. Its capital is stated at $1,000,000, divided in 20,000 shares of $50 each for working capital. They have 782 acres of mining lands, which are expected to yield 6,000 tons to the acre.

☞ At a meeting of the Providence, Ponaganssett and Springfield Railroad Company in Providence, R. I., on the 27th ult., the permanent location of the road was ordered to be commenced at once, and Chief Engineer Everett was instructed to be ready for the field as early as September 1.

☞ The Metropolitan (Washington) Street Railway Company (owning the F street line) have elected the following directors: J. W. Thompson, A. H. Herr, Lewis Clephane, M. G. Emery, Wm. Thompson and Moses Kelly.

☞ The earnings of the Philadelphia and Erie Railroad for July, 1875, were $322,837, the expenses $202,424, and the net proceeds $120,413.

The Coal Trade.

The production for the week ending on the 21st ult., as stated by the Philadelphia *Ledger*, was 568,582 tons, and for the year 11,188,414 tons, against 12,318,543 tons to corresponding date last year, a decrease of 1,130,129 tons. The bituminous tonnage for the week was 80,453 tons, and for the year 2,295,431 tons, making a total of all kinds for the week of 649,035 and for the year of 13,483,545 tons, against 14,552,711 tons to the same time last year, a decrease of 1,069,166 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 100,177 tons, and for the year 2,492 626 tons, of which 2,099,638 was coal and 395,798 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 28th ult. there were receipts of 70,000 tons of coal, shipments of 65,000 tons, leaving 70,000 tons on hand. The weekly statement of the movement of coal at Perth Amboy by the Lehigh Valley Railroad Company for the week ending August 27 was —receipts, 12,771 tons; shipments, 12,842 tons; and remaining on hand 18,239 tons. The *Ledger* adds:

The Philadelphia Coal and Iron Company announce the following prices of coal at Schuylkill Haven for the line and city trade for the month of September: Lump, steamboat and chestnut, $2 58 per ton; broken, $3 18; egg, $3 38; stove, $3 63; chestnut No. 2, $2 48; and pea, $1 38. The prices charged by the same company for the same classes of coal at Port Richmond are $4 55 for lump, $4 65 for steamboat, $4 75 for broken, $5 05 for egg, $5 50 for stove and $4 45 for chestnut. The following are the announced prices of the Lehigh and Wilkesbarre Coal Company's coal, free on board, at Port Johnston, for the month of September, the company, in its announcement, reserving the right to change the same at any time, except on contracts made prior to such variations: Lump, $5 55; steamboat, $5 15; broken, $5 50; egg, $5 60; stove, $6; chestnut, $5 10; and chestnut No. 2, $4. The Delaware and Hudson Canal Company give notice that the following will be the prices of their coal at Rondout for the month of September: Lump and steamer, per ton of 2240 pounds, $5 05; grate, $5 25; egg, $5 55; stove, $6; and chestnut, $4 95. The expense of towing vessels from New York Harbor to Rondout and back will be borne by the company. Freight from Rondout to New York by company boats or barges will be delivered in the city of New York at 50 cents per ton. The Pennsylvania Coal Company did not change their rates on any sizes. The proposition of the Philadelphia Coal and Iron Company, noticed last week, to furnish to all furnaces in the Schuylkill region now out of blast all the raw material and take the product off their hands, paying for the cost of manufacture, we understand meets with favor, and if carried into effect will make a near market for a large quantity of coal annually by supplying it to those furnaces along the line which accept the company's proposition, and as it is in the power of the company to keep them running the year round, by purchasing all their product, it thus maintains no small amount of trade during dull as well as busy seasons. The proposition is to supply the furnaces with coal, ore and limestone, to be converted into pig iron for the company at prices which leave a margin of profit for the furnace man without reference to the state of the market. Negotiations, we understand, are now on foot to operate a number of furnaces on this plan.

☞ Ground was broken at Woodland, Cal., on the 20th of August for the California Pacific Branch Road from Woodland to Tehama. Turton & Knox, the contractors, have a large force at work grading.

The Coal Fields of West Virginia.

At a meeting of the Association for the Advancement of Science, at Detroit, Mich., a few days ago, Prof. E. B. Andrews, of the Ohio Geological Corps, read a paper on "A Comparison Between the Ohio and West Virginia Sides of the Allegany Coal Field." The object of the paper was to show that there is an enormous thickness of coal measures in West Virginia on the Kanawha, Guyandotte, &c., while on the Ohio side of the synclinal axis of the field they are relatively thin. The professor took the Pittsburg seam of coal as a basis of measurement, and while the distance from this seam to the bottom of the productive coal series in Ohio and Western Pennsylvania is from 500 to 900 feet, on the Kanawha and New rivers the distance is 3,100 feet.

The remarkably fine group of coals on Elk river, on the Kanawha between Charleston and Kanawha falls, on Coal river on the Guyandotte, on Twelve Pole, and on the Tug and Louisa forks of Big Sandy river is in geological position below the base of the Ohio measures, and there is another group 1,200 feet thick, lying still lower in the stratigraphical column. These deep coals in West Virginia were found in a deep geo-synclinal trough which probably extended to the southwest through Tennessee, and in this direction connected with the ocean. Its extension to the northeast through the anthracite coal fields of Pennsylvania has not yet been ascertained. When the great Western Virginia basin was filled, the water in the general subsidence came over the broad plateau of the Ohio Waverly and the corresponding formation in Western Pennsylvania, and the coal series grew upward to the Pittsburg coal seam, and still above this for 1,200 or 1,500 feet. The differences in the lithological character of strata of the upper and lower measures was discussed. The importance of a full geological survey of West Virginia was urged, and no State in the Union would be so much benefited by such a survey.

Railroad Building in Southern California.

The visit of Messrs. Huntington, Crocker, Gray and Redding, of the Central and Southern Pacific Railroads, to this part of the State is likely to lead to more active progress in the way of railroad building, and also to more rapid improvements in Wilmington harbor. We are informed that it is the purpose of the company to set several dredges at work at their own expense on the bar. The Southern Pacific is to be pushed forward to the Colorado river as expeditiously as men and material will do the work. The company still adhere to the determination to close the gap between this city and San Francisco by the first of next July. They also propose to build a branch road from the most available point on the Southern Pacific in the Mojave valley to the mines of Inyo county. This will be the shortest and most direct route from the ships in Wilmington harbor to the Panamint and other mines of Inyo. The party visited San Diego bay. They traveled over the route by stage, and express themselves well pleased with the route, which they pronounce quite practical for railroad purposes. Mr. Huntington thinks it probable that the company will commence this piece of road in a short time. It is also in contemplation to construct a road from San Diego out to San Gorgonio Pass, when a connection will be made with the Southern Pacific. The company have sent out a corps of engineers with instructions to survey a railroad route from San Diego to the Gila on the thirty second parallel, and it is not improbable that a road running out of San Diego over this route will be commenced before many months have gone by.—*Los Angeles Herald.*

Worcester County Central Railroad.

The engineers have completed the survey for the Worcester County Central Railroad from the junction of the Ware River and Massachusetts Central Roads at Hardwick Old Furnace to East Brookfield. At this point it joins the survey made last year, through Spencer and Leicester to Worcester. The route is very feasible, and is all that it is claimed by Mr. Gilman, the grades proving much better than was expected. The grades will not be over thirty feet to the mile, and there is only sixty five feet to rise from West Brookfield to the highest point on the line, which is at "Ditch Meadow School House," in the west part of New Braintree. The line is nearly straight and nearly level, and the base line is just nine miles from the Massachusetts Central Road to a point on the Boston and Albany Railroad, one mile east of West Brookfield depot, opposite the Davis farm. This line runs through the centre of the village, and it is straight for a long distance; the other line leaves the base line on the east side of the pond, and runs south and through the westerly part of the village, and close to the residence of E. P. Blair, coming out at West Brookfield depot eight and three tenths miles from the Massachusetts Central Road. This line from East Brookfield to Hardwick will be thirteen and one half miles, nearly straight and level to West Brookfield. Also nearly straight and level from West Brookfield to Hardwick, giving thirteen and one-half miles of road better than is usually found in New England. The line from West Brookfield to Hardwick is expected to be a part of the Providence and Tunnel line.

The route from the Boston and Albany Railroad to make Providence connection has not been agreed upon.—*Worcester Spy.*

Tidewater Receipts.

The quantity of flour, wheat, corn and barley left at tidewater from the commencement of navigation to the 22d ult., inclusive, during the years 1874 and 1875, was as follows:

	Flour, bbls.	Wheat, bushels.	Corn, bushels.	Barley, bushels.
1874....	47,100	12,201,200	13,784,400	74,100
1875 ...	35,500	9,911,900	2,884,100	.....
Dec...	11,000	2,289,300	10,900,300	74,100

By reducing the wheat to flour the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows a decrease equal to 469,460 bbls. of flour.

The following comparative table shows the qantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 22d of August in the years indicated:

	1873.	1874.	1875.
Canal opened	May 15.	May 5.	May 18.
Flour, bbls.....	64,800	47,100	35,500
Wheat, bush....	8,411,800	12,201,200	9,911,900
Corn, bush.....	7,298,000	13,784,400	2,884,010
Barley, bush....	22,200	74,100	.....
Rye, bush.....	573,400	189,800	83,500
Oats, bush.....	2,000,400	1,217,800	1,090 100
Malt, bush.....	535,000	356,300	495,600
Feed lbs.....	4,690,500	241,500	115,100

☞ Articles of consolidation between the Toledo and St. Louis Air Line Railroad Company and the Shelbyville, Oconee and East St. Louis Railroad Company, under name of the St. Louis and Toledo Air Line Railroad Company, were filed with the Secretary of State of Ohio on the 29d ult.

☞ The report of the bureau of statistics shows a falling off in immigration during the twelve months ending June 30, 1873, as compared with the same period ending June 30, 1874, of 85,962. The total number of immigrants was 227,377 against 313,339 in 1874.

American Railroad Journal.

Saturday, September 4, 1875.

Financial and Commercial Affairs.

More or less of disturbance has been occasioned during the week by the failures in the financial and commercial lines, of which the daily journals have made full, if not sensational, record. Most important of these failures have been those of the Bank of California—due mainly to apparently reckless speculative ventures in various forms; and of the Ahrens Sugar Refining Co., of Baltimore. Of these disasters, the utmost use has been made at the Stock Exchange, with a view to the depression of values, in the interest of the *bear* operations, with, in some instances, decided success. As the outgrowth of the heaviness and irregularity in Stock values, Money has been in much more urgent request on call, and rates have fluctuated widely within the range of 2@6 per cent per annum; the bulk of the business having been done at from 2@4 per cent on railway and miscellaneous share property, as collaterals. To the large dealers in the public funds, ample accommodation has been afforded at the exceptionally low figures of 1@2 per cent. And in the mercantile line, discounts to houses, recognized as in strictly good standing, have been quite readily made within the range of 4@6 per cent per annum on choice to prime commercial paper. The commercial failures of the week have been mostly of firms, seriously crippled in their resources by the panic of 1873, and since struggling to recover lost ground and save themselves from what from the first moment of grave reverse seemed inevitable—bankruptcy, and enforced liquidation. The legitimate

trade and industrial interests at present are deemed substantially sound, and in much better condition to meet the accidents of the future, than they have been at any previous time within two years; thanks to the very conservative course which our business people have been recently pursuing. This has been very clearly indicated, through the past week, by the comparatively limited influence, of an adverse nature, exercised by the reports of what were deemed important failures, and the immediate resulting embarrassments to parties directly in interest. The commercial outlook for the Fall season is, on the whole, considered very encouraging, the bountiful harvests serving vastly to strengthen confidence in this relation. The City Banks last week increased their reserve of legal tender notes $118,000, and their deposit item $469,900, while reducing their specie average $340,600. They report a contraction of $624,300, in the loans and discounts, and a falling off of $213,500 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $62,444,891, against $62,318,527, the preceding week; and a coin hoard of $35,262,015 against $33,607,443, on the previous return. The City bank exchanges in currency during the week were $302,435 507, or a daily average of $50,405,918. The customs revenue of the port, during the week, was $8,035,000. The City banks reported their average of gold last week at $12,045,100, and their greenback average at $70,508,700. Their deposits stood at $246,646,700. The loan item was $282,336,900. The circulation was $18,021,000.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $20,892,125.

The aggregate of the outstanding U. S. currency, of all denominations, September 1, was $415,938,229. The outstanding amount of legal tender notes is $374,755,108. The National bank circulation is now $348,725,018, including $2,640,000 of national gold bank notes.

On Tuesday, the cash balances of the Treasury Department at Washington were of Currency, $4,735,739; special deposit of legal tenders for the redemption of certificates of deposit, $64,440,000. Coin, $69,565,007. Coin certificates, $17,557,600.

Government will sell four millions of Gold, during the current month of September, as follows: September 2, $1,000,000; September 9, $500,000; September 16, $1,000,000; September 23, $500,000; September 30, $1,000,000.

The U. S. Sub Treasury receipts from all sources, in August, were $54,932,972, including $12,058,814 from customs; payments, $49,513,510, including $5,055,680 of coin interest.

The week's import entries of Foreign Merchandise at New York, were $7,572,013, and included of dry goods $2,580,604.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 19½ millions.

Gold has been more active and quoted stronger. Speculation has been more animated, though impeded to some extent by the scarcity of coin for prompt delivery. The customs drain has been heavier. The export movement has been comparatively limited. The extremes of the week have been 113⅜@114¾, closing on Wednesday at 114¼ as against 113⅜, on Wednesday of the preceding week. The specie outflow last week was only $444,853 against $622,978 the previous week. The imports of specie at this port since Jan. 1, have been $8,311,959, against $3,216,000 same time last year. The customs demand for Gold last week averaged $393,666. Foreign Exchange has been offered more freely and has been in less request at easier rates. Bankers' sixty day bills on London closed on Wednesday at $4 84@$4 85; sight bills on London at $4 87@$4 88 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,146,000. The week's imports of Dry Goods and general merchandise were to the specie value of $7,572,013 against $9,525,261 same week last year.

Government Securities have held their own comparatively well, since our last, the offerings of most issues having been quite moderate; while the demand has been good, largely in the form of mail orders to the commission houses. On Wednesday the $10,000,000 5-20 bonds, called in for redemption by the Secretary of the Treasury on June 1, ceased to bear interest.

U. S sixes of 1881 closed on Wednesday of this week at 122@122¼; U. S. Five-Twenties of 1864, at 116¾@117; U. S. Five-Twenties of 1865 118¼@118½; U. S. Five-Twenties of 1865, consolidated, 118¼@118½; U. S. Five-Twenties of 1867, 120¼@120½; U. S. Five-Twenties of 1868, 120⅝@120⅞; U. S. Ten-forties at 119½@119¾; U. S. Fives of 1881, (Funding Loan) 116⅞@117⅛; Six per cent. currency Sixes, 123@123¼.

State and Railway bonds have been in much less request at generally easier prices. And in the line of Railway and Miscellaneous share property, business has been more animated, but the dealings have been of a decidedly *bearish* temper, under speculative manipulations, and prices have been quoted lower and irregular.

Notwithstanding the failures in the mercantile line, business for the Fall season has been making fair progress, in nearly all branches. Dry Goods, Hardware, Boots and Shoes, Leather, Tobacco, Cotton and Petroleum, have been rather more active, and on the whole, at comparatively steady prices. Flour, Grain and Provisions have been freely dealt in, but closed weaker in price. Hides, Wool, Naval Stores, Groceries and East India Goods have been less freely dealt in, but without important change as to values. Metals have been moderately sought after within the previous range. Eglinton Pig Iron quoted here at $28 50@$29 50; Glengarnock, $32; Coltness, $32; No. 1 American Pig at $25@$27; No. 2 do. at $23@$25; Forge, $22@$23 50; English Rails at $48@$50, gold; American Rails, at works, $47@$53; Old Rails, $25@$26 50, with sales of 1600 tons. Wrought Scrap, $32@$35. Ocean freights have been quoted lower, leading to a freer movement toward the close, chiefly in the line of Grain, Provisions, Flour, Cotton and Petroleum.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Delaware and Hudson Canal reg. 7s, 1877, 103; Iowa Midland 8s, 1st mort., 81½; Rome, Watertown and Ogdensburg R. R., 25@28½; George's Creek Coal 140@145; Atlantic Coal, 2.55@2.65; Am. Gas Coal, 20@30.

☞ The Cleveland Rolling Mill company, which now employes 2030 men, with $100,000 monthly pay roll, is about to introduce the Siemens-Martin process for making soft steel for boiler plate and other purposes. They have also decided to put up a new building over the old mill, entirely of iron.

The Public Debt.

From the monthly report of the public debt for August we learn that the total principal of the debt outstanding August 31, 1875, was $2,239,388,944 28, on which there was due and unpaid of interest $26,919,783 90, giving a total of principal and interest of $2,266,308,428 18. There was at the same time cash in the Treasury, of coin, $71,117,272 73; of currency, $4,602,365 75, exclusive of $64,780,000 of special deposits for redemption of certificates, making the total of cash in the Treasury $140,499,638 48, reducing the total debt, less cash in the Treasury, September 1, 1875, to $2,127,808,789 70. Debt less amount in Treasury 1st of August, 1875, $2,127,893,836 96—showing a decrease during the past month of $1,585,049 26. Decrease of the debt since June 30, 1875, $2,879,936 62. Bonds issued to Pacific Railroad Companies, interest payable in lawful money, principal outstanding, $64,628,512; interest accrued and not yet paid, $846,235 12; interest paid by United States, $28,202,807 70; interest repaid by transportation of mails, etc., $6,304,047 41; balance of interest paid by United States, $2,898,760 29.

Foreign Demand for American Manufactures.

One of the leading Continental railways has just paid a high compliment to a prominent New England industry. The St. Johnsbury scale manufacturers have just received an order for four of their Patent Iron Frame Track Scales, and a leading English railroad is now putting in these standard scales.

Meeting in sharp competition the prominent scale manufacturers of Great Britain and the Continent, and winning, these orders are the most satisfactory prizes which could be awarded.

It can be readily seen where some of the 26,053 scales manufactured at St. Johnsbury the first six months of the year have gone, for the weighing of the world is an immense business, and FAIRBANKS seems to have the contract. With unsurpassed manufacturing facilities, with experience dating back nearly a half century, with a production largely in excess of any other similar establishment in the world, the Messrs. FAIRBANKS are enabled to manufacture the best scales at the lowest price—hence the increasing demand for their goods.

☞ An election is to be held in New Jersey on Tuesday next to decide for or against the adoption of a series of amendments to the State Constitution, which, agreeably the terms of that instrument, have been ratified by two successive Legislatures, and are now to be submitted to a popular vote. One of these amendments prohibits the loan of money or credit by any county, city or township in aid of any individual, association or corporation. The Governor, by another amendment, is given the power to veto any items to which he objects, in an appropriation bill, whilst he may approve of the remainder.

☞ The Baltimore Bridge Company has the contract for erecting a bridge over the Holston river, at Seven Mile Ford, on the Atlantic, Mississippi and Ohio railroad. It is to span a space of one hundred and twenty five feet, and the structure is after the newest improvement of the Fink suspension truss.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

☞ Notice is given at the Treasury Department that the Certificates of Indebtedness of 1870, issued on account of the claims of the States of Massachusetts and Maine, for money expended during the war of 1812, and transferred to the European and North American Railway Company, will be paid on the first day of September, by the Assistant Treasurer at New York. The amount of the principal is $678,000.

☞ The Treasurer of the Erie Railway company says that they have been enjoined by the Court from paying the interest on the consolidated mortgage bonds. They are, however, authorized to pay the interest on the second and third mortgages due September 1.

☞ The Secretary of the Treasury has ordered the destruction of $509,400 in legal tenders, being 80 per cent. of the national bank notes issued during the month. Their destruction will make the amount of legal tenders outstanding, until further notice, $374,245,708.

☞ The Camden, Gloucester and Mt. Ephraim Narrow Gauge R. R. Co. will shortly run trains between Gloucester and Philadelphia for the especial accommodation of working men residing in either city. The trains will be run at convenient hours and low rates of fare.

☞ The earnings of the Indianapolis, Cincinnati and Lafayette Railroad in June, 1875, were $126,371, the expenses $81,380, and the net earnings $44,991, against $55,546 in June, 1874, a decrease of $10,553.

☞ A project is on foot to build a railroad rom Erie, Penn., to Cambridge and Meadville, and thence to the Butler coal and oil fields, in order to secure cheap freights for these products.

☞ The Ohio and Toledo Railway, from Carrollton to Columbiana, is now under contract and in process of construction. Its length is sixty five miles.

☞ The Danville, Olney and Ohio River railroad project is again under discussion in Illinois; this time, it is said, with a fair prospect of the road's completion.

☞ Track laying on the Chicago and Lake Huron Railroad has commenced, and is progressing rapidly in the direction of Lansing, Mich.

Rule of Damages in Case of Marine Torts.

WHEN PERIL IS CAUSED BY SALVORS THEY CANNOT RECOVER.—DECISION OF THE UNITED STATES SUPREME COURT.

In the case of The Steamtug Clara Clarita, her engine, The New York Harbor Protection Company, appellant, vs. Augustus M. Cox, Lemuel H. Hopkins, et al.—appeal from the Circuit Court for the Southern district of New York—Mr. Justice Clifford delivered the opinion of the Court:

Marine torts as well as maritime contracts are cognizable in the admiralty, and where the redress sought is for an injury caused by one ship or vessel to another, the remedy of the owner of the injured ship or vessel may be either by a proceeding *in rem* or by a suit *in personam*, at the election of the owner, if the offending ship or vessel is found within the district where the suit is instituted. Damages are claimed in this case by the owners of the schooner Clara against the steamtug Clara Clarita for that the latter negligently and wrongfully caused the ferryboat James Watt, which the steamtug had in tow, and which was at the time on fire, to run into the schooner while she was lawfully lying at anchor, as alleged in the libel, whereby the schooner was also set on fire and sustained serious injuries and damages as they allege, to the amount of $7,000. Process was served and the owners of the steamtug appeared and filed an answer. They admit in their answer that the ferryboat was on fire, and allege that the steamtug went to her assistance, and that those in charge of the steamtug finding it impossible to extinguish the fire decided to remove her from her anchorage, and for that purpose they made fast a hawser to her and towed her out into the stream with the intent to move her up the river to the Hoboken flats, where, they believed at the time, she could be beached in safety. Throughout the period of that manœuvre the allegation of the answer is that the fire was below the decks; but it is conceded that the flames, after the boat was moved from her slip, suddenly broke out through the decks, and that the hawser by which she was being towed burned off and that the burning boat floated adrift into the stream. Two other attempts were made to make fast to the burning ferryboat, both of which were ineffectual to accomplish the intended purpose—one for the same reason as the first attempt, because the hawser was burned off, and the other for the reason that the fastening pulled out or gave way; and it is conceded in the answer that the ferryboat then went adrift, and that she floated, by force of the wind and flood tide, against the schooner of the libellants, which thereupon caught fire before the ferryboat could be dragged away. Testimony was taken on both sides, and the District Court entered a decretal order that the libellants do recover the damage which they sustained by reason of the collison, and referred the cause to a Commissioner to compute the amount. Due notice having been given of the time and place of hearing, the parties appeared before the Commissioner, and they having been fully heard, he reported that the damages sustained by the schooner, including demurrage, amounted to $5,989 72. Exceptions were taken by the respondents to the report of the Commissioner, the first of which was sustained by the court, which reduced the amount reported to the sum of $5,957 08, as appears by the final decree of the District Court. Subsequently the respondents appealed to the Circuit Court, where new testimony was taken, and the parties having been again heard, the Circuit entered a final decree affirming the decree of the District Court. Where upon the respondents appealed to this Court. Two errors are assigned in substance and effect, as follows:—1. That the Circuit Court erred in affirming the decree of the District Court. 2. That the schooner was in fault in not keeping a competent watch as she lay at anchor, and that the Circuit Court erred, even if the steamtug was also in fault, because the damages should have been divided. The following propositions declared below are affirmed:—1. The attempt to tow the burning ferryboat out into the stream by a hempen hawser was an act of negligence. 2. That the drifting of the ferryboat was not an inevitable accident but was the result of negligence on the part of those in charge of the steamtug. 3. That the schooner, not being required by law to keep a watch under the circumstances, was without fault and is entitled to damages.

The War in Colombia.

It has been announced that Panama has declared war against the United States of Colombia. Our own country, it should be recollected, has interests which are likely to be put in peril by this conflict. The Panama Railroad is owned by American capitalists, and the government of this country was guaranteed a protectorate over the road when the agreement to build it was accepted. It is not surprising, therefore, to learn that the Navy Department has ordered United States vessels to look out for American interests on the Isthmus. The steamer Omaha is already at Panama, and can protect the depot and property of the company at that point.

☞ Every section but one of the Burlington and Lamoille Valley (Vt.) Railroad has been let to sub contractors, and the work is vigorously progressing all along the line. This road, when completed, will give Burlington a connection with the Portland and Ogdensburg Railroad, and a new outlet by rail to tide water.

☞ Mr. H. M. Britton, late Superintendent of the Whitewater Valley Railroad, has been appointed Superintendent of the eastern division of the New York and New England Railroad and branches, with headquarters at Boston.

☞ Proposals to lay a track, furnish all the materials, and do all the work for the Long Island City Shore Railroad, from Astoria to Hunter's Point, a distance of about three miles, will be received by James M. Freeman, Treasurer, Ravenswood, L. I.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET, NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.

PERKINS, LIVINGSTON, POST & Co.,
59 Liberty Street,
NEW YORK.

LACHINE CANAL ENLARGEMENT.

NOTICE TO CONTRACTORS.

The letting of the works for the enlargement of the Lachine Canal, advertised to take place on the SIXTEENTH day of SEPTEMBER next, is unavoidably postponed to the following dates:—

Tenders will be received until WEDNESDAY the 29th day of SEPTEMBER next.

The plans and specifications will be ready for examination (at the places previously mentioned) on Thursday the Sixteenth day of September next.

By Order,

F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, 18th August, 1875.

☞ The Northern Colonization Railway sent a deputation to Quebec last week to solicit the Local Government to complete the work. Ministers promised their "consideration," and have since it is said agreed to carry on the project. It is also stated that the Quebec Government will continue the works upon the North Shore Railroad as far as Three Rivers.

Preservation of Boilers.

Experiments were made some time ago in England relative to the preservation of boilers by placing unslacked lime in those boilers which could be kept empty, and in those cases where they were liable to leakage from the sea, by filling them with a solution of lime in sea water. The result of this experimental application of the solution of lime proved so satisfactory that by direction of the government its use is to be extended to iron and composite ships. The regulation prescribes that in all cases where it is impossible to dry out completely any of the compartments, bilges, or wings, in order to coat them with composition, paint, or cement, lime well slacked is to be deposited in the water contained in such places, care being taken, in order to prevent injury, that the lime used be first thoroughly slacked.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

J. M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average **300 lbs.** Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

Debt of Iowa.

An Iowa correspondent of the Chicago *Tribune* says: "Our State indebtedness is $300,000, only of one issue, at seven per cent, and not yet due. No floating debt. Cash now in Treasury, $225,000. Amount of State valuation, $400,412,140. Amount of wealth per capita, about $308. Amount of debt per capita, about 25 cents. The State tax is $888,428, or 2 mills on valuation. Amount of revenue yearly exceeds expenditures by about $350,000, which is biennially appropriated to the support of the State University, Agricultural College, Reform School, Insane Asylum, Blind Asylum, Penitentary, and for erection of new Capitol."

LACHINE
Canal Enlargement.

NOTICE TO CONTRACTORS.

Sealed Tenders addressed to the Secretary of Public Works, and endorsed "Tender for the Lachine Canal," will be received at this office until the arrival of the Eastern and Western mails on THURSDAY *the Sixteenth day of September next*, for the enlargement of this canal, consisting of the widening and deepening of the channel from near the new basin east of Wellington Street bridge, upwards, to the river St. Lawrence at Lachine, embracing the construction of new locks at St. Gabriel and Cote St. Paul, also the taking down and rebuilding the upper portions of the present locks at these places: building regulating weirs, culverts, bridge piers: the construction of a new entrance lock at Lachine, and the formation of a channel and basin on the south or river side of the existing entrance.

The works will be let in sections of the respective lengths indicated on a map of the line which, together with plans and specifications of the various works, can be seen at this office, and at the Lachine Canal Office, Montreal, on and after FRIDAY, *the* THIRD *day of September next*, at either of which places Printed forms of Tender can be obtained.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque, or other available security, for the sum of from *one to three thousand dollars*, according to the extent of work on the section, must accompany each Tender, which shall be forfeited if the party tendering declines or fails to enter into contract for the works, when called upon to do so, at the rates stated in the offer submitted.

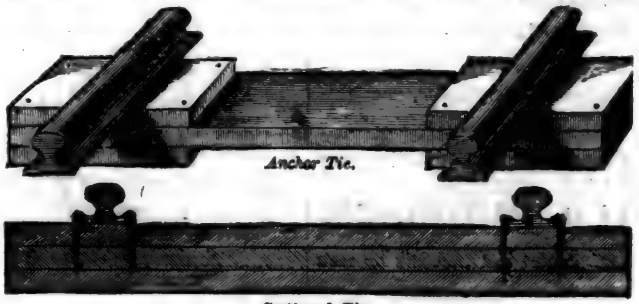
The amount required in each case will be stated on the form of Tender.

The cheque or money thus sent in, will be returned to the respective parties whose Tenders are not accepted.

For the due fulfilment of the contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to the amount of five per cent on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the works.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of works embraced in the contract.



This Department does not, however, bind itself to accept the lowest or any Tender.

By Order

F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, 9th August, 1875.

TRIPLER RAILROAD CROSS TIE COMPANY,
235 SOUTH THIRD STREET, PHILADELPHIA, PA.

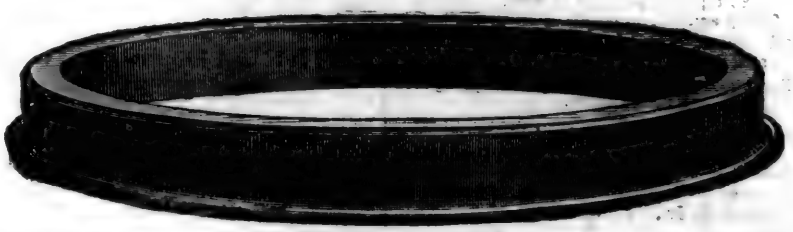
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, September 11, 1875.

Northern Pacific Railroad.

THE MASTER COMMISSIONER'S REPORT.—NECESSARY EXPENSES ATTENDING THE SALE OF THE ROAD AND ITS FRANCHISES.

The following report of the sale of the Northern Pacific Railroad, and the necessary expenses attending the same, was made on the 2d inst. to the United States Circuit Court for the Southern District of New York, by Master Commissioner Kenneth G. White:

In pursuance of a final decree made by the United States Circuit Court for the Southern District of New York, on May 12, 1875, by which I, the undersigned, was appointed a Master Commissioner, to hear and report to this court, subject to its further orders, direction, and confirmation, with all convenient speed, in detail and systematically, all the amounts necessary and proper to be paid out of the moneys arising from the sale of the property, rights, liberties, and franchises of the said Northern Pacific Railroad, therein ordered and decreed to be sold in the City and State of New York, and which were sold on Aug. 12, 1875, for the sum of $100,000, as appears by the report of said sale, filed on the same day, and mentioned and included in sections marked 1, 2, 4, and 8 of said decree I do report: That having given at least thirty days' notice by advertisement published as required and ordered by said decree, of the time and place when and where I would attend to take proof of the claims, I was attended at the said time and place by the counsel for the complainants, and by the several persons hereinafter named, in person, or by their solicitors and counsel; and the following named persons made proof of their claims mentioned or included in section 1 of said decree, and I find and report that the several sums set opposite their respective names are necessary and proper to be paid, viz:

Jay Cooke, Trustee	$7,500 00
Charlemagne Tower, Trustee	2,500 00
Trustees' expenses for ancillary decrees	500 00
A. B. Nettleton, agent and Trustee of the Trustees, for services and disbursements	18,085 80
A. B. Nettleton	2,078 88
A. B. Nettleton	1,067 00
J. Paul Diver, conveyancer and notary public	250 00
Charles Gibbons, back charges as Trustees' counsel	1,250 00
Oliver Fiske, a Master Commissioner, to make sale	15,000 00
Kenneth G. White, a Master Commissioner, to make sale	15,000 09
Kenneth G. White, Master Commissioner, on claims	5,000 00
Master Commissioners' expenses for advertising, &c.	6,500 00
Auctioneer's fees and expenses of sale.	1,000 00
F. A. Lane, complainants' Trustee, and counsel	25,000 00
George W. Cass, Receiver, services	25,000 00
Edward L. Andrews, counsel for co-complainants	5,000 00
C. F. Sanford and E. R. Robinson, associate counsel	4,076 56
Sanford, Robinson & Woodruff, counsel for Trustees in suit of Eliza Myers against company and Trustees	1,500 00
George Gray, counsel for Receiver	5,000 00
J. Kennedy Cass, Trustee for funding interest	1,500 00
Henry Stanton, counsel for defendants.	2,500 00
Court costs and disbursements	410 75

I further report that no claims have been offered or presented under sections marked 2 and 4 of said decree, or either of them, excepting the claim of Baker, Smith & Co., which is allowed under section 2, for the amount of $141 97.

I further report that the whole amount of the first mortgage bonds of the Northern Pacific Railroad Company, appearing by the said company's books, of coupon and registered bonds, and the bond ledger of the Trustees, to have been bona fide issued and to be now outstanding and unpaid, is $29,119,400 of principal, and the amount of interest warrants and coupons which may so appear to be due and owing upon such bonds as may have been bona fide issued is, up to July 1, 1875, $4,125,110 88, as near as can be ascertained and computed.

I further report that the item of $6,500, the amount of which is estimated to cover the expense of advertising by the Master and by the Master Commissioner, and the other expenses necessarily incurred in the performance of their duties, and the precise amount of which cannot now be reported, as bills for advertising have not all been received, will, in the judgment of the Master, approximate to and not exceed the said sum.

I further find and report that in the fixing and adjusting all of the above amounts allowed by me I have been attended from time to time by the parties to this suit or by their counsel, and have been so attended at the time of making this my report, and said report and the several sums allowed have been submitted to all of them, and no objection was taken thereto.

I further specially find and report, relative to the amounts allowed to the Master Commissioner and the Master for their compensation and expenses, that the same were agreed upon by counsel for all the parties, and approved by the committee of the bondholders, and have been accepted by the Master Commissioner and the Master.

All of which is respectfully submitted.

KENNETH G. WHITE, Master.

American Railroad Credit Abroad.

The following is an extract from the official report of the United States Consul at Rotterdam (Netherlands) to the Department of State at Washington:

Concerning the transactions in United States railroad shares, which, before the catastrophe in the United States, have been so important an element in the Dutch money markets, I have but to repeat the statement of my preceding annual report. Far from showing any sign of returning confidence in United States railroad shares, the Dutch public rather manifests increasing aversion. The sale of United States railroad securities, even at the lowest rates, is limited to the smallest minimum. The laws recently enacted in Wisconsin concerning railroads have just affected those securities in which the Dutch capitalists had invested enormous sums—namely, the Chicago and Northwestern and the Milwaukee and St. Paul railroads. As yet the holders of these bonds still believe that the hopes created and entertained by the directors of these railroads will be realized, and that those laws will be annulled by the Supreme Court. Should this not be the case a new depreciation of these securities, as well as of all other American railroad bonds, may be expected. For years to come no investment of Dutch capital

in United States railroad enterprises will be made Financiers who, in this country, have been dealing in United States railroad securities agree in declaring that a revival of confidence in American railroad enterprises can only be expected when a radical change of the present legislation on railroad companies takes place in the different States. As the best means of restoring confidence they indicate a strict control of the creation and payment of the capital of companies, the obligatory, regular (at least monthly) publication of the receipts and expenditures of the railroads; the limitation of the arbitrary power of the presidents of the companies and a greater influence on the part of holders of really paid bonds. Similar statements come from other countries.

Central Pacific Railroad.

The earnings of this road, for the year ending December 31, 1874, were as follows:

	Coin.	Currency.
From freight	$5,451,403 84	$2,435,710 97
" passengers	2,335,880 41	2,387,986 53

	$5,223,429 42	$44,702 45
Earnings over operating expenses	$3,052,872 13	$5,290,026 63

The following is a recapitulation of the earnings and expenses for the year 1874, together with a comparison of the same with the year 1873:

EARNINGS.

	1873.	1874.
Gross earnings, coin	$7,643,469 58	$8,276,301 55
Gross earnings, currency	5,220,483 40	5,334,729 08
Total earnings, coin and currency	$12,863,952 98	$13,611,030 63
Tot. earnings, equal to currency	$13,851,489 24	$14,531,355 36

OPERATING EXPENSES.

Operating expenses, coin	$4,929,684 09	$5,223,429 42
Operating expenses, currency	39,587 43	44,702 45
Total expenses, coin and currency	$4,969,271 52	$5,268,131 87
Total expenses, equal to currency	$5,606,186 70	$5,848,977 22
Earnings over operating expenses (all in currency)	$8,245,302 54	$8,682,378 14
Percentage of operating expenses to gross earnings	40.47	40.25

The percentage of operating expenses to gross earnings as shown above, was 0.22 per cent less than in 1873.

The earnings over operating expenses for 1874, were (all in currency)	$8,682,378 14
The year ending Dec. 31, 1873	8,245,302 54
Being a gain of	$437,075 60

—or 5.30 per cent.

The amount of capital stock authorized is $100,000,000; of which $62,608,800 is subscribed, and $54,275,500 paid in. Of the amount subscribed, there is held in trust for the company $8,333,300.

The debts of the company are: funded debt $54,521,000, less sinking fund $1,451,904 87—leaving $53,069,095 13; to which add United States subsidy bonds, 27,855,680—making a total of $80,924,775 13. Of the land bonds there were redeemed, in 1874, one hundred and thirty five for the sum of $105,805 83; and in 1875, four hundred and twenty nine for the sum of $392,780 00.

The assets of the company, as given in the annexed balance sheet, amount to $146,678,054 84; to which add farming lands, (estimated value), $29,543,000; undivided half of 60 acres of land in Mission Bay, in San Francisco, 500 acres water front at Oakland, and about 140 acres and water front at Sacramento, (estimated value, independent of improvements) $7,750,000—making a total of $183,971,054 84. The president in his report says:

It is gratifying to inform you that the Court of Claims, in a recent decision, has vindicated your company in its construction of the Act of Congress in regard to services performed for the Government, by deciding that only one half of the compensation for services rendered to the Government shall be applied to the payment of the bonds issued by the Government in aid of the construction of your road.

Year by year the business of your road increases with the population and development of the country; and now its earning capacity is upon such an assured basis that it seems to be proper to determine upon a policy of declaring regular dividends.

Your directors, therefore, recommend that semi annual dividends be made upon the first of October and the first of April of each year. The road has an unquestionable ability to earn a net amount that will justify semi annual dividends of four (4) per cent upon its stock, and it seems proper that such dividends should be adopted as the policy of the company, and any balance beyond that be preserved as a fund to be used for the redemption of its bonds or other beneficial uses to the company.

The number of engines owned by the company is 188. The number of miles run, as compared with the preceding year, is as follows:

	1873.	1874.
Miles run by passenger engines	1,351,740	1,331,204
Miles run by freight engines	2,748,556	2,869,136
Miles run by switching engines	725,217	704,279
Miles run by miscellaneous engines	185,419	309,822
Totals	5,010,932	5,214,441

—being an increase of 203,509 miles, or 4.06 per cent. Cost of repairs per mile run, 8.14 cents; wiping, 0.99; enginemen and firemen, 7.00; fuel, 17.88; stores, 0.77; watching and despatching, 0.46—total, 35.24 cents.

At the close of the year, the number and kind of cars were as follows: 91 first class and 52 second class passenger, 23 sleeping, 19 mail and express, 23 baggage, 55 caboose, 1 directors', 1 superintendent's, 1 pay, 2051 box, 1499 platform, 177 section, 218 hand, 110 dump, 3 track laying, 2 wrecking, and 8 snow plows. The total number of miles run by cars of all kinds, including those from foreign roads, was 48,268,302.

The company have six ferry steamers employed in the ferry service between San Francisco, Oakland and Alameda. Also, 24 river steamers and 9 barges. The number of ferry passengers carried in 1874 was 3,238,280, a gain over the year 1873 of 616,304 or 23.50 per cent. The Superintendent in his report, from which the above is obtained, says:

The Visalia Railroad, connecting with our road at Goshen, referred to in my last report, was completed in August.

The Eureka and Palisade Railroad (narrow gauge) is now extended to Alpha, fifty miles south of Palisade. Steel rails sufficient for the completion of the road to Eureka, are on the way, and will be laid as fast as received.

The "Nevada County" (narrow gauge) Railroad connecting with our road at Colfax is nearly all graded, and it is expected will be completed and in operation by the middle of October. All will serve as valuable feeders to our line.

In conclusion, I would add, the most happy and satisfactory results have attended the operation of the road during the year, and the prospects for business for the year 1875, are very flattering.

From the report of the General Freight Agent, J. C. Stubbs, we learn that the number of pounds of local freight carried in 1874 was 1,505,722,710; through freight, 304,886,123; company's freight, 381,964,742—total, 2,192,573,575 lbs., against 2,057,204,628 lbs. in 1873—an increase of 135,368,947. Total mileage of freight in 1874, 280,395,918; in 1873, 248,793,085—increase, 31,602,833. Average charge per ton per mile, in 1874, (exclusive of company's freight,) 3.257 cents. Of the local freight there was forwarded to the general markets from the agricultural districts 266,729,777 lbs. of grain, from which the company earned $431,022 82, coin. Of the through freight eastward, the following are some of the principal items: barley, 45,364,079 lbs, beans 101,930, blankets 110,947, borax 1,518,107, butter 250,513, canned fruit 1,517,936, cotton 3,475, coffee 926,853, flour 521,315, green fruit 4,965,148, furs and skins 225,203, glue 340 750, hops 1,041,558, honey 558,184, leather 775,278, lead (bars,) 40,063, quicksilver 418,973, rice 300,155, silk 282 811, salmon 6,477,161, sealskins 1,473,860, sugar 60,259, tea 11,778,756, whalebone 337,689, wheat 1,828, wine 5,585,148, wool 32,040,585, whale oil 133,845. Westward there were carried: alcohol 405,215 lbs., agricultural implements 5,811,960, butter 328,686, boots and shoes 2,724,880, cheese 339,908, candles 4,038,060, carpets 1,798,320, clothing 1,865,880, domestics 10,060,520, dried fruit 1,074,467, fish 4,499,130, hams 6,086,600, live stock 1,963,710, lard 1,733,294, lumber 2,758,130, machinery 3,651,040, meats in bulk 283,770, oil 4,099,887, oysters 1,849,600, paper 2,982,391, liquors 1,812,270, tobacco 7,097,395, wagons 7,195,135.

As reported by T. H. Goodman, General Passen-

ger and Ticket Agent, the number of passengers carried east was 1,868,504; do. west, 1,994,225—total, 3,862,729; of these 80,291 were through, 544,158 local, and 3,238,280 ferry. Average number of miles traveled by each passenger, 34.77. Average charge per passenger per mile, 3.52 cents. In 1873 the total number of passengers carried was 3,280,171; the average number of miles traveled by each passenger 36.85; and the average charge per passenger per mile, 3.65 cents. It will be seen that the increase in the number of passengers in the past over the preceding year was 582,558.

STATEMENT OF PROFIT AND LOSS FOR YEAR 1874.

Interest	$3,389,824 63
Taxes	278,022 41
General and miscellaneous expenses	245,867 86
Legal expenses	83,105 19
Civil engineering	21,002 60
Discount on currency receipts	458,801 62
Dividend No. 2	3,718 775 00
Operating river steamers & barges.	46,067 01
U. S. Government transportation, amount disallowed by Gov	5,996 02
Balance	10,671,261 58
	$17,913,722 92
Balance to credit of this account, Jan 1, 1874	$9,339,151 99
Earnings for year 1874 $13,611,030 63	
Less operating exp.. 5,268,131 87	
	8,342,898 76
Interest on sinking funds	96,673 17
135 land grant bonds redeemed with proceeds of land sales	135,000 00
	$17,913,723 92

The currency sold by the company during the year was sold at a discount equal to a premium on gold, of 11.12 per cent; adding this premium, the earnings over operating expenses would be equivalent to $8,682,378 14 in currency.

The earnings of this road monthly, for a series of years will be found on page 1159 of this week's issue. Also a full description of the company's bonds—amount outstanding, rate of interest, when and where payable, and the date of maturity of the principal—will be found on page 1162.

GENERAL LEDGER BALANCE SHEET, Dec. 31, 1874.

Construction account	$131,303,580 64
Equipment account	6,201,688 89
Real estate account	1,017,696 48
Shops account	863,850 42
Machinery in shops	534,246 63
Furniture, telegraph instruments, safes, etc	112,941 92
Steamers, Sacramento River	769,784 27
Sinking fund No. 1, for redemption of convertible mortgage bonds	675,894 87

President.—LELAND STANFORD.

Vice Prest. & Gen'l Agent.—C. P. HUNTINGTON

2d Vice President.—CHAS. CROCKER.

Directors.—Leland Stanford, Mark Hopkins, E. H. Miller, jr., Robert Robinson, Chas. Crocker, of San Francisco, Cal.; Charles H. Cummings, of Sacramento, Cal.; C. P. Huntington, New York City.

Treasurer.—MARK HOPKINS.

Secretary.—E. H. MILLER, jr.

Gen'l Superintendent.—A. N. TOWNE, San Francisco, Cal.

Assistant Gen'l Sup't.—JOHN CORNING, San Francisco, Cal.

Division Superintendents.—E. C. Fellows, Oakland, Cal.; J. A. Fillmore, Sacramento, Cal.; Frank Free, Wadsworth; G. W. Coddington, Carlin, Nev.; R. H. Platt, Ogden, Utah; of River Steamers, W. H. Moor, San Francisco, Cal.

Chief Engineer.—S. S. MONTAGUE, San Francisco, Cal.

The New Air-line Railroad from Boston to the West.

The correspondent of the Philadelphia *Press*, writing from Harrisburg, Penn., says that "the long-projected and secretly-negotiated air-line road from Boston to the West, which is designed to be a great rival to all the other roads now running from the Eastern seaboard to the Rocky Mountains, is gradually working its way through Pennsylvania by a series of links which are regarded as mere local roads by the people living along the line, but which, when all finished, will constitute one of the great thoroughfares of trade and travel, if it does not rival and override several which are now regarded as monopolies. The principal operations are now being conducted along the South Mountain from Harrisburg to Hamburg. A very large force is employed in pushing this link to completion, a considerable portion of which is already graded. A survey has been made for an additional link from Harrisburg to Slatington, which will strike the Berks and Lehigh Railroad at a convenient point, and thence continue on to Slatington. There is a great mystery about much of these links of new roads in several portions of Dauphin County, particularly in the upper portions, where corps of engineers have been perfecting and locating a line, and where different points of observation have been taken with the apparent view of crossing the Susquehanna. Farmers and business men are urged to subscribe stock to their "local" roads, and viewers are called very frequently to assess damages where it is proposed to run these roads. A year ago I communicated the fact that a well covered project was in negotiation to build a new coal road from the centre of the anthracite coal fields of Pennsylvania to connect with the Eastern seaboard, and have outlets, which would give it a commanding influence on the trade of the West. The roads now being built ostensibly as local enterprises are those same lines, and the day is not far distant when the entire scheme will be uncovered, revealing the most gigantic railroad corporation the world has ever beheld, and confronting present existing roads with a rivalry for the carrying trade of the Pacific, and a bidder for the trade of India and China. It is singular, too, that Jay Gould's name is more or less remotely or intimately associated with this enterprise. The operation referred to is the building of so many local roads that stretch out to meet each other on a comparatively air-line from the East to the West, and that run through regions where heavy freights are most likely to be furnished by a prosperous labor market. A very short time will develop the full intent of what all this means, and, for the present, railroad men and managers are greatly perplexed to keep pace with the new project."

Texas and Pacific Railroad.

The earnings of this road for the year ending May 31, 1875, were:

From passengers		$326,832 62

Surplus, May 31, 1875		$504,989 06

The earnings for the year ending May 31, 1874, were $847,621 79, the expenses $673,740 45, and the net earnings $173,881 34—showing an increase in earnings of $335,691 54, with an increase in expenses of $116,063 40; making the increase in net earnings $219,628 14. The proportion of operating expenses to receipts in 1874-'5 was 66. 70, against 79.48 in 1873-'4 a decrease of 12.78 per cent. The report says:

The original act of incorporation under which your company organized, was passed by Congress in March, 1871, and supplemental acts, vesting additional powers in the company, were passed in 1872, '73 and '74, and the first Board of seventeen Directors were chosen in May, 1871, only four of whom are now connected with the management.

The charter authorized the construction of a railway on the 32d parallel of latitude from Marshall, Texas, through to the Pacific coast, with the right to acquire by purchase, consolidation, or otherwise, the property and franchises of any other railroad company or companies previously chartered on the same route; conditioned that the "indebtedness, or other legal obligations of said company or companies, shall be assumed by the Texas Pacific Railway Company, as may be agreed upon; and no such consolidation or purchase shall impair any lien which may exist on any of the railroads so consolidated or purchased; but said company shall not assume the debts or obligations of any company with which it may consolidate or purchase as aforesaid, to an amount greater than the cash value of the assets received from the same."

This restricting clause in the charter was evidently intended to prevent your company becom-

ing liable for unknown and unadjusted claims against other corporations; or for any foreign indebtedness, except as named in deeds of conveyance, to be assumed in part consideration for property acquired.

In March, 1872, the company acquired, by purchase and consolidation, all of the franchise and property of the Southern Pacific Railroad Company, a corporation organized under the laws of the State of Texas, and owning and operating sixty six miles of road between Shreveport and Longview, with the right to extend its line to El Paso, on the Rio Grande; and subsequently it acquired, in the same manner, the charter privileges and property of the Southern Transcontinental Railway Company, a corporation also organized under the laws of Texas, having a right to construct a road from the northeastern boundary of the State to El Paso, and to acquire the property and franchise of the Memphis, El Paso and Pacific Railroad company, another Texas corporation that had been previously authorized to construct a road over the same route, but whose franchise had been declared forfeited by the State government.

By the deeds of sale and conveyance of these properties it was expressly stipulated that they were sold free and clear of all incumbrance, except certain indebtedness of the Southern Pacific Railroad Company, limited to $950,000, and of the Southern Transcontinental Railway Company for certain "expenditures incurred and made in the construction of the Sulphur River bridge on said line, and engineering expenses incident to surveying since January 1, 1872."

Of the 66 miles of old road so purchased, 22 miles from Marshall east to the State line, were constructed by the old Southern Pacific Railroad Company, and 20 miles additional in Louisiana, between the State line and Shreveport, were constructed under the Vicksburg, Shreveport and Texas Railroad Company charter, and were held under lease.

In 1868 these properties were both sold out under some twenty five different executions and decrees of court, and all the right, title, and interest of the old corporation passed by these sales to a new company organized as "The Southern Pacific Railroad Company;" and it was this new company that constructed the 24 miles of road between Marshall and Longview, and had a joint interest with the Southern Transcontinental Railway Company in the six million grant of bonds made in 1871 by the State of Texas, from which your company derives title to this 66 miles of purchased road.

The remaining 257 miles of your completed lines have all been constructed under your United States charter, supplemented by special grants and acts of authorization made direct to your company from the State of Texas, or acquired under general laws of that State.

The Memphis, El Paso and Pacific Railroad Company, referred to in connection with the Southern Transcontinental Railway Co., was incorporated by the State of Texas in February, 1856, with authority to construct a road from the northeastern boundary of the State, westwardly to the Rio Grande, at or near El Paso, with a branch to Jefferson; and, to aid in its construction, the State had donated sixteen sections—10,200 acres of land to the mile—for about 850 miles, with a reservation 16 miles wide, 8 miles on each side of its main line, as designated by surveys.

In February, 1867, this Memphis and El Paso Company mortgaged the first 150 miles of its land grant and reservation to secure a proposed issue of $5,000,000 of 6 per cent. gold bonds, payable to John C. Fremont and Thomas C. M'Dowell, or bearer; and again, in December, 1868, it mortgaged a second 150 miles, to secure another proposed issue of $5,000,000 of 6 per cent. gold bonds, payable to the same parties; and under these mortgages $6,848,700 bonds were issued and sold in France.

A survey of the line was made by the Company sufficient to designate its reservation. About 55 miles of roadway were graded, bridged and tied; a portion of the right of way was secured, and about 6 miles of iron rails and fastenings, and 3 locomotives were placed upon the line, when the Company became insolvent; and in July, 1870, on application of the trustees of the mortgages, an order was made by one of the Associate Justices of the Supreme Court of the United States, being the judge assigned to that circuit, directing John A. C. Gray to take possession of all the property and assets of the company as receiver, and to manage and control the same, under special orders of the court to be made from time to time, and if need be, under directions of the court, to sell and convey the road, road bed, rails and other property, as an entire thing.

Decrees of foreclosure and sale were subsequently rendered in May, 1872, when the property was advertised and sold at public vendue, and was purchased by the Hon. Enoch L. Fancher, the present Arbitration Judge of the Chamber of Commerce of New York city, who immediately executed a declaration of trust to the effect that "he held the title to said franchises and property in his name, under five official deeds of conveyance, for the purpose, among others, to convey the same as the court may direct, for the benefit of the holders of said land grant bonds."

In October of same year an order was entered in the same court authorizing a sale and conveyance of the property to The Texas and Pacific Railway Company for a consideration of $150,000 cash, to be paid to the Receiver, and a covenant on the part of the purchaser with the Receiver, as Trustee of the bondholders, to exchange land in Texas for said bonds, at the option of the holders, in the proportion of 700,000 acres of the reserved lands, to be selected from within the reservation, for $5,400,000 of land grant bonds, or 13 acres for each $100 of bonds; and in June, 1873, a proper deed of conveyance and agreement between The Texas and Pacific Railway Company and Messrs. Gray and Fancher was formally executed, conveying the roadway, land grant and reservation, franchise and other corporate powers and property, as an entire thing, as authorized by the United States courts after three years of litigation; and under this arrangement, the holders of $4,569,100 of these "French Bonds" have already given notice of their desire to accept land, and have placed their bonds in escrow for that purpose, and of the remainder but $195,600 have filed their claim with the Receiver.

This arrangement was advantageous to your Company—

First. Because the price paid for the graded line, iron rails, and locomotives, was considered a fair one, although the locomotives being of broad gauge had to be changed; and the grade, bridging and ties were badly wasted by neglect and exposure to the elements.

Second. Because the exchange of land for bonds would be likely to bring a considerable immigration to our line; and this, with the funds and property in the Receiver's hands for distribution to holders of bonds, of all of which, as the owner of the bonds would come to your company, was considered a fair equivalent for the lands exchanged, and

Third. Because the obtaining possession by your Company of the so-called "French Bonds" would remove what was generally considered a stain upon American credit, and would be likely to favorably affect the credit of The Texas and Pacific Railway Company in its future negotiations. It would also enable your company to secure, without further litigation, a considerable quantity of most valuable land within the reservation, that had been covered by certificates, or patented by the State officials to various parties, under article 10, section 5, of the new Texas State constitution; as the title to this land, under a decision of the United States Supreme Court, obtained by the Receiver at the December term, 1872, would become thereby vested in your company, and the quantity of land so reclaimed, with certificates in receiver's possession, will very nearly equal that required to exchange for bonds.

Previous to the purchase by this Company, the State of Texas had granted to the Southern Pacific and Southern Transcontinental Railway Companies six millions of dollars in its bonds (with the right reserved to substitute land for bonds, which has since been done), on condition that both lines should be completed by January 1, 1874, to a point of junction west of the east boundary line of Shackleford County, or a little over 700 miles of road was required to be constructed by your company within twenty one months from the date of consolidation, under penalty of forfeiture of the entire donation.

It was found that to complete the road within the time, dependant, as we were, solely on the Red River for transportation of construction material and supplies needed for the work, (the M. K. & T. Ry., and the H. & T. C. Ry., were not then completed to Denison or Dallas,) would require a large amount of ready money, and increase greatly the cost of the work, and as it was impossible to obtain the funds necessary from stock subscriptions, or by sale of bonds on a road not built, a contract was made with the California and Texas Railway Construction Company, a company organized for the purpose, with a nominal capital of $10,000,000, and an actual subscribed capital of $8,221,250—the Construction Company undertaking to advance all the money necessary to build and equip 125 miles of road, before receiving any of the bonds or stock to which it would become entitled on completion of the work, and to take the not inconsiderable risk, as events have proved, of their subsequent negotiation and sale.

In order that there might be no cause of complaint, and no injustice done to the stockholders of The Texas and Pacific Railway Company, the offer was made to, and accepted by them, to exchange their shares of The Texas and Pacific Railway Company stock, dollar for dollar of amount paid in cash, for Construction Company stock, so that the Construction Company thus became the owner of the entire capital of the Railway Company, except what was held by the members of the Board, as necessary to qualify them to serve as Directors.

It was under these circumstances that the work of construction was commenced and vigorously prosecuted until January, 1874, when there were completed, and in operation by your Company, the lines from Shreveport to Dallas, from Marshall to Texarkana, and from Sherman to Brookston, in all 317.7 miles of road, without any default or lapse in the charter requirements; and in addition 118 miles of roadway (96 miles between Brookston and Texarkana, 12 miles west of Dallas and Sherman, and 10 miles from the Bay of San Diego, east) were graded and bridged, or with bridge timbers and ties on the ground, ready for the rails; and since then additional legislation from the State of Texas has been obtained, extending the time for the completion of the work, so that there has been no forfeiture under the grants made to or acquired by your company up to the present time.

The entire line through to the Pacific Ocean—about 2000 miles in all—after a careful examination and survey of the country, has been advantageously located, and the necessary maps and working estimates have been made.

Of original stock capital subject to the hazards of the enterprise, $6,834,529 32 was paid in by Stockholders of the Construction Company; and as that company had also a large indebtedness, with assets consisting almost entirely of The Texas and Pacific Railway Company securities that it was found impossible to sell after the panic of 1873; and as there seemed little prospect that it would soon be able to continue the work of construction under its contract, an agreement was made in March last between the two companies, by which there was secured—

First. A cancellation of the existing construction contract from that date; and,

Second. A reduction of the present cumulative interest bearing debt of your company to $25,000 per mile, by calling in and retiring the outstand-

ing construction bonds authorized to be issued at $40,000 per mile, none of which had been sold by the Construction Company or by the Railway Company, and substituting in lieu thereof, first mortgage bonds limited to $8,000 per mile on the lines east of Fort Worth,--$2,500,000 of this issue to be used only in completing and equiping 120 miles of partly constructed line between Fort Worth and Dallas,and between Brookston and Texarkana; and second or consolidated mortgage bonds, $17,000 per mile, the two mortgages limited to $25,000 per mile in all; these consolidated bonds to be used in payment of indebtedness; both mortgages to carry 6 per cent. interest in gold.

It was also agreed to issue an Income and Land Grant Bond not to exceed $17,000 per mile, to be exchanged at par for outstanding Land Grant Bonds, the accrued interest thereon also to be funded in these bonds; the new bonds to have all the security of the old Land Grant Bonds by first mortgage on the lands, and in addition, a mortgage on the income from the railway, in excess of what is required to pay $1,500 per mile of gold interest, and the sinking fund on $25,000 first and second mortgage bonds; the Construction Company undertaking to return all the Construction and Land Grant Bonds it had received, as none had been sold.

Under this arrangement, creditors representing 85 per cent of indebtedness of the two companies, have agreed to accept the Consolidated Mortgage Bonds in satisfaction of their claims, which will leave $3,544,000 of first mortgage bonds limited to $8,000 per mile, the entire issue on 443 miles, with which to complete 120 miles of partly constructed line east of Fort Worth, and to satisfy about one million dollars of floating indebtedness, mainly of the Construction Company.

The construction contract between your company and the California and Texas Railway Construction Company, now canceled and annulled by mutual consent, has proved one in which the advantages were greatly on your side, and the benefit of your company has derived from it can hardly be over-estimated, as the arrangement by which The Texas and Pacific Railway Company full paid capital stock, is to be exchanged at par for the full paid shares of the Construction Company, will secure all the advantages of an original subscription of nearly eight and one quarter million of dollars to the capital stock of your company.

Had it not been for the Construction Company, and the advantages of having two separate and distinct corporations to work for a common object, your company could hardly have avoided a heavy floating debt, and the discredit that necessarily would have attended providing for it, during and since the panic year of 1873; nor is it at all probable, that with a large floating indebtedness to take care of alone, your company could have retained such control of its hypothecated securities, as to secure, without a foreclosure suit or other litigation: First, a reduction of its cumulative interest bearing debt to $25,000 per mile of six per cent. gold bonds: Second, the funding of its floating indebtedness; and Third, the completing and clearing up of 443 miles of railroad, free from any floating debt, and without any cumulative interest lien upon its earnings in excess of the $1500 per mile of gold interest upon its First and Second Mortgage Bonds; and this your Board feel assured will be the condition of your company within one year, under the arrangements that have been agreed upon, and will be carried out practically, by the sale of the small issue of $8,000 per mile of First Mortgage Bonds, the real value of which will appear by the following statements of the operations of the company for the fiscal year ending May 31st, which will repay a careful examination.

The number of miles of road in operation at the commencement of the year was 315; and at its close 323.07—average for the year, 320.22. Eight miles between Dallas and Eagle Ford were constructed during the year. The average earnings per mile of road were $3,695 28,and the average expenses $2,466 34—showing net earnings per mile of $1,228 94. This average of mileage earnings include 56 miles of line between Sherman and Brookston, the earnings upon which were but $1,658 66 per mile, with expenses of $892 54 per mile; and the earnings of this disconnected section of road will not be materially increased until it is opened through to Texarkana, 96 miles, when the 152 miles will undoubtedly earn fully as much as the south line, as it is located through a much richer, more populous, and older settled section of country. Deducting the earnings of this isolated and disconnected section of 56 miles, will leave the 264 miles of line from Shreveport to Dallas and from Marshall to Texarkana, with receipts of $4,180 41 per mile, and expenses of $2,764 67—showing net earnings of $1,865 74; which is a much fairer showing, as there can be no question but this average would have been fully maintained, had the line through to Texarkana been completed a year ago.

The company have 29 locomotives, 5 first class and 10 second class passenger, 1 directors,' 3 passenger and baggage, 7 baggage, mail and express, 113 box, 18 box stock, 49 stock, 11 cabooses, 226 flat, 1 wrecking, 1 pile driving and 3 boarding cars.

Mileage of locomotives: passenger trains, 253,-226; freight trains, 496,061; work trains, 77,119 —total, 826,406. Miles run to cord of wood, 35. 59; to pint of oil, 11.51. Cost of working locomotives, including repairs fuel, oil and waste, etc., 24.50 per mile run.

Coupon passengers carried, 22,174; do. carried one mile, 3,222,619. Local passengers carried 106,861; do. carried one mile, 4,235,831. Total passengers carried, 129,035; do. carried one mile, 7,458,450. Average miles each passenger was carried: coupon, 149.84; local, 39.64—total 57.80. This shows an increase, compared with the previous year, of 30,976 in the number of passengers carried; 2,676,137 in the number carried one mile; and 9.04 miles in the average distance traveled by each passenger.

Local freight in pounds, 122,978,000; number of tons carried one mile, 5,519,689. Through freight in pounds, 151,416,000; number of tons carried one mile, 8,506,535. Total freight in pounds, 274,394,000; total tons carried one mile, 14,026,174. Average haul of local freight, 87.76 miles; do. through freight, 112.35 miles—total 102.23 miles. This shows an increase in pounds of freight carried of 97,704,000; in tons carried one mile of 6,576,224; and in average distance each ton was hauled of 18.13.

The receipts from all sources, and payments, for the year ending May 31, 1875, were as follows:

RECEIPTS.

Cash on hand, close of last Fiscal Year	$49,411 58

The general office of the company is at 275 South Fourth St., Philadelphia. The officers are:

President.—Thos A. Scott.

Vice President.—Frank S. Bond.

Directors.—Thomas A. Scott, Frank S. Bond, Matthew Baird, H. H. Houston, W. S. Mcmanus, R. D. Barclay, Philadelphia; J. N. McCullough, Pittsburgh, Pa.; W. T. Walters, Baltimore; Marshall O. Roberts, Henry G. Stebbins, Henry G. Marquand, New York; Alfred Gaither, Cincinnati, Ohio; W. C. Hall, Louisville, Ky.; T. L. Nesmith, San Diego, Cal.; W. M. Harrison, Jefferson, Texas.

Treasurer.—George D. Krumbhaar.

Secretary.—C. E. Satterlee.

Transfer Agent.—E. B. Hart, No. 50 Exchange Place, New York.

☞ The Post Office Department has perfected arrangements for a fast mail train from New York, Philadelphia, Washington and Baltimore, via Pittsburg to Chicago, St. Louis, Cincinnati and all points in the Southwest. This train will commence running Sept. 13 over the Pennsylvania road and connecting lines making extraordinary fast time, so as to fully accommodate the immense postal business of the cities designated. A limited number of through passengers will be taken.

☞ In the Monongahela Coal Trade there are now engaged one hundred and twenty five steam tow boats and three thousand barges and boats, having an aggregate tonnage of 1,300,000—a tonnage greater than all the rest of the Mississippi valley.

☞ The officers of the Huron and Quebec Railway, elected on the 6th ult., are; President, W. Cluxton, Peterborough; Vice President, R. W. Glen, Oshawa; Secretary, W. Beal; Treasurer, W. Cluxton; Managing Director, John Fowler; Solicitor, W. H. Scott.

☞ The construction of the O street and South Washington railroad is being pushed forward with much vigor. It is believed the road will be in operation by the first of October.

☞ During the month of July 811 cars passed through the Hoosac tunnel. Of those going east, 436 were loaded and 25 empty; of those going west, 188 were loaded and 262 empty.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 11, 1875.

Financial and Commercial Affairs.

A much calmer temper has been apparent in the dealings in the financial line during the past week. Failures have been few and unimportant. Harvest and trade reports have been more encouraging. Money has been in very liberal supply, generally, and advances to the leading dealers in Government securities were made very freely as low as 1@2 per cent. To the Stock Exchange firms, call loans were quoted at from 1@3 per cent. In the discount line, strictly choice commercial paper has been offered quite moderately, and has been in fair demand at from 4@6 per cent per annum. The City Banks show a decrease in their net legal reserve of a little over one million. They made a slight gain in the legal tender form, while losing about 1¼ millions of specie, and about 2¼ millions of deposits. The specie decrease was partly due to the transfer of coin to San Francisco. The loan and discount item was augmented. The U. S. Sub Treasury at this point lost about 1½ millions of currency, while gaining slightly in the specie line, as the result of the week's movements. The City Banks last week increased their reserve of legal tender notes $97,600, and reduced their deposit item $2,857,000, while diminishing their specie average $1,834,800. They report an expansion of $497,400, in the loans and discounts, and of $104,400 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $60,599,414, against $62,444,391, the preceding week; and a coin hoard of $35,549,346, against

$35,262,015 on the previous return. The City bank exchanges in currency during the week were $389,942,661, or a daily average of $64,990,444. The customs revenue of the port, during the week, was $2,384,000. The City banks reported their average of gold last week at $10,210,300, and their greenback average at $70,606,300. Their deposits stood at $243,788,800. The loan item was $282,834,300. The circulation was $18,125,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $19,869,400.

The aggregate of the outstanding U. S. currency, of all denominations, September 1, was $415,938,229. The outstanding amount of legal tender notes is $374,755,108. The National bank circulation is now $348,011,138, including $2,640,000 of national gold bank notes.

On Tuesday, the cash balances of the Treasury Department at Washington were: of Currency, $3,196,731; special deposit of legal tenders for the redemption of certificates of deposit, $65,205,000; Coin, $65,131,932; Coin certificates, $16,849,700.

The week's import entries of Foreign Merchandise at New York, were $5,770,713, and included of dry goods $2,681,638.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 22 millions.

Gold has been quite active and decidedly stronger under brisk speculative bidding. Customs have been up to an average; shipments, light. The speculative movement has been stimulated by the Treasury transfers of Gold to San Francisco. The extremes of the week have been 113¾@115¼, closing on Wednesday at 115¼, as against 114¼ on Wednesday of the preceding week. The specie outflow last week was only $453,174 against $444,853 the previous week. The imports of specie at this port since Jan. 1, have been $8,372,911, against $3,304,000 same time last year. The customs demand for Gold last week averaged $384,589. Foreign Exchange has been in comparatively limited request with Bankers' sixty day bills on London closed on Wednesday at $4 84½@$4 85½; sight bills on London at $4 88@$4 89 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $6,346,165. The week's imports of Dry Goods and general merchandise were to the specie value of $5,770,713 against $6,771,208 same week last year.

Government Securities have been more active and quoted higher, closing buoyantly. The investment demand has been much more confident, stimulated by the higher range of Gold.

U. S sixes of 1881 closed on Wednesday of this week at 123@123¼; U. S. Five-Twenties of 1864, at 117½@117¾; U. S. Five-Twenties of 1865 118⅛@118¾; U. S. Five-Twenties of 1865, consolidated, 118⅜@118¾; U. S. Five-Twenties of 1867, 120⅛@120¾; U. S. Five-Twenties of 1868, 120⅞@121; U. S. Ten-forties at 117¼@117½; U. S. Fives of 1881, (Funding Loan) 117⅜@117⅞; Six per cent. currency Sixes, 120¼@120½.

State and Railway bonds have been in fair request at about former prices. And in the line of Railway and Miscellaneous share property, business has been moderately active, but prices have been very irregular, closing more steadily.

General business has been more active in Produce and Merchandise, with values on the latter ruling generally steady; while prices of most kinds of Produce have been quoted weaker. Metals have been inactive, as a rule. Eglinton Pig Iron quoted here at $28 50 @$29 50; Glengarnock, $32; Coltness, $32; No. 1 American Pig at $25@$27; No. 2 do. at $23@$25 Forge, $22@$23 50; English Rails at $48@$50, gold; American Rails, at works, $$50; Old Rails, $25@$26 50. Wrought Scrap, $31 50@$33 00. Ocean freights have been moderately active, but quoted lower, closing dull.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Atchison, Topeka and Santa Fe Railroad.

The earnings of this road, as received by telegraph, are in round number $150,000; expended $50,000—net $100,000; against $66,000 net in August, 1874. The increase is principally owing to the moving of the crops, which are much larger than ever before. The August land sales were 10,000 acres, which includes part of the recent sales to the Mennonites, the balance being not yet located. The emigration is now of the wealthier classes, who bring the ready money with them for their purchases. The eastern extension of the road from Topeka to Kansas City, leased by the Atchison, Topeka and Santa Fe, was opened on the 30th of August. The western extension from Granada to Los Animas, also leased, was opened Sept. 1, both of which will in time give large additions to the business of the company.

Mr. Johnson, the Land Agent, writes: "Our grain crops are threshing out even better than was anticipated, for which farmers are getting a fine price right at their doors. Many wheat merchants from Illinois, Missouri and even Iowa are now here purchasing wheat in large quantities to ship back to their respective States. Such corn crops as are seen growing here I have never seen in Kansas before, even in the grasshopper districts on the borders where a great deal of the crop is second and third planting."

Mr. Moore, the Superintendent, says, under date of Aug. 13: "I have just returned from a trip to all points of the line and feel much encouraged at the prospects for business. The crops are proving all that was anticipated from them. . . . . At Wichita the lowest estimates place the amount ain, which will centre there, at 1,000,000 bushels, equal of 3000 car loads. Buyers are here from all points. . . . . Newton is opening up well; three grain warehouses have been already built there on our track, and another will soon be put up. From Peabody west the wheat is all in stacks and the percentage of injury will be very light. In the Cottonwood valley more damage has been done, as the rains were heavier. There will be a large surplus of corn, especially in the Cottonwood valley, where the crop is the finest I have ever seen anywhere. We are now moving 12 to 20 cars of wheat per day. I shall expect to see this increased to 50 or 60 per day if we can get the control of cars. Lumber business is improving, and there will be a large increase in the coal trade. All appearances indicate that hard times are over for the present and that we are likely to share the general prosperity."

Railroads and the Centennial Exposition.

Mr. Cassatt, third vice-president of the Pennsylvania Railroad Company, has officially informed the Director General of the Exposition that an understanding has been effected with the New York Central, the Erie, and the Baltimore and Ohio Railroad Companies, whereby "regular rates shall be charged on all goods carried to the Exposition for exhibitors over the roads controlled by the above-named companies and by this company, and that all unsold goods shall be returned free—freight and all charges to be prepaid in every case. This arrangement to cover all articles intended for exhibition, as well as all other articles forwarded by exhibitors for their own use in connection with the Exposition."

☞ The Receiver of the Erie Railway Company has been authorized by the court to pay the interest as it matures on the first, second, third, fourth and the Buffalo Branch mortgages, but he has been enjoined from paying any interest on bonds of a later issue than those named. Among the latter are included the first and second consolidated mortgages, which are represented by the Farmer's Loan and Trust Company. The Buffalo Branch mortgage is a first mortgage on that branch of the road. Interest amounting to about $250,000 fell due September 1st on the second and third mortgage bonds, and was promptly paid.

☞ At a meeting of the stockholders of the Potomac Bridge Company, held in Leesburg, Va., on the 31st ult., the directors were authorized to contract with suitable parties for the early erection of the bridge over the Potomac river at the Point of Rocks, Md. The proposed structure is to be of iron.

☞ The trustees of the Cincinnati Southern Railroad have awarded the contract for constructing the foundations and masonry for a bridge over the Tennessee river, near Chattanooga, Tenn., to John T. and T. G. Smith and Philip P. Dandridge, of Baltimore, their bid being $143,820.

☞ The Boston, Revere Beach and Lynn Railroad Company have in contemplation the extension of the road from its present terminus in Lynn to Salem. The distance is a little over seven miles, and by the proposed route but little grading will be required.

☞ The narrow gauge railway between Carrollton and Minerva, Ohio, is nearing completion.

Rapid Transit for New York.

The Commission appointed by the Mayor of New York to select a route or routes for steam railways through the city has made its report to the Board of Aldermen, which body has approved the routes selected. These include four main lines between the Battery and the upper end of the island, and connecting lines running to all the principal depots and ferries in the city. The New York Elevated Railroad Company and the Gilbert Elevated Railroad Company have charters giving them the right to build railroads on most of the streets selected by the Commission for the several routes, and this fact largely influenced the decision of the Commission. The railroad companies have been put under bonds to complete their roads within a fixed period of time, and also to charge limited rates of fare, and to run half fare trains morning and evening. For any distance between the Battery and Fifty ninth street the fare is not to exceed ten cents; for any distance not exceeding five miles the fare is not to be more than ten cents, nor more than two cents for each additional mile or fraction thereof. The fare for the entire distance between the Battery and the Harlem river is not to exceed fifteen cents. "Commission trains" are to be run from half past five A. M. to half past seven A. M. and from five P. M. to seven P. M., on which only half the above rates are to be charged. Within ten months from October 1st 1875, three miles of the Gilbert road is to be in running order; the remainder is to be built at the rate of five miles per annum. The New York Railroad Company is to complete its connecting railways between the Battery and Fifty-ninth street, by September 1st, 1876, from Fifty-ninth street to Harlem river, by June 1st, 1877, and from Ninety second street and Ninth avenue to High Bridge by June 1st, 1878.

☞ Abijah Brewer has been appointed secretary of the Western Union Telegraph Company, and John C. Hinchman has been appointed general superintendent of the Eastern division, in the place of George H. Mumford deceased.

☞ The earnings of the Indianapolis, Cincinnati and Lafayette Railroad in July, 1875, were $118,189, the expenses $91,169, and the net earnings $27,020, against $53,865 in July, 1874, a decrease of $26,845.

American Locomotives in Russia.

The report of the American Consul to Russia on locomotives of American manufacture in use there states that in 1872 ten locomotives were imported to St. Petersburg from the Baldwin Locomotive Works at Philadelphia, followed by twenty more from the same firm. Last summer fifty were ordered from the Grant Locomotive Works at Paterson, New Jersey, which order there was some delay in filling, owing to the failure of the Grant Company. The locomotives recently built for Russia are coal burners, and are much larger and more powerful than the small wood burning locomotives heretofore built in Russia or imported from Germany, France or Belgium. The American locomotives cost 25,000 silver rubles each, and the German locomotives 18,000 to 20,000 rubles, but the American locomotive is fifty per cent. more powerful than the German.

Statement of the Public Debt of the United States September 1, 1875.

Totals	$64,623,512 00	$646,235 12

Interest paid by United States, $28,202,807 70; interest repaid by transportation of mails, &c., $6,304,047 41; balance of interest paid by United States, $21,898,760 29.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, August 31, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Rule of Damages in Case of Marine Torts.

WHEN PERIL IS CAUSED BY SALVORS THEY CANNOT RECOVER.—DECISION OF THE UNITED STATES SUPREME COURT.

In the case of New York Harbor Protection Company, appellants, vs. the Schooner Clara, her tackle, &c.—appeal from the Circuit Court for the Southern district of New York—Mr. Justice Clifford delivered the opinion of the Court:

Remuneration is claimed by the libelants in this case, as the owners of the steam-tug adjudged guilty of negligence in the case just decided, for salvage service rendered by the same steam-tug and the officers and crew in charge of her in subduing the fire on board the schooner and in saving the vessel from destruction. Enough appears in the opinion delivered in that case to show that the schooner caught fire from the ferry boat which was taken in tow by the steam tug, and that the collision between the two vessels was caused by the want of proper precaution, care, and skill on the part of those intrusted with the control and management of the steam tug. Sufficient account of what occurred prior to the collision and to the time the schooner caught fire from the burning of the ferry boat is given in the other case, and need not be repeated. Three attempts, it will be remembered, were made without success to tow the burning ferry boat up the river by means of a hempen hawser before the schooner caught fire, and that the burning ferry boat was, by the force of the wind and flood tide, floated against the schooner, and set her upper works on fire. Both the ferry boat and the schooner being on fire, those in charge of the steam tug made another attempt to accomplish what they originally intended, and the pleadings and evidence showed that they fastened the hawser to the ferry boat, and succeeded in dragging her clear of the schooner, but it also appears that she immediately sank, and became a total loss. All necessity for service in that behalf being ended, the allegation is that those in charge of the steam tug immediately turned their attention to the schooner, which was then burning fiercely from her foremost to her bowsprit, and including all her head sails; and the libelants claim that the officers and crew of the steam tug made fast to the schooner by a line, and that they passed a hose on board the burning vessel, and brought two or more powerful streams of water to bear upon the flames, and that they, by their exertions, which continued for two or three hours, succeeded in subduing the flames and in preserving the schooner from entire destruction. Service was made, and the owners of the schooner appeared as claimants and filed an answer. They admit that the steam tug ultimately succeeded in dragging the ferry boat clear of the schooner, and that she returned to the schooner after the ferry boat sank, and that she rendered service in subduing the flames and saving the schooner from complete destruction, but they deny, in the most positive form, that the libelants are entitled to salvage on account of the services rendered, for the following reasons: 1. Because the schooner would not have caught fire if those in charge of the steam tug had exercised due and proper care in their attempt to tow the burning ferry boat from her slip up the river. 2. Because the schooner was run into and set on fire by the carelessness, negligence, and inattention of those who rendered the alleged salvage service, and not from any fault or neglect of duty on the part of the schooner. Further discussion upon the matters of fact involved in those propositions is unnecessary, as they have all been conclusively determined in favor of the present respondents in the preceding case, which leaves nothing for decision in the case before the court except the question whether the claim for salvage compensation can be sustained, in view of the facts set forth in the propositions submitted by the respondents. Salvage is well defined as compensation allowed to persons by whose assistance a ship or vessel, or the cargo of the same, or the lives of the persons belonging to the ship or vessel, are saved from danger or loss in case of shipwreck, derelict capture, or other marine misadventures. (M. & P. on Ship, 477). Other jurists define it as the service which volunteer adventurers spontaneously render to the owners in the recovery of property from loss or damage at sea under the responsibility of making restitution and with a lien for their reward. (Machlachlan on Ship, 523; the Neptune, 7 Hag., Adm., 236; the Thetis, 3 Hag., Adm., 48.) Persons who render such service are called salvors, and a salvor is defined to be a person who, without any particular relation to the ship in distress, proffers useful service and gives it as a volunteer adventurer, without any pre existing contract that connected him with the duty of employing himself for the preservation of the vessel. Enough appears in those definitions to show that the elements necessary to constitute a valid salvage claim are as follows: (1.) A marine peril to the property to be rescued; (2) Voluntary service not owed to the property as a matter of duty; (3) Success in saving the property or some portion of it from the impending peril.

After reviewing the cases in point, the court say that as the schooner's peril was occasioned by those who rendered the salvage service they cannot recover. Affirmed.

☞ The total receipts on the Illinois and Michigan Canal for July, including lockage at Henry, were $15,865 62. For the same month last year they were $22,862 35.

Chesapeake and Ohio Canal.

The receipts of the Chesapeake and Ohio Canal for the month of July, 1875, were $72,915 48; an increase of $3,906 15 over the corresponding month of 1874. The expenses on all accounts were $27,414 98, showing a net revenue of $45,500 50, being an increase of $843 88 over that of July, 1874. The amount of coal shipped from Cumberland was 132,042 tons, an increase of 14,918 tons over the corresponding period of last year. The balance of cash on hand amounted to $111,657 50.

☞ The St. Stephen Journal has received reliable information to the effect that the survey of the Grand Southern Railway is progressing rapidly. The surveyors have passed Musquash, are nearing St. John, and so far have met with no serious engineering difficulties.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

C. McBrigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

LACHINE CANAL ENLARGEMENT.

NOTICE TO CONTRACTORS.

The letting of the works for the enlargement of the Lachine Canal, advertised to take place on the SIXTEENTH day of SEPTEMBER next, is unavoidably postponed to the following dates:—

Tenders will be received until WEDNESDAY the 29th day of SEPTEMBER next.

The plans and specifications will be ready for examination (at the places previously mentioned) on Thursday the Sixteenth day of September next.

By Order,
F. BRAUN,
Secretary.

The Coal Trade.

The production for the week ending on the 28th ult., as stated by the Philadelphia *Ledger*, was 561,885 tons, and for the year 11,749,298 tons, against 12,633,712 tons to corresponding date last year, a decrease of 884,414 tons. The bituminous tonnage for the week was 77,832 tons, and for the year 2,372,963 tons, making a total of all kinds for the week of 639,717, and for the year of 14,122,261 tons, against 14,975,664 tons to the same time last year, a decrease of 853,403 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 104,180 tons, and for the year 2,598,808 tons, of which 2,098,512 was coal and 411,104 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 4th instant there were receipts of 80,000 tons of coal, shipments of 60,000 tons, leaving 90,000 tons on hand.

☞ The India rubber Gutta Percha, and Telegraph Works Company (Limited) have heard by telegraph from Mr. Gray, who is in charge of their expedition, that the second section of their West Coast of South America cables has been successfully completed—that, namely, from Islay to Arica, both in Peru. This section is about 200 miles long, and increases the total length completely laid to 660 miles.

☞ Cape Colony, Africa, has about 800 miles of railway in course of construction, at a cost of $20,000,000, whilst in New Zealand, there are 500 miles of railroad now building, and 860 more authorized. India has 5872 miles of road open, and 1927 in course of completion.

☞ The Woodland Hills and Newburgh Street Railroad company, of Cleveland, Ohio, with a capital stock of $50,000, was incorporated on the 25th ult. by John Rock and others.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.

PERKINS, LIVINGSTON, POST & Co.,
59 Liberty Street,
NEW YORK.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; lest strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Definition of the Word "Cattle."

DECISION OF THE U. S. SUPREME COURT.

In the case of The First National Bank of Decatur, Ill., plaintiff in error, vs. The Home Savings Bank of St. Louis, Mo.—in error to the Circuit Court for the Southern District of Illinois—Mr. Justice Davis delivered the opinion of the Court:

The basis of this suit is a letter of credit of 13th of September, 1859, addressed by the Cashier of the plaintiff in error to the Cashier of the defendant in error, in the following terms: "We beg to accredit with you P. E. Frederick, Esq., whose drafts on shipments of cattle to J. T. Talmage & Co., Chicago, are herewith guaranteed to the amount of $10,000 for thirty days from date." The subsequent correspondence, on any rational interpretation of it, did not have the effect to change the terms of the original letter, nor was it so intended except in two particulars which are not the subject of controversy. The drafts drawn by Frederick on Talmage & Co., which were paid to him by the defendant in error, were dishonored, and this suit is brought to hold the plaintiff in error liable on its letter of guarantee.

The plaintiff in error admits the execution of the drafts and the payment of the money, but insists there is no right of action against it, because the drafts were drawn on shipments of "hogs" instead of cattle. It is not pretended that any injury accrued to it on this account, or that its security was lessened or that there was any want of good faith on the part of the St. Louis Bank or Frederick in the transaction. But the point made is that it only consented to be bound if cattle were shipped, and this not being done, no liability attaches to it.

This defense, technical though it be, is sufficient to defeat the action if the condition of the guarantee was not observed; and this renders necessary a construction of the instrument. Like all other contracts, it must receive the construction which is most probable and natural under the circumstances, so as to attain the object which the parties to it had in contemplation in making it.

Frederick was engaged in buying and shipping stock in St. Louis during the Fall and Winter of 1869, and the presumption is, in the absence of any evidence on the point, that he resided in Decatur, where the plaintiff in error had its place of business. At any rate, he was unknown in St. Louis, without either money or credit, and as he could not carry on his business without money it was necessary that he should be accredited to some responsible banking house in that city. This was done through the letter of credit of 13th of September.

The bank to which this letter was addressed doubtless thought its correspondent trusted in some degree to the pecuniary responsibility of Federick; but it had no right to suppose that the letter of credit was given solely on this account. On the contrary, the letter is based on the idea that shipments of stock would protect the drafts. If Federick was responsible, still the Decatur bank did not trust to this alone, but relied on the security which was to accompany the drafts. This it had a right to do, and its conduct was very natural under the circumstances. Indeed, the business in which Federick was engaged is usually conducted in this manner.

The Decatur bank doubtless believed, and acted on the belief, that the stock would sell for enough to pay the drafts; and if it did not, the loss would be inconsiderable, and such as Federick could readily meet. It now seeks to escape liability; not that stock sufficient to secure the draft was not shipped, but that it was a different sort of stock named in its letter.

It is fair to presume that an investment in hogs yielded as good a return as an investment in cattle; and if the consignee in Chicago had not failed, no trouble would have arisen. As this consignee named by it, and with whom the St. Louis bank had no concern, did fail, it seeks to throw the loss on the St. Louis bank, because it interpreted the letter to embrace shipments of hogs as well as neat cattle.

The question then arises, was this interpretation correct? That stock of some kind formed part of the guaranty is quite plain, but is the word "cattle," in this connection, to be confined to neat cattle alone, that is, cattle of the bovine genus? It is often so applied, but it is "also a collective name for domestic quadrupeds generally, including not only the bovine tribe, but horses, asses, mules, sheep, goats, and swine." [Worcester's Dictionary—Cattle.] In its limited sense it is used to designate the different varieties of horned animals; but it is also frequently used with a broader signification as embracing animals in general which serve as food for man.

In England, even in a criminal case, where there is a greater strictness of construction than in a civil controversy, pigs were held to be included within the words "any cattle." Rex vs. Chappel, Russell and Ryan Crown cases, p. 77, and in other cases in that country involving life and liberty, the word has been construed so as to embrace animals not used for food. (Rex vs. Whitney, Moody's Crown Cases, vol. 1., p. 3; Paty's case, 2 W. Black, 721; Rex vs. Mott, 2 EastP 1, chap., 1,-074-6.)

Did the plaintiff in error use the word in its narrow and restricted meaning or in its more enlarged and general sense? In other words, did it intend to restrict Federick to the dealing in horned animals alone, and so confine the defendant in error to drafts based on this kind of stock. There was no apparent motive for doing so. Clearly security was the object to be attained. And this was better attained by leaving Federick unrestricted in the choice of animals to send forward to market, provided they were of the kind generally used for food.

It is well known that the market varies at the Chicago cattle yards. At certain times hogs are a readier sale and bring better prices than other kinds of stock. And at other times horned animals alone command the attention of buyers. Every prudent dealer in stock informs himself of the state of the market before purchasing, and the means of doing this are greatly multiplied in later years.

For these reasons the judgment is affirmed. A question raised at the bar—that national banks are not authorized to issue letters of credit, and therefore the action cannot be sustained, was not considered because not contained in the record.

☞ The Southern Pacific Railroad was to have been finished between San Bernardino and San Gregorio Pass on the 14th inst.

antic and Gt. Western Railroad.

The Receiver of the Atlantic and Great Western Railroad has issued a report showing the operations of that road and the Cleveland and Mahoning Valley lines from December 10, 1874 to April 30, 1875. During the period named the gross earnings are stated at $1,403,638, the operating expenses at $1,078,642, and the net earnings at $324,996. The Receiver's cash statements show that during the same time the assets of the Atlantic and Great Western Railway collected, (including money received on Receiver's account,) amounted to $1,868,617, and the payments on account of Atlantic and Great Western Railway liabilities, (including payments on Receiver's account) were $1,798,003, leaving a balance of cash on hand of $70,618—subject to deductions for additional expenditure, amounting to $31,487, between December 10, 1874, and April 30, 1875. In the above payments the Receiver includes the sum of $258,761 paid for rent of the Cleveland and Mahoning Railroad, exclusive of the Niles and New Lisbon and Liberty and Vienna Railroads.

The statements which also accompany the Receiver's documents show that the Mercer Mining and Manufacturing Company, whose shares form part of the 1873 leased lines trust, was operated between December 1, 1874, and May 31, 1875, with total net receipts for the six months of $18,905; and that the Shenango and Allegheny road, whose shares also form part of the 1873 leased lines trust, was operated with the following result; gross earnings, $68,877; operating expenses, $42,944; net revenue, $25,933—which is subject to a charge of $23,333 for accrued interest on the Shenango and Allegheny bonds, between January 1, and May 31, 1875.

From the above it will be seen that the actual cash balance available, after meeting the mortgage liabilities, is $2600.

The Future of Wyoming.

When, some seven years ago, Congress created the Territory of Wyoming, very few people, even among those who were chiefly instrumental in the organization were enthusiatic enough to believe that Wyoming would ever be anything more than a mountainous desert. To day evidences are accumulating on all hands that point unmistakably to the fact that Wyoming is destined before many years to become one of the wealthiest States in the Union.

The letters which have recently appeared in our columns descriptive of the natural advantages and resources of various localities in Wyoming on the line of the Union Pacific railway, doubtless enable our readers to form a faint conception of the future destiny of Wyoming. With her vast deposits of iron and other metals, and with her inexhaustible coal mines, Wyoming must in the very near future become to the trans-Missouri region what Pennsylvania is and has been to the States on the Atlantic border. The experiment undertaken by the Union Pacific in manufacturing her own rails at her Laramie rolling mills, has successfully demonstrated the advantages presented by that region for iron manufacture. It is only a matter of time when capitalists will profit by this example by establishing smelting works, furnaces and iron mills. Millions have already been realized out of the Wyoming coal mines, and they have hardly been tapped. There are more undeveloped bonanzas in the black diamond fields of Wyoming than there are in the argentiferous region of the Sierra Nevada.

Wyoming presents more solid inducements for future prosperity to-day than any other territory in the Union. We have more faith in her ultimate destiny than we have of any region west of Nebraska. It only requires time, patience and perseverance on the part of her sturdy pioneers to realize their most sanguine hopes.—*Omaha Bee.*

Maine Central Railroad.

The earnings of the Maine Central Railroad and Branches for the years ending December 31, 1873 and 1874, were as follows:

	1873.	1874.

Total, as above.....	$398,380 01

The total earnings for 1873 were $2,068,077 78; operating expenses, $1,320,501 44; net earnings, $737,576 34. The total earnings for 1874 were $2,094,080 55; operating expenses, $1,281,681 25; net earnings, $812,399 30; showing an increase of net earnings for 1874 of $74,822 96. The receipts from passengers were $910,391 89; from freight, $1,028,965 41; from all other sources, $154,723 25. The number of passengers transported has been 752,724, an increase of 32,964 over the year 1873. Average distance traveled by each passenger, 36.7 miles; average price per mile for passengers, 3.8 cents. The number of tons of freight carried has been 422,400; increase over 1873, 20,496 tons; average miles per ton of freight, 59.93; average price per ton per mile, 4.07 cents. The number of miles run by engines connected with passenger trains has been 504,216; with freight trains, 459,632; for wood, construction and miscellaneous work, 287,178 miles. The President in his report says:

A general stagnation of business throughout the country has materially affected the business of our road, so that its gross receipts have only been increased over those of 1873, some $26,000; but the practice of rigid economy in every department in working the road, has given an increase of net earnings over last year of $74,822 96. As evidence that no saving has been attempted by neglect of the proper outlay on our track, bridges, stations and rolling stock, we quote from the report of the Railroad Commissioners of the State, for 1874, as follows:

"Persons who have had occasion to travel over this road for the last year or two, cannot have failed to notice the vastly improved condition of the track and road bed, the many new and permanent bridges both iron and wood, the neat and commodious station buildings, many of them entirely new, and the others repaired and remodeled. In making these renewals and repairs, the company are manifesting good judgment, and setting an example of true economy worthy of imitation by other companies. Wherever old, unsafe, temporary bridges or buildings have been removed, permanent and substantially built structures have been substituted, and no effort or expense has been spared to insure safety and durability."

During the year we have completed the iron bridge over the Kennebec river between Waterville and Fairfield, and replaced the old wooden bridge over Ticonic Falls with a first class iron bridge, which was opened for use last summer. We have now four first class iron bridges on the line from Portland to Bangor, via Augusta; three over the Kennebec and one over the Androscoggin at Topsham. These bridges have cost a large sum of money, but economy demanded the outlay, that a line so important should not be liable to interruptions by fire, to which wooden bridges are so exposed, and from which our company has encountered heavy losses.

As will be seen by the Treasurer's statement of liabilities during the past year, the Bonded Debt of the Company has been reduced by the payment of the

City of Bangor Loan.....	$474,000
Penobscot and Kennebec, do.....	100
Portland and Kennebec funded int. do..	1,800
Somerset and Kennebec 1st mortgage, in part	247,000
Total.....	$722,400

These liabilities have been met by the sale of consolidated bonds, and by notes payable, increasing our liabilities only $14,332. Since the date of the Treasurer's report, $40,700 of the Somerset and Kennebec bonds have been paid, which leaves but about $12,000 of these bonds outstanding.

On the 28th day of Dec., 1874, your Directors consummated a contract with the Boston and Maine R. R. for doing a joint business on terms which we trust may be mutually advantageous to the corporations interested, and the public gener-

ally. By this contract the Boston and Maine R. R. open that line to us for through business on nearly the same terms granted us by the E. R. R. Co. by contract of 1871, and receive from us the same privileges and services which the Eastern were entitled to under that contract. In effecting this arrangement with the B. and M., it became necessary to modify and change somewhat the contract of 1872, which we had with the Eastern Road. To do this required the consent of that corporation. After mature deliberation and a full canvass of the important proposition, the Directors of the Eastern and the M. C. agreed to cancel all existing contracts, and substitute therefor a new contract embracing essentially the same provisions and terms contained in the contract between the M. C. and B. and M. These contracts are for the term of five years, a time sufficiently long to test their equitable and judicious workings, and suggest what changes, if any, should be made in said contracts, in order to continue the present connections and relations of said roads permanently.

President.—ANSON P. MORRILL.

Directors.—Anson P. Morrill, J. B. Brown, Lewis Pierce, Darius Alden, Noah Woods, Lysander Strickland, Abner Coburn, Geo. M. Patten, Geo. L. Ward, T. K. Lothrop, John Wooldredge, Jas. P. Cook, Frank Jones.

Treasurer.—J. S. CUSHING.

☞ The new board of directors of the Gilman, Clinton and Springfield Railroad, appointed by the Circuit Court to act until the election can be held, as provided for under the decree of the court, have elected the following officers: Colonel Thomas Snell, Clinton, Ills., President; Dr. E. Wenser, Gilman, Ills., Vice President; and S. L. Beidler, Mt. Pulaski, Ills., Secretary.

Addition of New Securities to the Stock Exchange List.

The New York Stock Exchange have admitted to their list the following named securities:

CHICAGO, ROCK ISLAND AND PACIFIC.

One million dollars of Chicago, Rock Island and Pacific sinking fund income sixes of 1895. These bonds are to be issued by the Chicago and Rock Island Railroad Company, and are designed to pay for building fifty miles of additional road west of Sigourney, Iowa. They are to come after the first mortgage bonds, are to be of the denomination of $1,000 each, with coupons bearing six per cent. interest payable on Aug. 1 and Feb. 1 of each year, principal payable Aug. 1, 1895. A sinking fund of $40,000 per annum, beginning Jan. 1, 1877, is to be set aside to purchase them back, if they can be obtained at par and accrued interest. If not, the fund and interest is to be invested in the mortgage sinking fund bonds of the company, at a price not exceeding five per cent. premium and accrued interest. The company stipulate that if any subsequent mortgage be contracted before the new bonds reach maturity, it shall be made to cover and include this issue.

CHICAGO, MILWAUKEE AND ST. PAUL.

Thirty five million dollars of Milwaukee and St. Paul consolidated sinking fund bonds to take the place of the company's first mortgage consolidated bonds, dated Feb. 14, 1874, of the same amount, now on the list, these latter bonds having been declared defective. The new bonds bear date July 1, 1875, are of the denomination of $1,000 each, are numbered from one to 35,000, and pay interest at the rate of seven per cent. per annum on Jan. 1 and July 1 of each year. Of the defective bonds $1,039,000 have been issued, and will be exchanged for the new bonds on presentation. Twenty seven million three hundred and thirty nine thousand dollars of the new issue have been deposited with the Farmers' Loan and Trust Company, to take up all outstanding bonds which amount to that sum. The balance of the issue are designed for the purchase of steel rails, to build bridges, and for other permanent improvements of the road.

CLEVELAND, COLUMBUS, CINCINNATI, AND INDIANAPOLIS.

Seven million five hundred thousand dollars of Cleveland, Columbus, Cincinnati and Indianapolis consolidated mortgage bonds, to be issued by the Cleveland, Columbus, Cincinnati and Indianapolis Railroad Company, with a view to consolidating all the indebtedness of the road and establishing a fund to meet the future requirements of the company. The bonds are to be of the first class, and are secured by a single mortgage on the entire property of the road, a sinking fund trust mortgage deed having been executed to Henry F. Vail and Charles E. Tracey, subject to the redemption of 3,696 old bonds. That number of new bonds for that purpose has been deposited with the United States Trust Company, and twenty four have been already exchanged. The bonds are of the denomination of $1,000, currency, or £200, gold, each, with coupons attached, payable on June 1 and Dec. 1, in New York, at the rate of $35, currency, and in London at the rate of £6, gold; principal payable in 1914, unless sooner redeemed by the sinking fund.

LEHIGH AND WILKESBARRE.

Fifteen million dollars of Lehigh and Wilkesbarre consolidated guaranteed mortgage bonds. These bonds are to be issued by the Lehigh and Wilkesbarre Coal Company for the purpose of funding the company's present indebtedness and retiring or paying their present outstanding bonds. They are of the denomination of $1,000 each, numbered from one to 15,000, dated June 1, 1875, principal payable June 1, 1900; interest seven per cent. per annum, payments to be made quarterly on March 1, June 1, Sept. 1, and Dec. 1 of each year. They are guaranteed by and are placed under the heading of the Central Railroad of New Jersey.

Fort Scott, Southeastern and Memphis Railway.

Articles of association of this company were filed in the office of the Secretary of State of Missouri at Jefferson, on the 28th of August. This contemplated road commences where said road intersects the State line of Kansas and Missouri, running from thence southeasterly to a point on the State line between Missouri and Arkansas, where the same is to meet a line of railway from the direction of Memphis, Tennessee. It is intended that the line of railway shall extend into or through the counties of Vernon, Barton, Dade, Greene, Lawrence, Stone, Webster, Douglas, Howell, Taney and Ozark, and zig zag along through such other counties as may prove advantageous. The length of the road will be about 170 miles, and the amount of capital $1,700,000. The Board of Directors are: Benjamin C. McDonald, Chas. F. Drake, Lewis C. Nelson, of Fort Scott; Geo. H. Nettleton and Chas. H. Prescott, of Kansas City.

Law against the Publication and Dissemination of False News.

The following is a copy of an act passed by the New York Legislature May 11, 1874, entitled "An Act to declare the publication and dissemination of false news a crime, and to provide for its punishment:"

Section 1. Every person who shall knowingly circulate false intelligence, with the intent of depreciating or advancing the market price of the public funds of the United States, or of any State or Territory thereof, or of any foreign country or government, or the stocks, bonds or evidence of debt of any corporation or association, or the market price of any merchandise or commodity whatever, shall be deemed guilty of a misdemeanor, and shall be punished, upon conviction thereof, by a fine not exceeding $5,000 and imprisonment for a period not exceeding three years, or either.

Sec. 2. Every person who shall forge the name of any person, or of the officer of any corporation, to any letter, message or paper whatever, with intent to advance or depreciate the market price of the public funds of the United States, or of any State or Territory thereof, or of any foreign country or government, or the market price of bonds or stocks, or other evidence of debt issued by any corporation or association, or the market price of gold or silver coin or bullion, or of any merchandise or commodity whatever, shall, upon conviction, be adjudged guilty of forgery in the third degree, and shall be punished by imprisonment in a State prison for a term not exceeding five years.

Sec. 3. This act shall take effect immediately.

Utah Northern Railroad.

At an election for directors of the Utah Northern Railroad Company, held at Salt Lake City on the 11th inst., the following gentlemen were chosen: John W. Young, of Salt Lake City; Joseph Richardson, of New York; R. M. Bassett, of Birmingham, Conn.; M. Salisbury, of Washington; Oliver Ames, of Boston; Charles M. Schofield, of New York; M. Thatcher, of Logan; Lorin Farr, of Ogden; Samuel Smith, of Brigham, Utah; M. W. Merrill, of Richmond, Utah; Brigham Young, Jr. of Logan; W. B. Preston, of Logan, and L. H. Hatch, of Franklin, Idaho.

☞ The Pan Handle News says "The branch of the Pittsburgh and Kentucky Railroad, from Wheeling to Steubenville, is certain of being completed at an early day. A company, principally from Wheeling, have made the necessary arrangements to push the road through early next spring."

Central Pacific Railroad.

CHIEF ENGINEER'S REPORT.

OFFICE OF CHIEF ENGINEER,
SAN FRANCISCO, June 20th, 1875.

Hon. Leland Stanford, President:

SIR:—The work under the supervision of the Engineer Department for the year 1874, was confined chiefly to the maintenance and repairs of road, and did not embrace any extension of main lines and important surveys.

There were received overland during the summer and fall 3,016 tons of sixty pound American steel rail—equivalent to 32 miles of track. Of this, 27½ miles were laid on the mountain division, the remainder being received too late to lay before the winter storms set in.

This gave a total of 48½ miles laid with steel on the thirty first day of December, 1874—all on the Sierra Nevada.

The rail received last year was manufactured at the Cambria Iron and Steel Works, and is guaranteed by the manufacturers against breakage or failure of any kind for five years.

Of the five thousand tons iron rail contracted for with the Pacific Rolling Mill, San Francisco, there were received during the year 1874 2,491 tons, all of which was placed in the track.

Miles of track renewed with iron rails, 26½.

By resolution of the Board of Directors, in October last, it was decided to make all renewals of main track with steel, and contracts for the delivery of a large quantity during the present year have been made with Eastern manufacturers.

The rail for the mountain divisions will be of the same pattern as that already laid, weighing sixty pounds per yard; while that used on the valley can be of lighter weight.

Number of new ties used in repairs of track, in 1874, 159,965.

Number of ties used on construction, 5,607.

No general renewal of bridges or trestles has yet been found necessary, but all structures of this class have been kept in thorough repair; and some which have been found unimportant as water ways have been replaced with embankments.

I think it will be advisable to commence the work of filling the trestles between New Castle and Gold Run next season, as the work can be better and more economically done with a small force than to wait until it becomes a necessity and crowd it all into one season.

Some important changes have been made on the Oregon Division in the reduction of grades between Lincoln and Marysville. All the grades on this portion of the line, except the northern approach to Yuba River bridge, have been reduced to a maximum of 0.004 or 21.12 feet per mile. Similar improvements in grades will be made between Lincoln and Roseville the present season, which will place the first division, viz: Roseville to Red Bluff, within the maximum above named, and materially reduce the cost of operating.

Between Red Bluff and Redding it was found necessary in a few places to introduce grades of 0.01 or 52 8 feet per mile, which maximum can probably be maintained for a further distance of 63 miles, making two working divisions as follows:

Roseville to Red Bluff, 98 miles, maximum grade 21.12 feet per mile:

Red Bluff to Soda Springs, 100 miles, maximum grade 52.8 feet per mile.

The damage from freshets during 1874 were unimportant, and were confined principally to the valley of the Humboldt. A few breaks in the road bed occurred where some of the smaller water ways proved insufficient, but no serious detention of trains resulted.

The storms in January last caused heavier freshets in the American, Yuba, and Feather Rivers than have occurred since 1867-'8.

A few bents of trestling in the northern approach to the American River bridge were carried away, and passengers were transferred across the break for two days.

On the Oregon Division a small break occurred near Bear River, and the track south of the Yuba for over a mile, and between the Yuba and Feather Rivers, was inundated, and a portion of the trestling across the slough near the north levee carried away; and north of Feather River the track sustained some damage for seven or eight miles, caused by the overflow of that stream. Thence to Redding no injury was done by the storms.

It may not be out of place to notice here the construction of roads, by other companies, which must make important feeders to your line:

The Visalia Railroad, extending from Goshen to the former place, has been completed and in operation for several months.

The Nevada County Narrow Gauge Railroad, connecting the town of Colfax with the important mining towns of Grass Valley and Nevada, is now under construction and its early completion seems assured.

The Eureka and Palisade Railroad (narrow gauge) is already completed a distance of 50 miles from the latter place, and 40 miles additional will be built this season.

The Utah Northern Railroad (narrow gauge), connecting with your road at Corinne and Ogden, is in operation to the town of Franklin in Cache Valley.

SNOW SHEDS.

Some important additions were made to these structures last season, viz: covering siding and turn table at Blue Canon, and several deep cuts between that station and Emigrant Gap. Extensions of sheds 700 feet west of Emigrant Gap station, and east to Tunnel 2, and covering turn table and sidings at Tunnel 13.

The losses of sheds by fire during the season amounted to 3,882 feet in length.

Total length of new sheds built, including renewal of the above, 9,959 feet. Length of snow fences built on Humboldt and Salt Lake Divisions, 9,950 feet.

A fire alarm telegraph has been constructed from Blue Canon to Truckee, with signal boxes located at intervals varying from three fourths to one and one-half miles. These boxes are accessible to the watchmen, section men and train men, and an alarm sounded in any one of them is repeated simultaneously on the alarm gongs at Blue Canon, Emigrant Gap, Summit and Truckee, giving the number of box.

The time thus saved in communicating an alarm will, it is believed, add greatly to the security of the sheds, as trains can be stopped, and the fire engines be at once dispatched to the spot where needed.

Its usefulness was fully demonstrated, and there is little doubt that its cost was more than saved during the short time it was in operation last season.

WHARVES, &C.

The wharves and other structures about San Francisco and Oakland are in good condition, and being mostly new, no extensive repairs have yet been required.

Sliding ways have been constructed at Oakland Point, and the work of construction and repairs of steamers, etc., has been transferred to that place.

Two new steamers, designed for the ferry line, have been built—one for passenger and one for freight service. These are the largest boats yet placed on that line, the latter being large enough to accommodate twenty loaded cars, or four more than the "Thoroughfare."

The "Oakland" (passenger boat) has already been launched, and the "Transit" (freight) will be launched early in July.

It is the intention to refit the steamer "Capital" for the Creek route as soon as possible, and work on her has already been commenced. When completed, all the team ferriage to Oakland will be via the Creek route, and the present roadway on the wharf can be made available for additional railroad tracks.

New slips for the Oakland ferry boats are being constructed by the Harbor Commissioners on East street, between Market and Clay, and it is expected that they will be ready for use by the first of August, possibly sooner.

Arrangements are to be made for the Vallejo and river steamers on the south side of Market street wharf.

A slip for the new Creek boat will be required at Oakland, the location of which has not been decided upon.

In October, 1874, a meeting of the officers of the Union and Central Pacific Railroads was held at Ogden, and arrangements were completed for making the permanent junction of the roads at that place, where both connect with the Utah Central and Utah Northern.

A deed of a part of the land required for depot purposes was obtained by the companies jointly, and measures adopted to secure the remainder.

Plans for a union yard and depot grounds have been prepared in this office, and submitted to and approved by the directors of the companies interested, and work may be commenced as soon as a few questions of land titles are quieted.

EXAMINATION OF ROAD BY GOVERNMENT COMMISSIONERS.

The commission of eminent citizens appointed by the President of the United States to examine and report on the condition of the Pacific Railroads in 1869, reported certain deficiencies in ballasting, widening embankments, permanent buildings, tools, etc.

Subsequent to that examination all necessary work was performed, and a much greater sum expended upon the improvement of the road than was required in the report and estimate of the Commissioners—said work being finally completed the last day of September, 1874.

The Hons. Jos. W. Dwyer, of Ohio, Eugene Sullivan and Calvin Brown, of California, were appointed by the President as Commissioners to make a re examination of the road and report its condition.

The examination was made in October last, and the road reported by them as fully completed and equipped, and in every respect first class.

The following table shows the mileage of Main Line and Branches, December 31st, 1874:

	Miles.
MAIN LINE.	
San Francisco to Ogden	882.89
BRANCHES.	
Oregon Division—	
Roseville to Redding	151.45
Visalia Division—	
Lathrop to Goshen	146.20
OAKLAND AND ALAMEDA BRANCHES.	
Oakland wharf to Brooklyn	5.67
Oakland Point to Masticks	3.79
Alameda Wharf to Melrose	5.19
SAN JOSE BRANCH.	
Niles to San Jose	17.54
	329.94
Total	1,212.83
Length of road operated, Dec. 31, 1873	1,218.93
Deduct track removed in 1874—San Leandro to Haywards	6.10
Balance as per above	1,212.83
Length of Sidings, Dec. 31, 1873	140.89
	Miles.
Sidings constructed in 1874	6 86
Sidings removed in 1874	1.43
Increase in sidings	5.43
Total sidings, Dec. 31, 1874	146.32
Total length all tracks, Dec. 31, 1874	1,359.15

Respectfully submitted,
S. S. MONTAGUE,
Chief Engineer.

Central Pacific Railroad.

LAND AGENT'S REPORT.

LAND DEPARTMENT, CENTRAL PACIFIC R. R. Co.
SAN FRANCISCO, CALIFORNIA, July 1st, 1875.

To the President and Directors of the Central Pacific Railroad Company :

GENTLEMEN : In former reports, I have shown that :

	Acres.
The land grant from the United States Government to the Central Pacific Railroad Company of 12,800 acres per mile, for 742 miles, is.....	9,497,600
Deduct for lands previously granted and reserved say.....	1,500,000
Leaves	7,997,600
The land grant to the California and Oregon Railroad of 12,800 acres per mile, for 291 miles, is.....	3,724,800
Total.....	11,722,400

The grant to the C. and O. R. R. Co. provides that where lands are lost to the company by rea son of previous grants or reservations, they can be made good from an indemnity grant of ten miles wide on either side of the twenty mile limit, which insures to the Railroad Company the full amount of land granted. The value of these lands, at the Government minimum price for adjoining lands, $2 50 per acre, would be $29,306,000.

A large portion of this is the choicest agricul tural and timber land in the country, and will sell for a much greater price.

The policy of the company has been to sell its farming lands at low prices, and on easy terms of payment, to actual settlers, believing the best interests of the company are promoted by selling in limited quantities to those who will cultivate the soil, and who will own the land they cultivate. By this means an industrious, agricultural population is invited, whose improvements and the product of whose labor, tend to enhance the value of the unsold lands,

Most of the lands that have been sold were purchased for gold, on a credit of five years ; a payment of twenty per cent being made at the time of purchase, the remainder to be paid at the end of the term, with annual interest, payable in advance, on all sums remaining due.

No sales have been made within the past year except for gold.

The total amount of sales by the Land Department, from its organization to June 30th, 1875, amount to 395,865.08 acres, which were disposed of for $1,674,559 08, being an average of a little more than $4 23 per acre.

There were sold, prior to October 1, 1870, 127,637.55 acres, for $295,065 50, averaging $2 31 per acre.

Of the lands in the California and Oregon R. R. grant, there were sold, prior to the consolidation of that company with the Central Pacific R. R. Co., 9,760.87 acres, for $18,443 36.

From October 1, 1870, to December 31, 1872, there were sold 122,765.09 acres, for $484,227 97, averaging $3 94¼ per acre.

From December 31, 1872, to December 31, 1873, there were sold 58,733.60 acres, for $410,314 92, being an average of $7 00 per acre.

From December 31, 1873, to December 31, 1874, there were sold 63,846.99 acres, for $388,824 26, being an average of $6 09 per acre.

From December 31, 1874, to June 30, 1875, there were sold 18,120.98 acres, for $77,683 07, averaging about $6 per acre. This includes 160 acres granite quarry donated to the State.

This Department has also sold, up to June 30, 1875, the standing timber on 3,472.64 acres of land (reserved by the Government for mineral), for $10,191 60.

It will be seen by the foregoing, that the amounts realized from the sales of land continue to increase year by year. Prices advance as the country becomes settled, and, with the rapid augmentation of the population, which California will undoubtedly have every year, lands will greatly and with rapidity still further enhance in value.

The timber lands of the company, while intrinsically valuable, could not be readily sold for a few years after the completion of the road, for the reason that the alternate even sections were reserved from sale by the Government, and, under the theory of the law, they were only subject to pre emption and could not be disposed of in any other manner. The proprietors of the saw mills found it to be cheaper to pay their employes for filing a pre-emption—and thus obtained some kind of authority to remove the timber—than it was to buy the odd numbered sections from the railroad company at Government price. All of the even numbered sections within a reasonable distance of the line of the road are now thus appropriated, and the demand for the railroad timber lands is now yearly increasing, and enhanced prices are obtained. The rapidly increasing settlement of the country, and the vast amounts of timber used in the mines in the State of Nevada, cause an increased demand for this class of lands.

The large tracts of lands near the line of the road in Nevada, and called "desert" lands, are found to produce largely wherever water can be obtained for their irrigation. Within the past year this Department has made many sales of this class of lands to actual settlers, who find that they can be profitably cultivated.

A demand has arisen for the lands of the company in Utah, none of which have yet been sold. Some extensive schemes for irrigation are contemplated in Malade Valley, Utah, which, if carried in actual operation, will create a large demand for lands in that vicinity. During the present summer these lands will be graded and sold to actual settlers. The delay in making sales in Utah has arisen from the fact that, until within a few months, the Department of the General Land Office at Washington failed to mark the line of division between the lands of this road and the Union Pacific, and it was considered best that no sales should be made until this line was definitely fixed.

It is estimated that at least 65,000 persons will come to this State during the present year, with the intention of making California their permanent home. There have already arrived overland, by rail, from the 1st of January to this date, 40,972. This rapid increase of population creates a large demand for land, but, thus far, this demand has been within the southern portion of the State and on the line of the Southern Pacific road. I think this to be a mistake on the part of these immigrants, for the reason, that while the lands in the South are many of them of first quality, yet the rain fall is less than in the middle and northern portion of the State, on the lands of the Central Pacific and California and Oregon roads ; but, I believe, in a short time, the error will lead to its own correction, as immigrants will find that in the South they have to depend on irrigation for successful crops, while, in the North, crops never fail for want of rain. The evidences are that this tide of immigration will increase, and will, in a few years turn into a mighty current of people, who will pour in and fill up every available tract in the country, making land of great value, and requiring large and abundant railroad facilities for travel and for commercial and agricultural transportation.

The lands of the Central Pacific Railroad Company may justly be regarded as one of its most valuable assets.

Respectfully,
B. B. REDDING,
Land Agent.

☞ The new railroad from Vacaville to Winter's Station, in Yolo county, Cal., was opened August 29th, the first passenger train through, leaving Vaca Station on the California Pacific Railroad at 10:30 A. M. The second train ran up on the 30th, and daily trips are to be made, connecting both ways with trains on the Vallejo road.

Discovery of an Immense Cannel Coal Mine in Wyoming Territory.

A correspondent at Evanston, Wyoming Territory, sends us the following description of a mammoth coal mine recently discovered in that vicinity by Mr. Crocker, of Logan, Utah. He says:

The mine is situated in Uintah county, Wyoming Territory, about twenty five miles east of Utah, and eighteen miles northwest of Carter station on the Union Pacific Railroad, and has been appropriately named the "Mammoth Sandstone Mountain Coal Mine." The mine is in a sandstone mountain, about four and a half miles long, running north and south, facing east, and about three quarters of a mile across; the mountain dipping suddenly at each end. There are sixteen veins of coal in sight, the bottom one is the smallest, being five feet ; the next is the largest and most easy of access, and is upwards of seventy feet thick ; the next above is sixty feet ; another of forty feet ; another of about thirty feet ; five of about twenty feet each, and five of sixteen feet each. The last one is about twelve feet—altogether about four hundred feet of coal, four and a half miles long.

The veins lay at an angle of 22 deg., with ledges of white sandstone intervening. The coal is very bright, is perfectly free from slate or dirt, and is said to be cannel coal. A small quantity of the croppings from the 70ft. vein has been tested for coke by John McVicker, an assayer of Salt Lake City, who states that it yields coke fifty-two and two-tenths per cent, which may be considered a very excellent return under the circumstances.

But whether the coal will coke or not, it is an excellent steam coal. One engineer who has used it, says that one bushel of it will make as much steam as three bushels of ordinary coal, leaving less ashes than any coal he ever burned. Professor Pontez, of Omaha, geologist to the Union Pacific Railroad, has made an investigation of the mine, and reports it as the finest deposit of coal in Western America. The Professor is now in Omaha, making out maps of the coal region, and the route to it by way of Bear river, which he intends to take to San Francisco, to lay before the Directors of the Central Pacific Railroad. It is understood to be the intention of the owners to lease the mine, taking a royalty on each ton mined.

Steel vs. Iron Rails.

The Review of Mining contains an elaborate article by M. Despret on the substitution of steel rails for those of iron in the construction of railways. Experience amply shows, says M. Despret, that steel rails offer a far greater resistance than those of iron to the strain caused by the passing of trains, and this superiority consists not only in their chemical, but also in their physical composition, the steel rails being perfectly homogenious, while those of iron are composed of different layers imperfectly welded together. With respect to their quality, M. Despret says that the steel rails give greater guarantee for stability than those of iron, the quality of the latter being, as is well known, excessively variable, while that of the former is much more uniform. On this account, therefore, the steel rails should endure far longer than the iron ; opinions are, however, much divided as to the relative durability of the two, some engineers maintaining that the steel rails will last only twice as long as those of iron, while others assert that ten times is the correct proportion. M. Despret made experiments on a portion of a permanent way having a gradient of one in fifty to one in fifty five, and found that iron rails of excellent quality, laid on the gradient showed in three years a wear of 0.393 inch, while steel rails on the same gradient showed, in four years, a wear of only 0.1572 inch, the table of the rail preserving a perfectly regular form.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 18, 1875.

Financial and Commercial Affairs.

Notwithstanding the numerous failures and rumors of failures during the past week, the course of Money has been remarkably easy, and rates on accommodation have been ruling low to all borrowers whose standing and collaterals have been deemed satisfactory by lenders. The demand for aid from such sources has not been urgent, and has been quite promptly met within the range of 2@3 per cent on call, and 4@7 per cent per annum in the discount form. The City banks have augmented their loan and discount items moderately, while reporting a loss of specie, legal tender notes, and deposits, by which their total reserve, as against liabilities, was reduced $2,253,200, and their legal surplus reserve, $1,957,050. The U. S. Treasury lost about three-fourths of a million of currency, while enlarging its specie board, nearly 2½ millions, as the results of the week's business. The City Banks last week diminished their reserve of legal tender notes $1,421,100, their deposit item $1,184,600, and their specie average $332,100. They report a further expansion of $608,900, in the loans and discounts, and a reduction of $368,600 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $59,846,802, against $60,599,414 the preceding week; and a coin board of $38,018,239 against $35,549,846 on the previous return. The City bank exchanges in currency during the week were $352,728,401, or a daily average of $58,788,067. The customs revenue of the port, during the week, was $2,-

710,000. The City banks reported their average of gold last week at $9,278,200, and their greenback average at $69,185,200. Their deposits stood at $242,605,100. The loan item was $283,443,200. The circulation was $17,756,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $17,912,125.

The aggregate of the outstanding U. S. currency, of all denominations, September 1, was $415,938,229. The outstanding amount of legal tender notes is $374,245,708. The National bank circulation is now $348,011,138, including $2,640,000 of national gold bank notes.

The specie shipments from San Francisco, January 1, to Sept. 2, were $37,586,805, as against $18,154,049 same time in 1874.

On Tuesday, the cash balances of the Treasury Department at Washington were: of Currency, $2,868,118; special deposit of legal tenders for the redemption of certificates of deposit, $66,235,000; Coin, $67,706,439; Coin certificates, $16,424,500.

The week's import entries of Foreign Merchandise at New York, were $4,380,193, and included of dry goods $1,619,945.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 24 millions.

Gold has been quite active, and has been advanced sharply under speculative manipulations, which were quite successful in making cash gold scarce, especially to the prejudice of the importing interest. The demand for custom house purposes has been more urgent, but for export very light. The extremes of the week have been 115¼@117¼, closing on Wednesday at 116¾, as against 115¼ on Wednesday of the preceding week. The specie outflow last week was only $118,900 against $453,174 the previous week. The imports of specie at this port since Jan. 1, have been $8,581,000, against $3,511,000 same time last year. The customs demand for Gold last week averaged $451,667. Foreign Exchange has been rendered difficult to market, mainly by the pinch in the Gold speculation; and rates have been much depressed and quite irregular. Bankers' sixty day bills on London closed on Wednesday at $4 79¾@$4 81; sight bills on London at $4 83¾@$4 85 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of only $3,563,349. The week's imports of Dry Goods and general merchandise were to the specie value of $4,380,193 against $6,953,507 same week last year.

Government Securities were quoted higher in view of the rise in Gold, and were in more confident demand on investment account.

U. S sixes of 1881 closed on Wednesday of this week at 123⅜@123¾; U. S. Five-Twenties of 1864, at 118⅞@119; U. S. Five-Twenties of 1865 119¼@119½; U. S. Five-Twenties of 1865, consolidated, 118¾@119; U. S. Five-Twenties of 1867, 120⅞@121; U. S. Five-Twenties of 1868, 121@121¼; U. S. Ten-forties at 117¾@118; U. S. Fives of 1881, (Funding Loan) 117⅞@118⅛; Six per cent. currency Sixes, 123⅜@123¾.

State and Railway bonds have been quoted generally firm, on a moderate inquiry for the more substantial loans, yielding assured income. And in the line of Railway and Miscellaneous share property, business has been fairly active, but prices have been lower, and unusually variable, the market having been rendered peculiarly sensitive by the mischievous reports and rumors of financial and commercial failures, suspensions, &c., most of which reports and rumors were proved on investigation utterly without foundation on fact.

General business has shown a fair degree of animation, but with prices varying frequently, in the leading instances, owing partly to the disturbing influence of the fluctuations in Gold. Domestic Produce has been more active, but at the close generally lower. Foreign merchandise has been more freely dealt in at the ruling figures. Metals have attracting more attention. Eglinton Pig Iron quoted here at $29@$30; Glengarnock, $32@$32 50; Coltness, $32@$33; No. 1 American Pig at $25@$27; No. 2 do. at $23@$25 Forge, $22@$23 50; English Rails at $48@$50, gold; American Rails, at works, $50; Old Rails, $24@$26 00. Wrought Scrap, $31 50@$33 00. Ocean freights have been fairly active, and at the close quoted steadier as to rates. The outward movement in Cotton has been more extensive.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Cleveland, Columbus, Cincinnati and Indianapolis 7s, consol., 98; Rome, Watertown and Ogdensburg 1st mort., 93; Chicago, Rock Island and Pacific 6s, S. F., 100; N. Y. State 7s, B. New Pacific Mail Steamship.

The new steamship City of San Francisco, which is the first completed of the three vessels recently launched from Roache's Ship yard, at Chester, Penn., arrived at this port on the morning of the 11th inst., having been on her trial trip since the morning of the 9th inst., during which she averaged about thirteen knots, though at times she made sixteen. The trip was along the coast in an easterly direction, and during a portion of the time a very heavy wind and sea was experienced. She will leave this week for San Francisco, via straits of Magellan, under the command of Capt. Waddell, one of the most experienced officers in the Company's service. The vessel is built after the usual model adopted for the company's steamers, having three decks, with an additional hurricane and orlop deck. Her length is 353 feet, breadth of beam 40 feet, and depth of hold to the top of spar deck 28 feet 10 inches.

☞ At the recent monthly meeting of the president and directors of the Baltimore City Passenger Railroad Company, authority was given for the construction of open or excursion cars, which will be put in use on the lines next summer.

☞ John P. Brown of Portland, Me., and J. L. Welsh of Philadelphia, Penn., have been elected directors of the Erie Railway Company vice S. L. M. Barlow and Marshall O. Roberts resigned.

☞ The Osage Valley and Southern Kansas Railway, in Missouri, was sold out under foreclosure, at St. Louis, on the 14th inst., and bought by John H. Tracey, of that city, for $50,000.

Loss of Metal in Iron and Steel Rails.

A committee of the American Society of Civil Engineers—of which Mr. Ashbel Welch is chairman—appointed to consider and report upon various subjects connected with the manufacture and use of iron and steel rails, has expressed the following opinion:

The chairman of the committee was so much surprised to find so little difference in the loss of metal in iron and steel rails, that since the former report was presented, he made further examinations of 28 steel rails rolled by John Brown & Co., and 7 iron rails rolled by the Bethlehem Iron Company. The steel had been laid from four to seven years, the iron from four to six years, all on the main line between New York and Philadelphia. To all appearance both steel and iron were as good as when first laid, except where the loss of metal was perceptible. The loss of metal per annum in the steel was from a few hundredths up to 0.59 pounds per yard, averaging 0.29 pounds, and in the iron it varied from 0.15 to 0.6 pounds per yard, averaging 0.325 pounds. In the examinations mentioned in the former report the averages were: steel, 0.3, iron 0.38 pounds per yard. This shows that if iron was perfectly welded and as hard in the middle of the head as on the top, and never loaded so as to crush or condense the metal (say not over 25,000 pounds per square inch) it would wear nearly as long as steel. The advantage steel has is that it has no weld, is probably nearly as hard in the interior as on the surface of the metal, and that it will sustain without alteration or condensation a weight per square inch which would gradually condense and finally destroy the iron.

☞ We learn from the Atchison Champion that there is a prospect of the speedy completion of the Midland Pacific Railway from Brownsville, Neb., to Salem on the Atchison and Nebraska Railroad. The completed portion runs from Nebrasha city to Brownsville; from thence to Salem is about 25 miles.

☞ The first regular through train over the Atchison, Topeka and Santa Fe Railroad to Los Animos, Colorado, left Kansas City on the 30th ult. Kansas City has been made the eastern terminus of the road, and hereafter all passengers will be transferred at that place.

☞ Work has been commenced on the grading of the Chicago and Paducah branch line, which is to extend from Shumway, Illinois, southward to the Vandalia Line at Effingham, a distance of about seven miles. The object being to secure a direct eastern connection over the Vandalia Line.

☞ The Corpus Christi, San Diego and Rio Grande Railway Co. has been permanently organized by the election of the following officers: U. Lott President, Wm. L. Rogers Vice President, J. B. Mitchell, Secretary, and G. F. Evans Treasurer.

☞ The track on the Knoxville Extension of the Chicago, Burlington and Quincy Railroad was laid to Cedar River on the 7th inst. Knoxville will be reached about the 1st of October.

☞ The survey of the Springfield, Jackson and Pomeroy Railroad route from Springfield to Jackson, Ohio, has been completed.

☞ The Utah Western Railroad is completed to Oltar, Utah, a town near the Emma, Flagstaff, and other prominent mines.

☞ The Nevada and Northern Telegraph Company completed their line from Boise City, Idaho, to Silver City on the 4th inst.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

☞ The final survey for the Lehigh and Eastern Railroad, which is to extend from Hazleton, Pa., to a connection with the Erie Railway one mile east of Port Jervis, has just been completed. The proposed road will cross the Pocono Mountain west of Stroudsburg, Pa., thence pass up the Delaware Valley on the Pennsylvania side to Carpenter's Point, near where the connection is to be made. The road will be ninety eight and a half miles in length, and is intended chiefly for coal transportation. The work of grading will be begun at once.

☞ The Doylestown (Penn.) Democrat says that work on the Delaware and Bound Brook Railroad is progressing rapidly. The work of laying the track will probably be commenced about December 1st, and the road may be expected to be in operation for through travel, between New York and Philadelphia, by March 1st, 1876.

☞ The Nebraska Central Narrow Gauge Railroad company, incorporated on the 21st ult., propose to run directly westward through Douglass, Saunders, Butler and Polk counties, starting from Omaha. The incorporators are among the strongest men and capitalists.

☞ The formal opening of the Portland and Ogdensburg Railroad to the Connecticut River took place on the 14th inst. On the completion of the bridge across the Connecticut a through connection will be made with Portland and Boston.

☞ The officers of the Texas and New Orleans Railroad company, recently elected, are: President, John T. Terry, New York; Vice President and General Manager, J. F. Crosby, Houston, Texas; Treasurer, T. W. House, Houston, Texas.

☞ The coupon due January, 1863, on the preferred Construction Bonds of the Chesapeake and Ohio Canal Company, will be paid at the banking house of Alexander Brown & Sons, Baltimore, on and after the 22d inst.

☞ The track of the Elizabethtown, Lexington and Big Sandy Railroad in Fayette county, Ky., was sold on the 13th inst. to Gen. Leslie Coombs for five dollars.

☞ Col. George Dale, of Paris, has been appointed Receiver of the Illinois Midland Railroad Company.

Copper Falls Mining Co.

At the annual meeting of the stockholders of this company, held in Boston on the 8th inst., the Secretary, Oliver B. Cook, submitted the following report:

Supplies at the mine, as per inventory	$57,840 25
Less 10 per cent	5,734 02
	$51,606 23
223,802 lbs copper at 20 cents	44,760 40
Accounts receivable at the mine	685 13
Cash in bank	1,964 75
Cash at mine	28 66
	$99,045 17
Liabilities at mine	$18,966 38
Drafts in transitu	17,608 51
Loans	17,272 09
Balance of assets	50,198 19
	$99,045 17

The report of B. F. Emerson, agent at the mine, represents the total amount of sinking, drilling and stopping for the eighteen months ending July 1, as amounting to 1102 feet 6 inches of sinking, 3222 feet of drilling, and 3592.87 tons. Nevens' shaft was started in 1874, and will be the next working shaft north. The equipment of the mine is in good condition, all the machinery in good working order and performing satisfactory duty.

The number of Directors was reduced from seven to five, and the following gentlemen were elected: David Nevins, Jr., V. H. Blackinton, James P. Brewer, Oliver B. Cook, B. F. Emerson, Michigan.

Keokuk and Des Moines Valley Railroad.

This company was organized by the holders of the first mortgage bonds of the old Des Moines Valley Railroad Company, who bought at the foreclosure sale that part of the road covered by their bonds. The line owned and worked by the company is 161 miles in length, extending from Keokuk to Des Moines, Iowa. The equipment consists of 18 locomotives, 10 passenger, 1 smoking, 4 baggage and express, 10 way, 203 box, 103 stock, 38 flat, 70 coal, 1 lime, 4 boarding, 1 tool, 1 sawing machine, 1 pile driver, 42 hand and 12 rail cars. The work done was as follows: passenger train mileage, 191,680; passengers carried, 146,689; passenger mileage, 5,590,050; freight train mileage, 228,722; tons freight moved, 222,346; tonnage mileage, 17,048,127. The principal items of freight were grain, cattle, coal and lumber.

The earnings of the road during the first fiscal year of the new company, ending March 31, 1875, in comparison with those of the preceding year, were as follows:

	1874.	1875.
From passengers	$152,843 19	$193,143 72
" freight	452,510 47	512,759 14
" other sources	45,960 11	51,478 74
	$651,313 77	$757,381 60
Expenses and taxes		474,513 51
Net earnings		$282,868 09

The increase in gross earnings in 1875 over the preceding year amounted to $106,067 83, or 16.3 per cent. The gross earnings per mile in 1875 were $4,704 23 against $4,045 43 in 1874, an increase of $658 80, or 16.3 per cent. The net earnings per mile in 1875 were $1,757 07. Per cent of expenses, 62.65.

The net earnings were sufficient to pay the interest on the outstanding bonded debt ($2,201,800) and leave a balance of $126,284 07, equal to 8.28 per cent on the preferred stock. The road is in good condition, except the 11 miles which is to be replaced by the new line. Many culverts need replacing, and truss bridge must be rebuilt. Since the present company took the road, 52¼ miles of it have been laid with new and 6¼ miles with repaired rails. The old rails have been in use, many of them, for eight or ten years. Very nearly all the sidings, of which there are 17.76 miles, have been relaid with repaired rails. Of new fence 38 miles have been built. Several new depots have been built; others need repairs. The machine shops also need repairs. The new line from Buena Vista to Sand Prairie, 11 miles, will, it is believed, fully repay its cost in the diminished expense of working, owing to the lowering of the grades. It is to be finished this fall, and will cost about $80,000 exclusive of the rails. Contracts have been made for 2,000 tons of rails and 50,000 ties to be used during the current year.

The capital account is as follows:

Preferred stock	$1,524,600 00
Common stock	2,400,000 00
Total stock ($24,376 per mile)	$3,924,600 00
First mortgage bonds, 7 per cent	$2,300,000 00
Funded interest bonds, 8 per cent	254,300 00
Funded interest, scrip, convertible	4,420 00
Total funded debt ($15,893 per m.)	$2,558,720 00
Bills payable, current accounts and credit balance of income account	204,154 96
Total ($47,537 per mile)	$6,687,474 96

The company holds $353,000 of its first mortgage bonds. There was expended for permanent improvements $473,646 65, the means being derived from net earnings, from the sale of $99,000 first mortgage bonds and from bills payable.

☞ The Atchison (Neb.) Champion says that the Kansas portion of the St. Joseph and Denver City Railroad will be offered for sale at Maysville, Kansas, on the 4th of November next; the Nebraska portion on the 25th inst.

☞ The Norwich (Conn.) Horse Railroad has been sold to George O. Barstow, of Boston, for $10,500.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

LACHINE

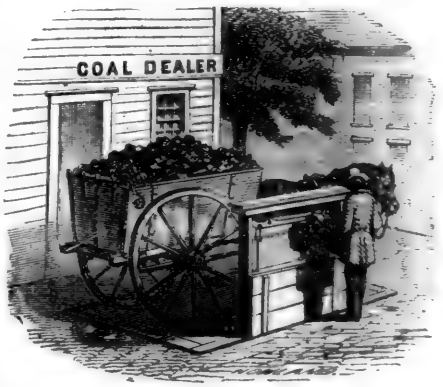
CANAL ENLARGEMENT.

NOTICE TO CONTRACTORS.

The letting of the works for the enlargement of the Lachine Canal, advertised to take place on the SIXTEENTH day of SEPTEMBER next, is unavoidably postponed to the following dates:—

Tenders will be received until WEDNESDAY the 29th day of SEPTEMBER next.

The plans and specifications will be ready for examination (at the places previously mentioned) on Thursday the Sixteenth day of September next.



By Order,

F. BRAUN,

Department of Public Works, Ottawa, 18th August, 1875. Secretary.

ST. JOHNSBURY, VT.

For sale by leading Hardware Dealers.

The Coal Trade.

The anthracite coal production continues steadily to increase and is now very heavy. The tonnage for the week ending on the 4th instant was some thirty thousand tons in excess of that of the week ending on the 28th ultimo, and about one hundred and thirty eight thousand tons in excess of the tonnage in corresponding week last year. By last report the tonnage for the week ending on the 4th instant was 590,366 tons, and for the year 12,340,665 tons, against 13,086,228 tons to same time last year, a decrease of 745,563 tons, thus narrowing the decreased production this year by reason of the five months' suspension to less than three quarters of a million of tons, thus showing the wonderful productive as well as carrying capacity of the anthracite trade. The bituminous tonnage for the week was 84,578 tons, and for the year 2,454,534 tons, making a total of all kinds for the week of 671,944, and for the year of 14,759,199 tons, against 15,499,056 tons to the same time last year, a decrease of 703,857 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 105,377 tons, and for the year 2,702,185 tons, of which 2,187,530 was coal and 427,463 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 11th instant there were receipts of 85,000 tons of coal, shipments of 40,000 tons, leaving 135,000 tons on hand. We continue to quote freight charges to New York at 85 cents, to Providence at $1 35 and to Boston at $1 60 per ton. The advance in the price of coal for September is some fifteen cents per ton higher than in August. What it may be in October is not now known, but the public is assured that there will be some advance. The movement in coal at Perth Amboy, N. J., for the week ending September 4 were—receipts, 15,795 tons; total to that date, 114,936 tons; shipments for the week, 14,129 tons; total shipments to date, 101,113 tons; coal on hand, 14,892 tons.—*Phila. Ledger.*

The Hoosac Tunnel.

The enlargement of the little tunnel, to meet the requirements of the increased travel, was begun March 1, and it is hoped to finish the work in two months more. The objects of the undertaking are to lower the grade eight feet, to widen the roadway so as to accommodate two tracks, and to alter the direction in order to lessen the sharp curves of the road at both approaches. The new tracks will curve slightly through the tunnel, and the curves at the entrances will be reduced. The new width at the level of the tracks will be twenty four feet, an increase of ten feet. The length of the tunnel is 370 feet. B. N. Farren took the contract for the whole job and sublet the work of deepening, which requires an excavation of ten feet, to Michael Ryan of New York. Mr. Ryan is now setting an eight horse power steam engine, and will begin running it for hoisting and for the steam drill next week. Mica powder is used in the sides and roof, and glycerine in the bottom The debris is taken seven or eight miles down the road and used for rip-rapping. The rock is mica slate and needs no arching.

The Governor and Council are about closing another contract with B. N. Farren to continue the work on the big tunnel under the appropriations of the last Legislature. The old and new contracts together amount to about $600,000. The work is progressing at the rate of about 275 feet a month, and consists of enlarging, both in width and hight, and arching with brick where the stone is soft and liable to fall. Mr. Farren found the bore twenty four feet wide and twenty feet high, and leaves it thirty feet wide and twenty three high. The work will probably be done in about a year from now, it being expected that the new appropriation will finish it up.—*Boston Journal.*

☞ The officers of the North Beach and Mission (Cal.) Railroad, recently elected, are: J. C. Wilmerding, President; J. T. Boyd, Jerome Lincoln, Treasurer; M. Reese, M. Skelly, Superintendent; T. L. Barker, A. W. Bowman and Calvin Paige, Directors; H. W. Hathorne, Secretary.

Rockford, Rock Island and St. Louis R. R.

The Chicago Railway Review says that the Chicago, Rock Island and Pacific and the Chicago and Northwestern Railroad Companies have terminated the favorable rates heretofore give the Rockford, Rock Island and St. Louis Railroad Company on freight for Chicago, and now charge full rates, and then adds—

This is understood to be the result of the course pursued by Mr. Otterberg, agent of the German bondholders, in attacking those roads, and charging, in an interview procured by him and published in the New York papers, that the Rockford road had been run in the interest of the former roads. So it seems that the German bondholders' elephant has grown considerably in size under their ownership, already. The best thing they can do is to get rid of it as soon as possible.

☞ The Omaha and Northwestern Railroad will be extended to Tekana this year.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or o her purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

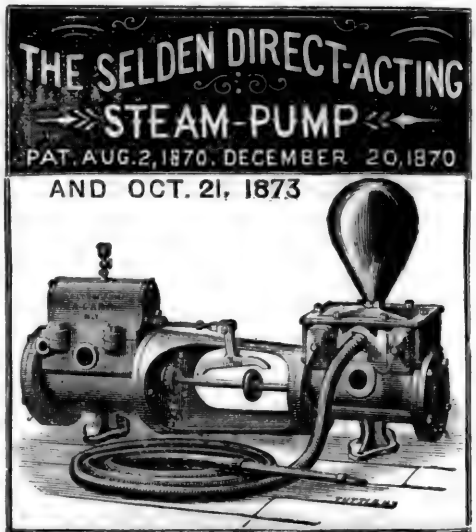
For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average **300 lbs.** Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.



This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of C ment.

All orders will receive prompt attention.

New Bessemer Steel Works.

The J. Edgar Thomson Steel Works, located at Braddock Fields, Alleghany Co., Penn., were formally opened on the 4th inst. These works are among the largest in the country, having an annual producing capacity of 400,000 tons, representing a cash value of nearly $3,000,000. The power of production in the new establishment is remarkable. Where, by the common style, hand puddling, five days are consumed in making five tons of steel at a single furnace, in the J. Edgar Thomson works five tons are made in thirty minutes. The quality of the product, however, is not fine. The Bessemer steel will not take an edge, cannot be utilized for the finer articles of hardware, and is principally employed for railroad tracks. The machinery requisite for the works cost about $1,000,000, and was supplied by the following parties: the boilers were built by the Pittsburgh Locomotive Works; McIntosh & Hemphill, of Pittsburgh, built the two large blowing engines; the Keystone Bridge Co. put in one train of rolls and Jas. Moore & Co., of Philadelphia, the other; H. R. Worthington, of N. Y., supplied the six double pumps and the cupola blowing engine, and H. G. Morris, of Phila., built the three smaller engines; Messrs. Fairbanks, Morse, & Co. have put in two 20-ton ladle scales, one 50-ton iron frame track scale, one 20 ton track scale, and two largest size furnace stock charging scales.

☞ The Chester Edge Tool Works, which have been idle for the past eight months, have resumed business under the management of Henry B. Black, of Morton, Black & Bros., who has purchased the property. Mr. John C. Beatty will superintend the manufacture of tools. He is the son of Wm. Beatty, the manufacturer of Beatty's axes, which were first made in Delaware county in 1863, and who was the first edge tool maker from cast steel in the United States.

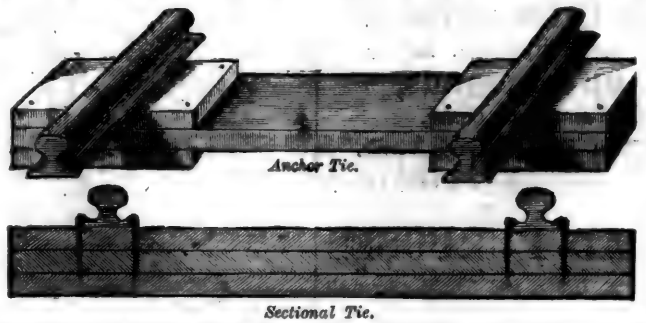
☞ Notwithstanding the frequent reports of the discovery of new coal mines on the Pacific coast, importations of coal to that section from the East are on the increase—the amount imported this year having been 293,600 tons, against 235,800 tons during the same period in 1874.

☞ The boilers for the new Bessemer steel works, St. Louis, twenty seven in number, are now being delivered at the works. They are 24 inches in diameter, 28 feet long, and can be adapted to the use of waste coal or gases.

☞ The Cleveland Rolling Mill Company are carrying out their intention of making steel boiler plate by having erected two Martin-Sieman furnaces, of seven tons capacity each.

☞ The plate mills of the Abbott Iron Company of Baltimore are in operation, and it is stated that the rail mills will shortly resume.

☞ The Harrisburg Steel Works recently shipped twenty five car loads of steel rails to the Central Railroad of New Jersey.



RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.

PERKINS, LIVINGSTON, POST & Co.,
59 Liberty Street,
NEW YORK.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

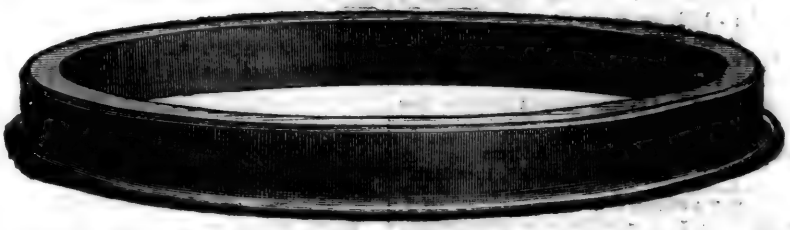
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

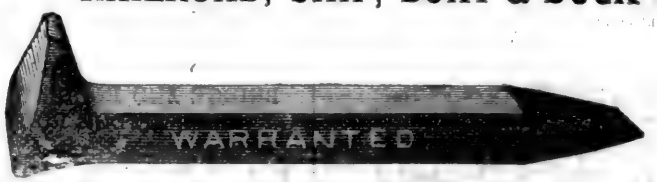


Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.



CAMMELL'S CAST STEEL.

Union Pacific Railroad.

STATE TAXATION OF PUBLIC LANDS—SURVEY—PATENTS—EXEMPTIONS.—DECISION OF THE U.S. SUPREME COURT.

The Union Pacific Railroad Company, appellant, vs. Edward C. McShane, treasurer, &c., et al.; Edward C. McShane, treasurer, cross appeal, vs. The Union Pacific Railroad Company—Appeal from the Circuit Court for the District of Nebraska.

These are cross appeals from a decree of the Circuit Court for the District of Nebraska in a suit in equity brought by the railroad company to enjoin the defendants, who were treasurers of counties in the State of Nebraska, from the collection of taxes assessed on the lands of the company. The bill alleges that in the year 1872 the assessors of the several counties where the lands are situated, which lands are described in lists filed as exhibits with the said bill, assessed said lands, and the boards of commissioners of said counties levied taxes for State, school and local municipal purposes upon them, and that the treasurers, who are made defendants, were about to proceed to the collection of those taxes by seizing and selling the locomotives, cars and rolling stock generally of the company, with other personal property. They say that the lands were not liable to any State taxation at the time of the assessment or levy, and they pray that these treasurers who are made defendants may be enjoined from further proceedings for their collection. The grounds on which this exemption is claimed may be divided into three distinct propositions, some of which are applicable to all the lands and others to only part of them:—

1. That by the third section of the act of 1862, under which the company was organized, and by which the lands within the ten mile limit were granted in aid of the construction of the road, it was provided that all such lands as should not be sold within three years after the entire road shall have been completed shall be subject to settlement and pre-emption like other lands at a price not to exceed $1 25 per acre, to be paid to the company, and it is alleged that these lands are liable to this pre-emption, which would be defeated by a sale of them for the taxes.

2. That by the amendatory act of 1864, which extends the grant to twenty miles on each side of the road, it is provided that before any of the land granted shall be conveyed to the company there shall first be paid into the Treasury of the United States the cost of surveying selecting and conveying the same, by said company, and that, these costs not having been paid, a sale for taxes would defeat the right of the United States to enforce this claim and recover their expenses out of the lands.

3. That under the joint resolution of April 10, 1869, authorizing the President to appoint a commission to inquire into the manner in which the road has been constructed, and, if the report was unfavorable, to take steps to secure its proper construction, the Secretary had refused to issue patents for these lands, withholding the title as security for the performance of what was required in that respect.

By the decision of the Court on these points the decision in the railway company vs. Prescott (16 Wall, 608) is modified and overruled so far as it asserts the contingent right of pre-emption in lands granted to the Pacific Railroad Company to constitute an exemption of those lands from State taxation, but affirmed so far as it holds that lands on which the cost of survey have not been paid, and for which the United States have not issued a patent to the company are exempt from State taxation, but where the government has issued the patent the lands are taxable, whether payment of those ex-costs has been made to the United States or not. Reversed.

Mr. Justice Miller delivered the opinion.

California Pacific Railroad.

The proceedings taken by the German bondholders of the California Pacific Railroad Company in the United States Courts to force that company into bankruptcy in consequence of the non payment of interests accruing on bonds, came to conclusion Monday morning in the United States Circuit Court. It will be remembered that District Judge Hoffman decided in favor of the bondholders. The case was taken up to the Circuit Court on motion to review the decision in the lower Court. Counsel argued the case over a week, and matters were taken under advisement. Monday morning it was announced that an amicable settlement had been arrived at out of Court, and that therefore all litigation between the parties was at an end.

This verifies the statement made by us some time ago, that such a compromise had been informally agreed upon by the agents for the conflicting parties. We also stated at that time that one of the results of the compromise would be the building of the Colusa extension and diversion of the overland travel through Vallejo. As to the first, eight miles of the extension have been completed, and work upon the road is being pushed forward vigorously. The terms of the compromise have been settled by the Central Pacific and the agents of the bondholders, and only await a formal ratification by the latter to become binding. The ratification under the circumstances is a formality. By the agreements entered into, the bondholders surrender the $3,000,000 of extension bonds, and are issued $2,000,000 of new bonds, guaranteed by the Central Pacific, payable in thirty years at six per cent. The result as affecting the public, will be that the California Pacific will come more completely under the ownership of the Central people, with the prospect that it will at last be run in its own interest instead of as a tender to the Central Pacific. This result will prove a beneficial one to the people of Vallejo and all having business with the California Pacific. We are satisfied it would have been much better if the bondholders should have obtained the ownership and management of the road; but as that

is not to be, the more complete the ownership by the Central Pacific the better. Self interest will at least direct them to put the road in efficient order and build up its business.—*Vallejo Chronicle, Sept. 7th.*

North Eastern (S. C.) Railroad.

The earnings of this road for the years ending February 28, 1874 and 1875, were as follows :

	1874.	1875.
From passengers	$116,624 01	$107,335 54
" freight	270,516 39	292,348 76
" express, etc.	2,997 11	4,271 80
" mails	13,713 66	12,999 96
	$403,851 17	$416,956 06
Expenses, viz :		
Maintenance of road	$107,316 35	$88,068 29
Motive power	53,611 08	49,836 62
Repairs of cars	22,208 01	22 438 20
Transportation	62,203 06	70,377 65
Salaries & general exp.	13,296 90	10,793 70
	$258,635 40	$241,514 46
Net earnings	$145,215 77	$175,441 60

Compared with the previous year, the gross earnings of 1875 show an increase of $13,104 89, with a decrease in expenses of $17,120 94, making an increase in the net earnings of $30,225 83. The ratio of expenses to receipts is 57.93 per cent. The president in his report says :

From the accompanying tabular statements, it will be seen that we have transported this season, 77,836 bales cotton, and 115 299 barrels naval stores; as against 56,976 bales, and 108,718 barrels, the previous season.

Our increased revenue has been due, mainly, to our close connections with the roads beyond us ; by means of which, we have been enabled to compete successfully, with other routes, for business heretofore beyond our reach. This improvement may at first appear inconsiderable, in view of the extent of our operations ; but it should be borne in mind, that it has been reached through a severe competition, involving low tariffs and increased volumes of freight, and, when taken in connection with the fact, that nearly all the more important roads in the South have, during the past year, experienced considerable reductions in their receipts, it is especially gratifying, that ours, should have been among the exceptional cases.

The reduction in our operating expenses, above alluded to, has not been effected, by any avoidance of such expenditures, as were deemed essential to the maintenance of the road, and its machinery, in the same generally good condition, as was reported at the close of the previous fiscal year. All the bridges and trestles of the road have been placed in thorough repair—the wood work of the bridge across the Santee River has been so far renewed, that the whole of this important structure may be considered as having been rebuilt—an unusual amount of labor has been expended upon the widening of cuts and embankments, and ditching where most required —the necessary crossties and timber have been supplied, and such rails, with improved fastenings, as were needed, to keep the track in a safe condition.

The continuously wet weather of the past three months, and the difficulty of obtaining proper drainage upon the lower sections of the road, have, temporarily, disturbed their smoothness ; but, under more favorable circumstances, this will soon be restored.

Our rolling stock consists of 14 locomotives, all in running order ; many of them, however, are of an advanced age and of light capacity, necessarily requiring constant attention and a larger expenditure to keep them in a serviceable condition, than if of later, and of the most improved construction—hence, it may be necessary for us to add to their number during the ensuing year, that we may keep pace with the demands upon us for increased motive power.

We have 14 first and second class cars, (to which a remark similar to the above may apply,) 5 mail and baggage cars, 87 box, and 54 platform cars. The importance and necessity of our enlarging the stock of the latter will, at once appear upon the statement, that during the past year, we have paid to other roads, the sum of $6,917 61, for the use of their cars. Any expenditures which will remove this recourse to foreign aid, would be judicious, and, as an economical measure, should be made—as our means will permit.

The new issue of our First and Second Mortgage bonds are, respectively, for $840,000 and $322,000. There are still outstanding and awaiting redemption, 3,500 of the old Second Mortgage bonds—to redeem which, when presented, we have on hand a corresponding amount in new bonds. Having placed the former among our obligations, the latter are, necessarily, included among our assets. With reference to the Preferred Stock, it is proper to repeat to you, that, when issued, it was resolved to secure it by a corresponding amount of Second Mortgage bonds to be lodged in the hands of Trustees ; hence, it is not a distinct liability, but rather a substitute for, or representative of, an equal amount of Second Mortgage bonds. As both bear the same rate of interest, the conversion of one into the other has been consented to, at the option of their respective holders—some parties desiring the Preferred Stock, because of its being registered, and transferable only on the company's books ; while others prefer the bonds, for the greater convenience which they afford in the collection of interest, facilities of transfer, etc. The amount of either may thus be varied, but the aggregate of both will always be represented by the sum of $322,000.

On the 1st January, 1875, the company's Certificates of Indebtedness, then amounting to $109,028 23, (but since reduced to $102,753 11) became due, and being without the means for their retirement, the board determined to ask of the holders an extension of the period for their payment, under the following resolutions :

" Resolved, That, whereas this company is unable to meet its Certificates of Indebtedness, amounting to $109,000, payable on 1st January, 1875, because of its having, recently, been declared, by the Supreme Court of the United States, amenable to State and City taxation, since the year 1868, together with other reverses, such as the destruction of its depot and offices, by a violent tornado—involving an appropriation of their resources, nearly equal to the retirement of the said certificates—we are now constrained, to ask of their holders, an extension of the period for their payment, and to propose their renewal—payable on the 1 t January, 1885—bearing an annual interest of eight per cent—(instead of seven per cent, as heretofore), with a further agreement on the part of the company to pay, annually, ten per cent of the principal of each certificate, on the first day of January, of each successive year. And in default of such payments, of either principal or interest, the said certificates shall be considered as having matured, and subject to collection, in full, from the date of such default.

" Resolved, That the president be, and is, hereby, authorized to make the above offer to the holders of the matured certificates, as the only one, it is within the power and resources of the company to submit, and, respectfully, to ask their acceptance of the same.

The amount thus extended, up to this date, has been $58,850.

It affords us a pleasure to state, that the several suits which have been pending against the company for damages, resulting from the destruction of its depot, in 1873, have, within the past few days, been disposed of by decisions in our favor.

The statement of the treasurer shows that the amount at debit of profit and loss February 28, 1874, was $10,574 03; and since added, $3,508 59, making a total of $14,077 62 ; to which add interest on bonds and other obligations of the company, $96,812 39; current interest, $11,675 27 ; State and City taxes for 1873 and 1874, $31,240 24—making a total of $153,305 52 ; which deducted from net earnings as above, leaves a balance at credit of profit and loss February 28, 1875, of $21,636 08.

The indebtedness of the company, as given in the annexed statement of the treasurer, amounts to $2,223,144 75 ; to meet which the company have the road, 102 miles long, with its sidings, equipments, etc., at a cost of $2,148,130 65, and assets amounting to $96,650 18—making a total of $2,244,780 83 ; leaving the balance of $21,636 08 as stated above, at credit of profit and loss.

The total number of miles run by locomotives was 297,181, at an average cost per mile run for repairs, fuel, stores, etc., of 16.35 cents. Number of passengers carried, 61,351.

Balance Sheet, February 28, 1875.

Construction, equipment, right of way, etc		$2,148,130 65
Investment in 88 second lien and 23 first lien eight per cent bonds of the Northeastern R. R. Co.		49,721 54
7 second lien eight per cent bonds on hand for the redemption of the same number of old 7 per cent bonds, still outstanding		8,500 00
Cash		5,884 03

Balance to credit of profit and loss February 28, 1875		21,636 08
		$2,244,780 83

President.—A. F. Ravenel.
Treasurer.—C. Williman.

☞ Col. Thomas A. Scott and Mr. Matthew Baird give notice to all parties holding the notes of the California and Texas Railway Construction Company with their joint endorsement that they are ready to pay the same at par, principal and interest to date of presentation, less rebate of interest until maturity and return of collateral belonging thereto. The notes alluded to mature at various dates up to April 13, 1876.

The Coal Trade.

The production for the week ending on the 11th inst., is stated by the Philadelphia *Ledger* at 582,865 tons, and for the year 12,923,020 tons, against 13,576,568 tons to same last year, a decrease of 653,548 tons. The bituminous tonnage for the week was 77,637 tons, and for the year 2,532,180 tons, making a total of all kinds for the week of 660,002 and for the year of 15,455,200 tons, against 16,080,409 tons to the same time last year, a decrease of 1,175,209 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 137,598 tons, and for the year 2,839,783 tons, of which 2,30',530 was coal and 450,826 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 18th instant there were receipts of 75,000 tons of coal, shipments of 65,000 tons, leaving 145,000 tons on hand. The movement in coal at Perth Amboy, N. J., for the week ending September 11 were—receipts, 15,163 tons; total to that date, 130,099 tons; shipments for the week, 18,431 tons; total shipments to date, 114,544 tons; coal on hand, 17,049 tons. The *Ledger* adds:

The anthracite coal production continues very full, and the orders for coal come in slowly, principally because the iron furnaces, those great consumers of coal, lack orders for iron, and while this condition of affairs continues the price of coal has little influence on the coal trade. Should the monthly advances in prices of coal be at once stopped there is little reason to believe that coal orders would be materially if at all increased. The two last weekly reports of the Reading Railroad Company show a very heavy increase of coal on hand. This largely increased stock is partly in consequence of a scarcity of vessels, and vessels here are scarce because coal freights are so very low that vessels will not come here to carry coal if they can find employment elsewhere with other freight.

West Jersey Railroad.

The following is a comparative statement of the current receipts and disbursements of this company for the years ending December 31, 1873 and 1874:

Receipts:	1873.	1874.
From passengers	$427,969 66	$400,347 53
" freight	215,415 71	186,321 89
" express	25,846 19	24,070 04
" mails	10,765 00	11,241 00
" telegraph	1,018 63	1,053 96
" rents	441 04	857 04
	$680,856 23	$628,891 46
Disbursements:		
Operating road	$405,129 43	$437,691 39
Leases	86,194 31	85,990 51
Interest	129,883 22	133,191 98
Taxes	10,813 91	.....
Sea Breeze House	1,111 53	1,487 01
	$583,132 40	$608,860 89
Net earnings	$97,723 83	$15,030 57
Add balance of previous years		85,131 55
Total		$100,162 12
Dividend No. 17, at four per cent		$54,390 00
Balance of undivided earnings January 1, 1875		45,772 12
Total, as above		$100,162 12

Compared with the previous year, the receipts of 1874 show a decrease of $57,464 77, with an increase in expenses of $25,228 49, making the decrease of profits, $82,693 26. The cost of operating the road in 1874 was 70.21 per cent of gross earnings. The superintendent in his report says:

The company's business for the year shows a decrease of $57,464 77. The decrease in passenger receipts is almost entirely in our Cape May business, and that of the freight has been in manufactured articles and in the raw material required by manufacturers. In both cases the falling off is attributable to the general depression in business. During the year we have had in service four locomotives burning coal, which have demonstrated that for a large number of our trains the use of coal for fuel will be a saving of twenty five per cent as compared with wood. Owing to our having a large supply of wood on hand, the balance of our locomotives cannot be changed immediately, but this change will be made as fast as we can reduce our supply of fuel by consumption or sale. We had on hand January 1st, 1874, at our stations, paid for, 1679 cords of wood. We had on January 1st of this year, 5288 cords, being 3609 cords more on hand and paid for than last year. The expenses of operating road show an increase of $21,748 05. This is due to about $25,000 of last year's indebtedness being charged in this year. Our track has not alone been kept up, but is in better condition than it has been at this time of the year for several years. I feel confident now that our expenses for 1875 will not exceed those of the years previous to 1874.

The cost of renewing rails in 1874 was $45,503 77, against $32,288 01 in 1873—an increase of $13,215 76. The engineer in his report says:

During the year 1874 there were purchased and laid three hundred and fifty tons of rail more than in the previous year, which accounts for the increased cost of "renewing rails." We have on hand, to the credit of "rail account," some two hundred tons of old rails, which, owing to the depressed condition of the iron market, we have not yet disposed of.

We have substituted steel for iron switch rails where they have needed renewal, and a patent iron switch stand, with revolving signal, for the old wooden switch posts. This combination makes a very smooth and convenient switch, and is safe and durable.

All new rails during the year were laid to a gauge of four feet and nine inches, and much of the remainder of the track has been changed, though there still remains some to be altered during the present year. With the rails to be laid this spring our track between Camden and Glassboro, with the exception of two and one quarter miles of heavy iron rail in good condition, will be entirely of steel.

Our steel rails are proving of excellent quality, and after a service of four years show no perceptible signs of wear.

The company had at the close of the year 19 locomotives, 47 passenger, 6 mail, 60 platform, 31 box, 2 stock, 110 four-wheel and 21 eight-wheel dump, 26 lever hand, 17 push and 3 baggage cars. Miles run by engines with passenger trains, 274,766; with freight trains, 93,667; other trains, 16,402—total, 384,835. Mileage of West Jersey engines on foreign roads, 3,372. Mileage of foreign engines on West Jersey Railroad, 186. Av. cost per mile run for repairs, fuel, wages, etc., 25.02 cents.

Number of passengers carried, 691,208; do, carried one mile, 17,537,005. Av. number of miles traveled per passenger, 25.37. Total net receipts from passengers, $400,347 53. Av. receipts per passenger, 57.91 cents; do. per passenger per mile, 2.28 cents. Cost per passenger, 42.61 cents. Cost per passenger per mile, 1.67 cents.

Number of tons of freight carried, 113,442; do. carried one mile, 3,643,544; av. distance each ton was carried, 32.11 miles. Total net receipts, $176,491 59. Av. receipts per ton, $1 55.57; do. per ton per mile, 4.84 cents. Av. cost per ton, $1 18. Av. cost per ton per mile, 3.67 cents. Proportion of current expenditures chargeable to passenger transportation, $294,572 79; do. freight, $134,002 47.

Number of miles of road operated, 128.16, viz: West Jersey, 59.48; Cape May and Millville, 41.35; Salem, 16.58; Swedesboro, 10.80. Miles of turnouts, 14.56. Total, 142.72.

General Balance Sheet, Dec. 31, 1874.

Directors.—Thomas Jones Yorke, Samuel A. Whitney, Albert W. Markley, Charles E. Elmer, Coleman F. Leaming, Lewis Mulford, John M. Moore, Strickland Kneass, Josiah Bacon, George B. Roberts, Samuel M. Felton, George Wood, Thomas H. Dudley.

Secretary & Treasurer.—George J. Robbins.

Superintendent.—William J. Sewell.

Engineer.—William N. Barnard.

☞ The Walla Walla and Columbia River Railroad has been in operation for some months between Wallula and Frenchtown. Speaking of this road the Walla Walla Spirit of the West, of recent date, says: "The ties are being placed and the stringers put in condition for the reception of the iron from Frenchtown to Mill Creek, so that when the iron arrives the laying of the track can be done very expeditiously. Ten days after the arrival of the iron at Wallula the track will be laid to Mill creek, some five miles from this city, and in sixty days will be completed to Walla Walla."

☞ The Port Dover and Lake Huron Railway has been completed to Norwich. On the remainder of the line all the iron is delivered, the grading is nearly finished, and the rails are being laid down both from Norwich and Stratford. It is expected that the road will be completed early in November.

☞ The new line of the Keokuk and Des Moine Railroad, extending from Buena Vista to Sand Prairie, 11 miles in length, is being rapidly pushed, and will be completed this fall.

Commercial Relations of the United States with Foreign Countries.

The following is a copy of the letter from the Secretary of State to the Speaker of the House of Representatives, transmitting a report upon the commercial relations of the United States with foreign countries for the year ending September 30, 1874:

DEPARTMENT OF STATE, WASHINGTON, Jan. 27, 1875.

SIR—In compliance with section 208 of the Revised Statutes of the United States, I have the honor to submit a report upon the commercial relations of the United States with foreign countries for the year ending September 30, 1874:

AUSTRIA HUNGARY.

To begin with the Austro-Hungarian Empire. According to recent advices that country does not appear to have recovered from the financial panic to which I had occasion to refer in my last commercial report. The value of the imports into the Empire is reported as having amounted, during the year 1873, to 570,623,963 florins, this amount being a decrease of 42,809,790 florins from the imports of 1872. On the other hand, the exports for 1873 amounted to 424,123,015 florins, or 39,516,226 florins in excess of the exports of the preceding year.

BELGIUM.

The returns of the commerce of Belgium state the aggregate value of the imports and exports of that kingdom for the year 1873 as 4,589,700f. By comparing this amount with the commerce of previous years it appears that the trade of Belgium has considerably more than doubled during the decade ending with the above mentioned year. The imports from the United States for 1873 were valued at 135,000f., being an increase of sixty eight per cent over the imports of 1872. The exports to the United States amounted to 16,300,000f., or thirteen per cent more than those of the previous year.

DENMARK.

The accompanying statements relating to the commerce and navigation of Denmark, translated from tables in the official report of the Danish Bureau of Statistics, give the value of the imports into that kingdom during the fiscal year 1873 4 as 115,364,448 rix dollars, and the exports for the same period as 85,525,515 rix dollars. The trade with the United States appears to be inconsiderable. The returns of vessels engaged in the foreign trade show that 21,278 vessels of 993,320 tons entered and 21,692 vessels of 416,610 tons cleared at all the ports of Denmark during the fiscal year, 1873-4, being a gain of nearly 3,000 vessels and nearly 200,000 tons in the entries, and of 4000 vessels and nearly 129,000 tons in the clearances during the five years ending with 1873-4.

FRANCE.

For the reasons stated in my last report the preparation of the French annual returns of commerce and navigation has been considerably retarded, the latest received at this department being for the year 1872. I transmit herewith some tables derived from those returns, which, although they do not embrace so recent a period as might be desired, may be interesting as showing the rapid recovery of French commerce from the injurious effects of the Franco German war. In the year 1870 the aggregate value of the general imports and exports of France amounted to 6,953,300,000f, a figure which, in 1872, increased to 9,258,200,000f., exceeding the value of the imports and exports of any former year, and being 1,632,000,000f. above the average value of the commerce of the five previous years. It appears, from a reference to the statistics of former periods, that the general commerce of France has nearly doubled within the fifteen years ending with 1872. The Consul at Marseilles has transmitted to this department, in advance of the official annual returns, a statement in which the total imports into France for the first eight months of the year 1874 are valued at 3,162,188f., against 2,515,584f. for the corresponding period of 1873, and the exports at 2 518,558f. against 2,926,682f. in 1873.

The aggregate tonnage of vessels entered into and cleared from French ports during the year 1872 is stated in the official table of navigation as having amounted to 11,891,000 tons, being an increase of 1,457,000 tons over the navigation of the preceding year. From the report of the Consul at Marseilles there appears to have been a further gain of 588,000 tons in 1873, and during the first eight months of 1874 a yet further increase of 475,000 tons over the corresponding period of the previous year.

The imports into France from the United States amounted, for the year 1872, to the value of 210,700,000f. and the exports to this country to 428,800,000f, the latter being more than double the former, and the total of both exceeding the amount for the preceding year by 93,600,000f. The declared value of the exports from the Consular districts of the United States in France for the year ending September 30, 1874, is reported as $59,006,287. The aggregate tonnage entered from and cleared for the United States in 1872 amounted to 701,928 tons, being nearly 200,000 tons in excess of the year 1871. Of the vessels entered and cleared with cargoes in 1872, 229, measuring 170,189 tons, carry the American flag.

GREAT BRITAIN.

The latest official statements of British commerce received at this department, made up for a period of twelve months, are for the year 1873. From these returns it appears that for that year the total value of the imports into the United Kingdom from foreign countries and British possessions amounted to £371,287,300, and the total exports from the United Kingdom to £310,994,700. Compared with the trade of previous years the value of the total imports for the year 1873 was greater than for any former year and exceeded the imports for 1872 by nearly £16,600,000, while the value of the exports for the same year fell short of that for the preceding year, which showed the largest annual exportation ever made by more than £3,500,000. Of the exports referred to eighty two per centum was the produce of the United Kingdom, the remainder foreign and colonial merchandise. From a review of the general commerce of Great Britain and Ireland for the fifteen years ending with 1873 it appears that the fluctuations of the imports, as well as of the exports, were considerable during the first eight years, but that since 1867 both the imports and exports, with the exception of the last year, have constantly increased, and if the aggregated value of the imports and exports for 1873 be compared with that for 1859 it will be found that the annual commerce of the British Isles has more than doubled within the last fifteen years.

Passing from the general commerce of Great Britain to her commercial relations with the United States, it is observed that the official returns state the imports into the United Kingdom from this country for 1873 as having amounted to £71,471,493, and the exports to this country to £36,698,424. In the year 1859 the exports between the two countries were in favor of the United States by nearly £10,000,000. This difference increased in 1861 to so great an amount that the exports from the United States more than quadrupled those from Great Britain; but the diminution was equally rapid in the following year, and in 1865 the balance of trade was in favor of Great Britain by over £3,500,000. In 1866 this again turned in favor of the United States until, as has already been remarked, the exports from the United States to Great Britain are not far from double those from that kingdom to the United States. The monthly returns of British commerce received at this department point to a still further increase in the imports, but a decrease in the exports of the United Kingdom during the year 1874. From these returns the imports into the British Isles for the ten months ending October 31, 1874, appear to have amounted to £311,232,500, against £307,822,270 for the corresponding period of 1873, and the exports for the same period to £202,859,400, against £216,016,700 in 1873.

The number of vessels entering ports of Great Britain and Ireland during the year 1873 was 64,494, measuring 21,864,957 tons, and the number cleared 65,581, measuring 22,575,029 tons. Nearly two thirds of the aggregate tonnage of vessels entered and cleared carried the British flag. A comparison of the number of vessels entering British Ports during the year 1873 with the entries of previous years shows a gain during the five years ending with 1873 of nearly 6,000 vessels, this increase consisting almost entirely of steamers, the gain in the number of sailing vessels being comparatively trifling. The number of American steamers entered during 1873 was 11 against none in the previous year.

The return of the exports from the port of London to the United States during the year ending September 30, 1874, show a decrease of $7,481,470 from the exports of 1872 3; indeed, a decided decrease in the exports to the United States is noticed, with very few exceptions, at all the ports of the United Kingdom during the period stated. The cause assigned for this decline, by the Consul General at London, is in a large degree the advancing condition of manufacturers in this country.

From the accompanying statement of the imports and exports of Canada, taken from the report of the Canadian Commissioner of Customs for the fiscal year ending June 30, 1873, it appears that the aggregate exports for that year amounted $89,789,922, being an increase over the exports of the previous fiscal year of $7,150,250. The value of the goods imported for consumption during the year referred to was $127,514,595, exceeding the value for 1871-2 by $19,805,478. In regard to the commerce of Canada with Great Britain and the United States, the report from which these statements are derived contains the following remarks:

The collective trade of Canada in imports and exports with the undermentioned countries during the fiscal years 1871-2 and 1872 3, as exhibited in the following statement, establishes a steady maintenance of our commercial relations with the mother country and largely increased commerce with the United States. With Great Britain the increase of 19.35 per cent, noted in my last report as representing our trade with that country in 1872 over 1871, has been more than maintained, the increase being 20.5 per cent in 1873 as compared with 1872. With the United States, however, the percentage of increase in 1872 over 1871, which was only 10.19 per cent, is shown to have risen in 1873 over 1872 to 24.9 per cent.

With reference to the commerce of Canada with the United States it may be added as appears from the statement that, while during the year ending June 30, 1872, the exports to the United States exceeded the merchandise imported from this country for consumption by $600,000, in 1872 3 the reverse was the case by $7,180,000. The number of seagoing vessels that entered and cleared from ports of the Dominion during the year ending June 30, 1873, is stated as 21,597, measuring 6,085,535 tons, against 20,256 vessels, measuring 5,046,704 tons, in 1871 72. The return of ships built in Canada during the fiscal year 1873-74 shows an increase of only two in the number out of 26,815 tons in the measurement of vessels built in the preceding year.

The imports into British India amounted during the year ending March 31, 1874, to 325,900,000 rupees, being an increase of 13,300,000 rupees over those for the corresponding period of 1872-73. The exports of India produce during the same period were valued at 531,144,194 rupees more than 3,000,000 rupees less than those of 1872-73.

NETHERLANDS.

No later official report of the imports and exports of the Netherlands has been received at this department than the statement transmitted to Congress with my last commercial report. Some tables, translated from the official navigation returns of the Netherlands for the year 1873, show

that the total number of vessels entering ports of the Netherlands during that year was 3,762, with an aggregate measurement of 2,968,404 tons. As compared with the entries of 1872 this was a decrease of 300 in number, but an increase of 200,000 in the total measurement of entered vessels, and the returns of previous years indicate that from the year 1848 to the year 1873 the number of vessels annually arriving at ports of the Netherlands increased thirty seven per cent, while the amount of tonnage of such vessels was more than trebled.

SWEDEN AND NORWAY.

The imports from the United States into Sweden and Norway amounted during the year 1873 to $9,888,178, and the total exports from that country to the United States to $3,154,337. The imports from the United States for the first six months of 1874 are reported as amounting approximately to $3,281,969, and the exports to this country during the same period to $332,618.

The tonnage of Norwegian vessels is reported as having increased by 55,400 tons during the year 1872, and equal gain was anticipated for the following year. A remarkable increase is noticed in the carrying trade with the United States on Norwegian vessels. This trade rose in value from 322,000 specie dollars in 1865 to 4,393,000 specie dollars in the year 1872.

TURKISH EMPIRE—EGYPT.

The entire exports from the port of Alexandria for the year ending August 31, 1873, amounted to more than $66,700,000—$170,000 more than the value of the exports for 1872. The imports for the same period are stated as over $32,400,000, an amount exceeding the importation of any previous year by more than $2,900,000. The imports from the United States, consisting almost wholly of petroleum, amounted during the period above stated to nearly $370,000, and slightly exceeded those for 1873. The direct exports from Alexandria to this country are insignificant.

MOROCCO.

In my last report on commerce attention was directed to the great increase reported in the export trade of Morocco during the year 1872. The report of the Consul at Tangier shows an even greater gain in the exports of the Empire during the year 1873. Upon reference it will be observed that during the last named year the value of the exports from Morocco amounted to $7,767,330, which amount, if compared with the exports of 1872, shows an increase of $1,218,185. The report from Tangier further indicates a remarkable development in the export trade of Morocco during the years 1872 and 1873, amounting in the latter year to double the average value of the eight years preceding 1872. The import trade experienced a slight decline attributed to the unsettled state of affairs which followed the decease of the Sultan.

SOUTH AMERICA—ARGENTINE REPUBLIC.

The value of the imports into the Argentine Republic for the year 1873 amounted to $71,065,199, being an increase of $13,756,712 over the previous year. The value of the exports from the Republic for the same year was $45,869,814, a slight gain over those for 1872. The latest returns show that nearly eight per cent of the commerce of the Argentine Republic is with Europe, and the rest chiefly with North and South America.

CHILI.

The returns of the Chilian Bureau of Commercial Statistics for the year 1873 show a continued increase in the commerce of Chili. The total imports for that year amounted to 37,928,427 Chilian dollars, against 34,657,928 Chilian dollars in 1872, and the total exports to 38,810,271 Chilian dollars, against 37,122,460 in 1872. If the trade of Chili for former years be considered, it will be found that the aggregate value of imports and exports increased during the decade ending with 1853 60.8 per cent; during that ending with 1873, 53 per cent. Moreover, if the entire period of thirty years be considered the aggregate trade will be found to have increased considerably more than fourfold. The chief feature of Chilian commerce in the year 1873 was the unprecedented amount of coin and bank notes exported. The former amounted to 2,023,052 dollars.

THE UNITED STATES OF COLOMBIA.

The total imports into the United States of Colombia amounted, during the year 1873, to $24,038,844 and the imports to $10,477,631. The value of the exports to the United States, for the same period, was estimated at $1,316,498.

ECUADOR.

The entire exportation of native produce from Guayaquil, the chief port of the Republic of Ecuador, is reported as having exceeded in value $5,500,000 during the year 1873, being an increase of $1,600,000 over 1872. The revenue of the Custom House for the same period was returned as $1,672,657, or a gain of $80,000 over the revenue of the preceding year. Upon reference to the returns of previous years the annual revenue at the Custom House of this port appears to have more than trebled within the twelve years ending with 1873.

BRAZIL.

Attention is invited to two despatches from the Minister at Rio Janeiro, relating to certain changes in the Brazilian tariff, and especially to the reduction of duties upon various articles of commerce between the United States and Brazil.

CENTRAL AMERICA.

The aggregate value of the imports into the States of Central America for the year 1873 is stated as $10,967,483 and the exports $16,628,422. Of these amounts $3,991,930 for the imports and $710,580 for the exports represent the commerce with the United States. It appears from the preceding data that while the value of the export trade of the Central American States for 1873 exceeded that of the total import trade by sixty five per cent, the exports to the United States for that year are estimated at more than five times the imports. The aggregate trade with the United States for 1873 showed an increase of $931,768 over that of 1872.

CHINA.

A copy is herewith transmitted of a despatch from the diplomatic representative of this government at Pekin, enclosing a copy of the "Returns of Trade at the Treaty Ports" for the year 1873. It appears from these returns that the value of the net imports into China during the year referred to amounted to 78,992,903 taels, and the exports to 77,540,919 taels, a decrease in the former of more than 800,000 taels and in the latter of more than 6,000,000 taels from the previous year, reducing the balance in favor of the exports from 8,890,000 taels to 3,540,000 taels in one year. The imports into China from the United States, which have during late years suffered considerable decline, amounted in 1873 to 271,168 taels. The fluctuation in these imports within the ten years ending with 1873 is reported as having been very great. Their value for one of the years referred to rose to as high a figure as 1,542,991 taels. The exports to the United States for the same year somewhat exceeded in value 8,400,000 taels. These exports are reported as having fluctuated within the ten years already specified between 6,316,130 and 13,279,988 taels.

A decrease is announced in the importation of opium at the ports of Tientsin and Hankow, and is ascribed chiefly to the increase in the cultivation and manufacture of the native drug in the country beyond these ports. The estimated amount of opium grown in China is stated as being somewhat greater than that of the imported article, an estimate which makes the value of the opium consumed in the empire during the year 1873 to have amounted to 25,000,000 taels. A comparison of the opium trade with the tea trade discloses the fact that the value of the opium imported into China from India in 1873 is to that of the entire export of tea from the former country during the same period nearly in the ratio of 12 to 13.

In conclusion I beg leave to refer to the changes which occur in the new edition of the "Consular Regulations" respecting the commercial reports of consuls. It is hoped that the instruction to prepare reports for the year ending June 30, instead of September 30, will enable the department to furnish later information from the more distant consulates than has hitherto been practicable.

I have the honor to be, sir, your obedient servant,

HAMILTON FISH.

Hon. JAMES G. BLAINE, Speaker of the House of Representatives.

The Erie Railway.

LONDON, September 20.—Sir Edward William Watkin, who has just returned from a personal inspection of the Erie railroad, has published his report, in which he describes the permanent way of the Erie railway as quite equal to the standard in the United States; but the rolling stock, he says, is defective. The net revenue of the line is only 21 per cent of the gross receipts, and the outstanding debts of the company are equal to about fourteen months' profits. Sir Edward would not raise new capital in the present state of the company's credit, but advises the bondholders to devote the earnings of the line towards paying off the debts, and to issue certificates for the mortgage interest.

President Jewett is highly spoken of, and the bondholders are advised to support him to the utmost. A memorandum has been signed securing to English interests a substantial influence in the management of the company, and promising to place the whole business on an intelligible footing.

Sir Edward, in the course of his report, says Mr. Jewett speaks confidently of the probable future progress of the net earnings, but he (Sir Edward) postpones an expression of his own opinion until he has had an opportunity to inspect the annual account and balance sheet, pending or proposed litigations with various parties, involving complicated transactions and large amounts. The probable results of these proceedings cannot be included in the ledger entries necessary for constructing a balance sheet. He continues:

"In the present state of the credit of the Erie the undertaking seems to me as impossible as it would be unwise, even if possible, to endeavor to raise or remit more capital from England. I can recommend no policy but that of self redemption. The railway must pay its debts by using that part of its current net earnings which the courts may permit to be so appropriated. A receivership is the alternative of the time. Foreclosure has been threatened. If the latter is to be avoided there must be co-operation and control in the working of the former. I advise you to accept the receivership as the best alternative under all the circumstances now possible, and I further advise you to rely upon the honor, as I feel you may also rely upon the anxious labors and full experience of the president and receiver of the company."

☞ Articles of association of the Chicago Belt Railroad Company were filed on the 16th inst. in the office of the Secretary of State of Illinois. The proposed capital stock of the company is $1,000,000.

☞ The first sod on the Belleville and North Hastings Railway was turned at White Lake, near Madoc in the Township of Huntingdon, on the 9th inst.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 25, 1875.

Financial and Commercial Affairs.

Money has been more sought after for speculative and mercantile purposes; but, with the very liberal supply available at this point, lenders, regarded as in good standing, have had no difficulty in procuring accommodation promptly to the full extent of their requirements at essentially unchanged rates—call loans having been quoted generally at 2@3, and best commercial credits at 4½@6 per cent per annum. The week's failures and suspensions have been few and unimportant; and this circumstance has tended to strengthen confidence. The reports from leading trade lines of increasing activity have been likewise encouring. The City banks have contracted their loan and discount items moderately, while reporting a further loss of specie, legal tender notes, and deposits, by which their total reserve, as against liabilities, was again reduced $3,238,900, and their legal surplus reserve, $2,557,950. The U. S. Treasury again lost about three-fourths of a million of currency, while also diminishing its specie hoard, nearly 3¼ millions, as the results of the week's business. The City Banks last week diminished their reserve of legal tender notes $1,247,200, their deposit item $2,723,800, and their specie average $1,991,700. They report a falling off of $1,371,400, in the loans and discounts, and a reduction of $1,800 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $59,085,232, against $59,846,802 the preceding week; and a coin hoard of $34,825,855 against $38,018,239

on the previous return. The City bank exchanges in currency during the week were $411,149,485, or a daily average of $68,558,247. The customs revenue of the port, during the week, was $2,143,133. The City banks reported their average of gold last week at $7,286,500, and their green back average at $67,938,000. Their deposits stood at $239,881,300. The loan item was $282,071,800. The circulation was $17,754,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $15,354,175.

The aggregate of the outstanding U. S. currency, of all denominations, September 1, was $415,938,229. The outstanding amount of legal tender notes is $374,245,708. The National bank circulation is now $347,578,483, including $2,640,000 of national gold bank notes.

The specie shipments from San Francisco, January 1, to Sept. 2, were $37,586,305, as against $18,154,049 same time in 1874.

On Tuesday, of this week the cash balances of the Treasury Department at Washington were: of Currency $2,286,630; special deposit of legal tenders for the redemption of certificates of deposit, $67,145,000; Coin, $65,677,810; Coin certificates $13,069,000.

The week's import entries of Foreign Merchandise at New York, were $5,762,468, and included of dry goods $2,233,077.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 26½ millions.

Gold has been ruling stronger on an active speculative and fair customs demand. The export movement has been light. The later dealings indicated less firmness. The extremes of the week have been 115¾@117⅜, closing on Wednesday at 116½, as against 116¾ on Wednesday of the preceding week. The specie outflow last week was only $343,500 against $118,000 the previous week. The imports of specie at this port since Jan. 1, have been $8,583,729, against $8,601,000 same time last year. The customs demand for Gold last week averaged $357,188. Foreign Exchange has been very moderately dealt in and has been quoted heavy, most of the week. Bankers' sixty day bills on London closed on Wednesday at $4 79@$4 80; sight bills on London at $4 83@$4 84½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of only $4,620,230. The week's imports of Dry Goods and general merchandise were to the specie value of $5,762,468 against $6,669,952 same week last year.

Government Securities have been quoted firmer, with a very good demand noted, chiefly on investment account. Secretary Bristow has made a further call for $5,000,000 of the 5 20s of 1864, for redemption. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation is $373,077,762.

U. S sixes of 1881 closed on Wednesday of this week at 123¾@121¼; U. S. Five-Twenties of 1864, at 119¼@119½; U. S. Five-Twenties of 1865 119¾@120; U. S. Five-Twenties of 1865, consolidated, 119¼@119½; U. S. Five-Twenties of 1867, 121@121⅛; U. S. Five-Twenties of 1868, 121¼@121½; U. S. Ten-forties at 117¾@118; U. S. Fives of 1881, (Funding Loan) 118⅜@118⅜; Six per cent. currency Sixes, 123⅜@123½.

State and Railway bonds have been moderately sought after and quoted generally firm. And in the line of Railway and Miscellaneous share property, business has been again active, and toward the close, values have been ruling stronger, the speculative dealings evincing a much more confident temper generally.

Domestic Produce has been in moderately active demand. Breadstuffs and Cotton have been ruling lower. Provisions, Petroleum, Naval Stores much stronger. Foreign merchandise has been selling more freely, though at irregular prices. The Metal trade has been without notable activity. Scotch Pig Iron has been held higher. American Pig Iron, depressed. Eglinton Pig Iron quoted here at $29@$30; Glengarnock, $32@$32 50; Coltness, $32@$33; No. 1 American Pig at $25@$26 50; No. 2 do. at $23 50@$25; Forge, $20@$22 50; English Rails at $48@$50, gold; American Rails, at works, $50; Old Rails, $24@$26 00. Wrought Scrap, $32 50@$35. Ocean freights have been more active, especially for Grain and Cotton, and at the close quoted firmer.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The Lehigh Coal and Navigation Company is building a railroad up Sandy Run for the Central Railroad of New Jersey. It leaves the main road about two miles below Scranton. It will run to Buck Mountain, Eckley and Drifton, and ultimately to Hazleton. It will, when completed, make the line between Wilkesbarre and Hazleton an hour and a half shorter. A tonnage of two hundred thousand tons of coal annually is guaranteed to the road by Messrs. Coxe Bros. & Co. and the Buck Mountain Coal Company. The road is to be completed by the first of December.

☞ The Anthracite Board of Control met on the 21st inst. at the Sales Department of the Delaware and Hudson Canal Company, and decided that prices for the balance of this year should suffer no reduction. The prices of egg and stove coal for October have been advanced ten cents per ton. It was also decided that the Delaware and Hudson Canal Company and the Delaware, Lackawanna and Western Railroad Company should suspend shipments to tidewater for two weeks from October 1.

☞ Bonds of the Western Railroad corporation, due October 1, 1875, will be paid on presentation at the office of the Boston and Albany Railroad Company, Boston, Mass., without rebate of interest.

Dividends.

The Central Pacific Railroad Company have declared a semi-annual dividend of four dollars per share in gold, payable October 1, in New York and San Francisco.

The Union Pacific Railroad Company have declared a dividend of two per cent, payable October 1, in New York and Boston.

The New York Central and Hudson River Railroad Company will pay to a quarterly dividend of two per cent on the capital stock and outstanding consolidation certificates, on the 15th of October.

The Dubuque and Sioux City Railroad Company will pay a dividend of three per cent on the 15th of October, at the office of Messrs. M. K. Jesup, Paton & Co., 52 William St. New York.

The regular quarterly dividend of one and one half per cent. on the capital stock of the Pacific Railroad (of Missouri) will be paid on the 20th of October at the office of the company, No. 3 Broad St., New York.

The regular quarterly dividend of two and one half per cent on the capital stock of the United New Jersey Railroad and Canal Company will be paid at the office of the Pennsylvania Railroad Company on and after October 9th.

The Camden and Atlantic Railroad Company have declared a dividend of three and a half per cent., on the preferred and common stock, payable on and after the 1st of October.

The Housatonic Railroad Company have declared a dividend of two dollars per share on the preferred stock, payable Oct. 11.

The Western Union Telegraph Company have declared a quarterly dividend of two per cent., payable October 15.

The Woodruff Sleeping and Parlor Coach Company announces a quarterly dividend of 2½ per cent, payable October 1.

☞ The crop committee of the New Orleans National Cotton Exchange, in their report make the total crop for the year ending September 1, 1875, 3,827,845 bales, of which 2,674,448 were exported to foreign ports, and 1,200,473 were taken by home spinners, including 126,550 consumed at the South. The Sea Island crop was 16,687 bales, including 8,139 in Florida, 1,074 in Georgia, 7,308 in South Carolina and 166 in Texas. The average weight of the crop was 468 pounds per bale, and of the Sea Island cotton 392 pounds per bale.

☞ It is announced that the North Pennsylvania Railroad Company is about to build a branch road to Newtown, Bucks county, and steps are being actively taken to commence the work. The road will commence at a point on the Delaware River branch on the western border of Lower Wakefield. The grading will be put under contract as soon as the farmers on the line of the proposed routes have gathered their crops. The officers of the company state that the road will be completed in time for the Centennial.

☞ The Philadelphia and Reading Railroad Company is about to put upon the Germantown and Norristown branch twelve or fifteen new cars, more beautifully ornamented and upholstered than any heretofore in use on the road. These cars cost about $6000 each. Two or three are already on the track.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

OFFICE CENTRAL PACIFIC RAILROAD COMPANY,
Nos. 9 NASSAU AND 11 PINE STS.,
NEW YORK, Sept. 15, 1875.

THE BOARD OF DIRECTORS OF THIS COMPANY have this day declared a semi-annual dividend of FOUR DOLLARS ($4) PER SHARE IN GOLD, payable Oct. 1, next. Dividend warrants No. 4 will be cashed at the Treasurer's office, corner 4th and Townsend sts., San Francisco, or at this office on and after that date.

C. P. HUNTINGTON, Vice President.

Railroad Enterprises in Mexico.

Recent advices from Mexico, received at Washington, represent the affairs of that Republic as extremely favorable, and indicate that an important commerce with the United States may be opened by means of increased communication through the Gulf ports, and especially from the construction of the lines of inland communication by railroad, concessions for which were approved at the last session of the Mexican Congress. Of these the most important is that for the Mexican International Railroad, which, starting from Leon, a city of 10,000 inhabitants in the State of Guanajuato, is to reach the Rio Grande, a distance of about 700 miles, and there connect with the International Railroad of Texas, and thus with the entire railroad system of the United States. From Leon to the City of Mexico, a distance of 280 miles, the surveys for a railroad under a concession previously voted are now in progress, and the line will probably be completed by the time the International Road from the border shall reach Leon. The construction of these lines of railroad will undoubtedly open an immense commerce between the two countries, of which, from its geographical position, St. Louis will necessarily be the grand distributing point.

☞ Two civil engineers from Russia, under a commission from the Czar, are inspecting the Canadian canals. The canal system of Russia is still in a very imperfect state, the locks being almost entirely constructed of wood. Among other great measures of improvement the government has in contemplation extensive works to quicken and cheapen the internal communications of the empire, and these gentlemen have been dispatched to Canada and the United States to study and communicate with their government particularly upon the great canal systems of the two countries.

Removal of Suits from the State Courts to the U. S. Circuit or Federal Courts.

AGREEMENTS IN ADVANCE NOT TO DO SO ARE ILLEGAL AND VOID.—DECISION OF THE UNITED STATES SUPREME COURT.

In the case of The Home Insurance Company of New York, plaintiff in error, vs. John F. Morse and Charles C. Paige—In error to the Supreme Court of the State of Wisconsin—Mr. Justice Hunt delivered the opinion of the Court:

This action was commenced in the Circuit Court of Winnebago county, Wisconsin, to recover the amount alleged to be due upon a policy of insurance issued by the plaintiff in error to the defendants in error upon the steamboat Diamond.

The Home Insurance Company is a corporation organized under the laws of the State of New York and having its office and principal place of business in the city of New York. The company entered its appearance in the Winnebago county suit and filed its petition to remove the cause to the United States Court for the Eastern District of Wisconsin. The petition was in the form required by the twelfth section of the act of 1789, and was accompanied by a bond with sufficient bail, as required by that act. The Circuit Court of Winnebago county refused to grant the prayer for removal, but proceeded to the trial of the cause. A verdict was rendered against the company, judgment ordered thereon, and upon an appeal to the Supreme Court of Wisconsin the same was affirmed. The insurance company now brings a writ of error to this court. The case of the Montello was argued at the same time with the present; both cases, as it was understood, involving the question whether the Fox River was a navigable water of the United States. The decision of that question is not essential to the judgment to be rendered in the present case.

The refusal of the State Court of Wisconsin to allow the removal of the case into the United States Circuit Court of Wisconsin, and its justification under the agreement of the company and the statute of Wisconsin, form the subject of consideration in the present suit.

The statute of Wisconsin in question was passed in the year 1870, and therein it is declared that "it shall not be lawful for any fire insurance company, association or partnership incorporated by or organized under the laws of any other State of the United States, or any foreign government, for any of the purposes specified in this act, directly or indirectly, to take risks or transact any business of insurance in this State, unless possessed of the amount of actual capital required of similar corporations formed under the provisions of this act; and any such company desiring to transact any such business aforesaid by any agent or agents in this State shall first appoint an attorney in this State, on whom process of law can be served, containing an agreement that such company will not remove the suit for trial into the United States Circuit Court or federal courts, and file in the office of the Secretary of State a written instrument, duly signed and sealed, certifying such appointment, which shall continue until another attorney be substituted." (Laws of 1870, chapter 561, section 22, page 87, or First Taylor's Statutes, page 958, section 22.)

Desiring to do business in the State of Wisconsin, and in compliance with the provisions of this statute, the Home Insurance Company of New York, on the first day of July, 1870, filed in the office of the Secretary of State of Wisconsin an appointment of Henry S. Durand as their agent in that State, on whom process might be served. The power of attorney thus filed contains this clause:—"And said company agrees that suits commenced in the State courts of Wisconsin shall not be removed by the acts of said company into the United States circuit or federal courts."

The State courts of Wisconsin held that this statute and the agreement under it justified a denial of the petition to remove the case into the United States Court. The insurance company deny this proposition and this is the point presented for consideration:—Is the agreement thus made by the insurance company one that, without reference to the statute, would bind the party making it? Should a citizen of the State of New York enter into an agreement with the State of Wisconsin that in no event would he resort to the courts of that State or to the federal tribunals within it to protect his rights of property, it could not be successfully contended that such an agreement would be valid. Should a citizen of New York enter into an agreement with the State of Wisconsin, upon whatever consideration, that he would in no case, when called into the courts of that State or the federal tribunals within it, demand a jury to determine any rights of property that might be called in question, but that such rights should in all cases be submitted to arbitration or to the decision of a single judge, the authorities are clear that he would not thereby be debarred from resorting to the ordinary legal tribunals of the State. There is no sound principle upon which such agreements can be specifically enforced. We see no difference in principle between the cases supposed and the case before us.

Every citizen is entitled to resort to all the courts of the country and to invoke the protection which all the laws or all those courts may afford him. A man may not barter away his life or his freedom or his substantial rights. In a criminal case he cannot, as was held in Cancemi's case (18, N. Y. R., 128) be tried in any other manner than by a jury of twelve men, although he consent in open court to be tried by a jury of eleven men. In a civil case he may submit his particular suit by his own consent to an arbitration or to the decision of a single judge. So he may omit to exercise his right to remove his suit to a federal tribunal as often as he thinks fit, in each recurring case. In these aspects any citizen may, no doubt, waive the rights to which he may be entitled. He cannot, however, bind himself in advance by an agreement, which may be specifically enforced, thus to forfeit his rights at all times and on all occasions, whenever the case may be presented.

That the agreement of the insurance company is invalid upon the principles mentioned the following cases are cited:—Nutt vs. Hum. Ins. Co., 6 Gray, 174; Cobb vs. New Eng. M. Ins. Co., 6 Gray 192; Hobbs vs. Manhattan Ins. Co., 56 Maine, 421; Stephenson vs. P. F. and M. Ins. Co., 54 Maine, 70; Scott vs. Avery, 5 House Lords Cases, 811. They show that agreements in advance to oust the courts of the jurisdiction conferred by law are illegal and void. Reversed, the Chief Justice and Mr. Justice Davis dissenting.

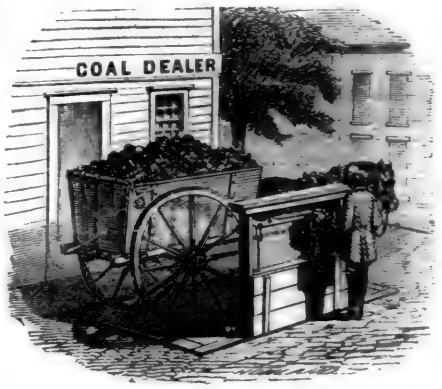
LACHINE CANAL ENLARGEMENT.

NOTICE TO CONTRACTORS.

The letting of the works for the enlargement of the Lachine Canal, advertised to take place on the SIXTEENTH day of SEPTEMBER next, is unavoidably postponed to the following dates:—

Tenders will be received until WEDNESDAY the 29th day of SEPTEMBER next.

The plans and specifications will be ready for examination (at the places previously mentioned) on Thursday the Sixteenth day of September next.



By Order,

F. BRAUN,

Department of Public Works, Ottawa, 18th August, 1875. Secretary.

Railroads of California.

The following are the official returns of the railroads in California for the last year :

CALIFORNIA PACIFIC.

Number of locomotives	12
Number of cars for passenger trains	24
Cars for freight and construction trains	232
Total earnings	$1,054,066 14
Operating expenses and taxes	1,196,005 72
Cost of road, buildings, etc.	19,782,639 84
Cost of equipment	393,335 89
Amount due company	270,451 11
Capital stock paid up	12,000,000 00
Indebtedness of company on bonds, notes and personal accounts	9,847,609 44

CENTRAL PACIFIC.

Number of locomotives	188
Snowplows	9
Number of cars for passenger trains	267
Cars for freight and construction trains	4,187
Total earnings, coin	$8,276,301 55
Total earnings, United States currency	5 334,729 08
Operating expenses and taxes	9.700,146 04
Dividend payments ($5 per share)	2,713,775 00
Cost of road, buildings, etc	134,465,100 36
Cost of equipment	6,203,688 89
Amount due the company	6,813,475 06
Capital stock paid up	54,275,500 00
Indebtedness of the company on bonds, notes and personal accounts	84,666,354 35

SACRAMENTO VALLEY.

Number of locomotives	4
Number of cars for passenger trains	8
Cars for freight and construction trains	82
Total earnings, from all sources	$180,964 00
Operating expenses and taxes	127,968 00
Cost of road, buildings, etc., including equipments, etc	1,727,982 00
Capital stock paid up	936,000 00
Total liabilities	492,380 00

SOUTHERN PACIFIC.

Number of locomotives	24
Number of cars for passenger trains	38
Cars for freight and construction trains	417
Gross earnings	$1,638,239 00
Operating expenses and taxes	1,596,994 00
Cost of road, buildings, etc	11,804,684 00
Cost of equipment	96,764 00
Total assets, amount due company	11,043 894 00
Capital stock paid up	22,412,200 00
Amount of indebtedness of company on bonds and personal securities	15,502,381 00

STOCKTON AND COPPERPOLIS.

Number of locomotives	1
Number of cars for passenger trains	3
Cars for freight and construction trains	22
Gross earnings	$26,061 00
Operating expenses and taxes	83 540 00
Cost of road, buildings, etc	607,912 00
Capital stock paid up	4 800 00
Total liabilities	1,238,783 00

By recapitulation the earnings and expenses of all the roads were :

	Earnings.	Operating expenses.
Central Pacific	$13,611,030	$9.700,146
California Pacific	1,054,066	1,196,005
Sacramento Valley	180,634	127,968
Southern Pacific	1,638,239	1,596,094
Stockton & Copperopolis	26,061	83,540

☞ A dispatch from Jefferson, Mo., says that the Missouri State loan, amounting to $2,287,000, was awarded to Netler & Co., of New York, and Kohn & Co., of St. Louis. The loan is a 5 20 loan, carrying 6 per cent interest.

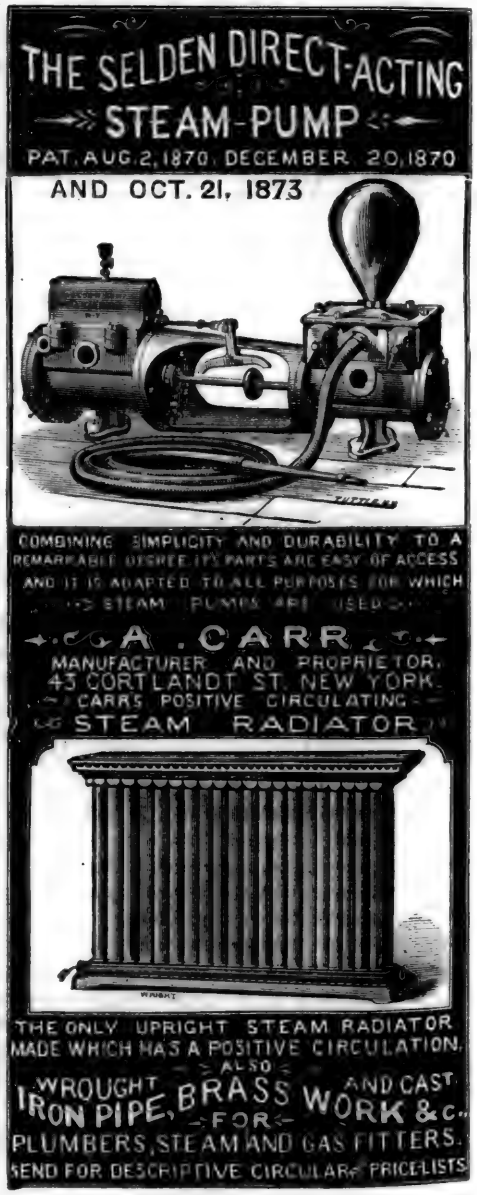
☞ The U. S. Circuit Court at Pittsburg, Penn., entered a decree on the 20th inst. allowing he stock and bondholders of the Oil Creek and Allegheny River Railroad to carry out their agreement of foreclosure. This, it is stated, rids the company of all its floating debts, outside suits, bad contracrs, etc.

☞ Henry County, Virginia, has voted a subscription of $100,000 toward building a railroad from Danville to Henry Court House. The vote stood 1,216 for and 216 against the subscription. It is stated that stock has been taken to the amount of $85,000. Danville also proposes to vote $50,000 to the project.

☞ The Woodstock, (Vermont) Railroad has been completed. There will be no formal opening.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."



M. Brigham, KINGSTON, N. Y
J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.
For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.
Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.
J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.
This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.
This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.
It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.
All orders will receive prompt attention.

South Mountain Railroad.

The South Mountain Railroad, in course of construction from Harrisburg to Hamburg, is probably being pushed forward with more energy than any other line now building in Eastern Pennsylvania, if we except the extension of the Perkiomen Railroad, now nearly completed. A large force of men is now employed on the branch of the South Mountain Road from Strausstown via Bernville to Reading, and this portion will probably be completed next Summer. A considerable portion of the main line from Harrisburg to Hamburg is already graded, and the whole road, including the Bernville branch, will probably be finished by the close of next year. The portion from Harrisburg to Hamburg will only form a link of the new projected trunk line from Boston to the West, and a second section has been surveyed from Hamburg to Slatington, which will strike the Berks and Lehigh Railroad near Stinesville, and continue parallel to it at a distance of from half a mile to one mile until it reaches Slatington. The remaining links from the Lehigh to the Delaware, and from the Delaware to the Hudson, will be completed in due time.—*Miners' Journal.*

☞ The income of the Suez Canal, in 1874 was $5,260,000, and the actual expenditures $3,500,000. The canal is kept in good navigable condition, but no improvements or novelties are introduced, there being much economy exercised in the expenditure. The traffic through it is being constantly increased, and in addition to the greater number of vessels that pass through, the most of them are of larger size than formerly.

☞ Some of the bondholders of the Worcester and Somerset (Md.) Railroad propose to lease and extend the road from Newtown to the seashore at Swansgut. The estimated cost of the extension is $75,000. Swansgut is nine miles from Newtown, opposite Chincoteague Island.

☞ On account of the serious illness of Mr. Page, Dominion Chief Engineer, the date for receiving tenders for the Lachine Canal Enlargement has been postponed till the 29th inst.

THE

UPHOLSTERERS'

ELASTIC SPONGE

COMPANY,

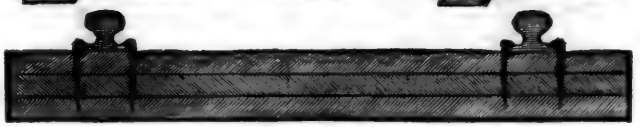
No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.



PERKINS, LIVINGSTON, POST & Co.,
59 Liberty Street,
NEW YORK.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

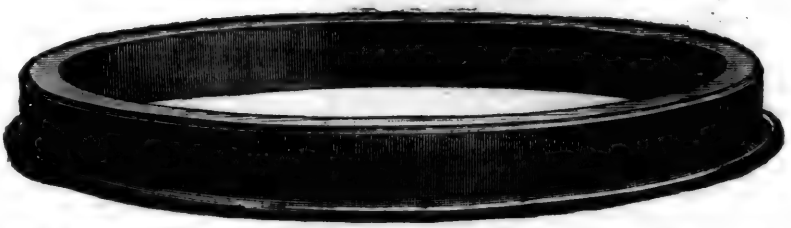
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size: can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

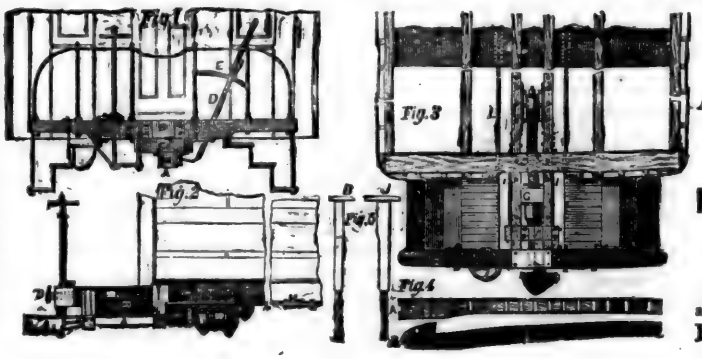
For further particulars, testimoniales, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

CAMMELL'S CAST STEEL.

ROLLED AT JERSEY CITY BY **W. BAILEY LANG & CO.** } **New York** AND **Boston.**



CORYDON WINCH,

Manufacturer of RAILROAD, SHIP, BOAT & DOCK SPIKES.

Rolling Mill and Factory, Canal Street, near Second and Laurel, Philadelphia.

MILLER'S TRUSSED PLATFORMS,

COMPRESSION BUFFERS, AND **Automatic Couplers,** FOR **RAILROAD PASSENGER CARS.**

OFFICE,

New York, Saturday, October 2, 1875.

Southern Pacific Railroad.

Probably no new railroad enterprise on this continent is being pushed at this time, or has been during the past two years of extreme depression, with the same energy and expenditure, as the Southern Pacific Railroad in California. During the past two years more than 200 miles of road have been graded and the track laid thereon, besides a vast amount of work on the road now in course of construction. The money spent on new work and material in that period cannot be less than from fifteen to twenty millions of dollars; and all, so far as we can learn, without appealing to the eastern capitalists. No more stupendous railroad undertaking is going forward, with the same energy elsewhere. It appears from private and trustworthy accounts which reach this office directly from the scene of action, that the company have on the work now between 4,000 and 5,000 men, chiefly Chinese, and are covering an immense field of ground with laborers. Their operations may be more intelligible, by some account of the roads of the company in that State. The Southern Pacific Railroad Company—the only one bearing that title—was organized under California laws to construct the western part of the lines designed to cross the continent along the 35th and 32d parallels, and participates in the land grants thereto, in the State of California. For convenience of construction it was commenced in three separate places; and is now, by reason of two gaps, in three divisions of something over a hundred miles each. Two of them, however, are being rapidly brought together by closing the hundred mile gap between them. The mileage September 1st was as follows:

	Miles.
North Division:	
San Francisco to Soledad	143
Hollister Branch	20
San Joaquin Division:	
Goshen to Caliente	96
Los Angeles Division:	
San Fernando to San Gorgonio	100
Wilmington Branch from Los Angeles	22
San Diego Branch from Los Angeles	21
Total operated road at date	402

In addition to the above, track has been laid from the summit of the San Gorgonio Pass southeastward to the White River, 15 miles, and steel rails were going down at the average rate of half a mile per day. It is expected the line will be laid to Dos Palms, about 75 miles east of San Gorgonio, by December 1st, as the grading is nearly, or quite, done for that distance.

It is not certain whether the road will cross the Colorado into Arizona at Fort Yuma, or at a point further up the stream, and nearer the great mining districts of Western Arizona, whose traffic is at present carried by horse conveyance, and whose products will be greatly increased by the proximity of the locomotive. The San Joaquin Division has its temporary terminus at Caliente, practically the foot of the Sierra Nevada range, which here flattens out so as to present a smooth summit of only 4,000 feet elevation. To overcome this rise, however, required some of the most difficult and perplexing engineering science, as the route lies up the narrow gorge of the Tehachapa creek, and in 25 miles the grade has to be so distributed as nowhere to exceed 105 feet per mile. This could only be done by adopting a very heavy and expensive side hill line for half the distance, on which are 12 tunnels, the largest of which is 11,000 feet; but the cuts and embankments in the steep scarps of this canyon are very heavy. Half the work is done on this rugged section, and all the force is employed on it which can be used with advantage—over 3,000 in all.

Once at the Tehachapa summit there is plain sailing across the Palm Plains to the San Fernando range of hills, the summit of which is reached via the Soledad Canon, and is there pierced by a tunnel of 7,000 feet, through soft sand rock. This tunnel is the last obstruction in the way; three shafts have been driven to grade, and men are at work in it from eight faces. By working three gangs upon it night and day, it can be taken out by April next which is quite as soon as the track can reach that point from the north. So that by July next, at latest, the rails will be continuous from San Francisco to the Colorado, 700 miles. At present the San Joaquin Branch of the Central Pacific is made use of for the through traffic, as far as Goshen, until the Southern Pacific have the gap closed between their North Division and the Middle Division via Polonio Pass. This point of junction will be made about midway between Goshen and Caliente.

All portions of the Southern Pacific road are paying their way even in their present disjointed condition. The earnings for 1873 4, with 157 miles operated, were $1,162,738, in coin; while those for 1874 5 are placed at over $2,000,000. The capital stock of the company is $90,000,000. Of the First Mortgage bonds $11,000,000 had been issued at the date of the last report.

Nevada County Narrow Gauge Railroad.

The Nevada *Transcript*, of Sept. 17th, says that freight trains are arriving at Colfax daily with large quantities of iron for the narrow gauge railroad. The depot grounds are filled with iron, ties, cars, and other railroad material. It required six freight cars to transport the two engines and their connections from the East. Each engine weighs twenty tons. They were manufactured at the celebrated Baldwin Locomotive Works, Philadelphia. An engineer from that es-

tablishment is here, and ready to set them up. The track laying force is being organized at Colfax to commence the work of laying the rails. The Bear river and Greenhorn tunnel is completed. The Bear river bridge will be completed this week.

Mobile and Ohio Railroad.

The following is a comparative statement of the earnings and expenses of this road for the years ending December 31, 1873 and 1874:

Earnings:	1873.	1874.
From freight.....	$2,074,794 84	$1,838,923 52
" passengers....	596,605 14	429,630 86
" mails.....	61,727 40	61,727 40
" express.....	68,000 00	60,737 50
	$2,801,127 38	$2,391,019 28
Expenses, viz:		
Repairs of road.....	$529,347 85	$473,632 43
Conducting transp...	865,378 47	731,490 87
Repairs of machinery	552,037 21	404,015 77
General expenses...	77,207 04	74,015 17
	$2,023,970 57	$1,683,154 24
	$677,156 81	$707,865 04

Compared with the year 1873 the gross earnings of 1874 show a decrease of $410,108 10, with a decrease in expenses of $340,816 33, making a decrease in the net earnings of $69,291 77. The report says:

It will be seen that while the decrease in the revenue has been equal to 14.6 per centum the decrease in the working expenses has been equal to 16.8 per centum as against the preceding year.

The decrease in the business of the road, as compared with the previous year, of $410,108 10, is in a measure the result of the general depression of business throughout the whole country, which has been particularly severe upon all Southern enterprises. Yet, notwithstanding all this, it is believed that, had the extension of your line from Columbus to Cairo been made in time to prevent the construction of a direct opposition line from the last named place to Jackson, your revenues for the year would have shown very favorably, as compared with any preceding year's results.

The road bed and equipment have been maintained in fair condition. The expenditures have been limited to actual necessities, and the strictest economy enjoined in every department of the company's service.

Since the first of January, 1875, the system of paying the employees of the company in 30 day warrants, which, the employee's wants compelled him to sell at a discount, has been abandoned, and your labor is now paid promptly in cash; the current supplies, also, are now purchased, as far as possible, for cash; both of which changes will result to the great advantage and economy of the service.

Further efforts are now being matured for diminishing the expenses and increasing the receipts.

The general balance sheet of the company is submitted herewith. Owing to the complicated method of presenting the statements of former years, it is difficult to make a reliable comparison with that of 1873. Your attention is, however, called to the following changes:

The cost of road, etc., shows an increase of $823,708. This is caused by charging this account with the balances to the debit of the several branches, and also with the balance to the debit of the so called "improvement account." These branches are now virtually completed and their several construction accounts closed. All outlays on them are now charged to operating expenses.

The proceeds of sales of lands having been invested in bonds, and the said bonds canceled, in accordance with its trust, the donated lands account shows a reduction of $93,266 09 in the estimated value. This department is now under the control and management of Mr. Murdock, the late President of the company, who reports that the prospect of sales in the future is most excellent: during 1874 there were no sales of any consequence. These lands represent 1,192,464 acres, exclusive of the other small parcels.

Materials on hand show a decrease in value of $176,745 41 as against the previous year, which is to be accounted for, by the amount of old material sold as stated, the amount used in the construction of the Oktibbeha Branch over and above the amount charged against the construction of the said branch, the purchase of new supplies at lower rates than formerly, and by the shrinkage in values since 1873.

The funded debt with the matured and unpaid coupons, and the floating debt, as per exhibits herewith, represent every ascertained liability of the company up to and including the interest which matured January 1, 1875. Your attention is called to the statement of the cash resources of the company during 1874, and their disposition, as per exhibit, also attached. Had it been possible to foresee the actual course of the company's business, so different from the promise of the later months of 1874, the policy of your directors would have been more strictly followed at an earlier date. The holders of the unpaid coupons have, however, thus far withheld from hostile proceedings against the company, thus manifesting confidence in the management as also confidence that with renewed prosperity the net results of the business would be appropriated to their payment. It is imperative that this policy should be rigidly adhered to.

The road is 472 miles in length, extending from Mobile, Ala., to Columbus, Ky., with branches from Narkeeta, Miss., to Gainesville, Ala., 21 miles, from Muldon, Miss., to Aberdeen, Miss., 9 miles, from Columbus, Miss., to Artesia, Miss., 14 miles, and from Artesia to Starksville, Miss., 11 miles—making a total of 527 miles owned and operated by the company, of which 55 miles are branches.

The cost of repairing each mile of road in 1874 was $811 74; repairing bridges and trestles, $86 96—total, $898 70, against $916 41 in 1873. The expense of repairing roadway, as compared with the preceding year, has decreased $55,715 42, although 27½ miles of rails and 260,789 crossties were laid—both increased amounts.

The company have 93 locomotives, 8 first class and 22 second class passenger, 1 company's special, 11 baggage and mail, 6 express, 671 box, 242 platform and 36 stock cars.

The mileage made is as follows: passenger trains, 419,438, freight trains, 556,981; switching trains, 94,786; material trains, 146,858; Branch trains, 54,326; special trains, 20,838—total, 1,292,727; a decrease, compared with the previous year, of 214,294.

Passengers moved one mile south, 4,702,721; do. north, 4,867,565—total, 9,570,286. Tons of freight moved one mile south, 38,143,335; do. north, 13,957,123—total, 52,100,458; a decrease, compared with the previous year: in passenger mileage of 4,613,152, and in freight mileage of 2,101,086.

The earnings per mile of road were: from passengers, $815 23; from mails, $117 13; from express, $115 25; from freight, $3,489 42—total, $4,537 03.

The cost of motive power per mile run of engines is 0.333. The condition of the rolling stock has not depreciated, although there has been a decrease in maintenance of $148,021 44. The expenses of conducting transportation have been reduced $133,887 60.

The Wearing Powers of Steel Rails.

The continued depression of the iron interest, not only in this country but also in Europe, is a subject for thoughtful consideration. The wonderful growth of the iron production of the world from 1835 to 1865 marked it emphatically as the iron age; and during that period was built almost our entire present system of railroads, covering over 73,000 miles of track, and requiring fully 7,300,000 tons of railroad iron in its construction. The annual wear and tear, estimated at about ten per cent, would require 730,000 tons per annum of railroad iron. Since 1865 Bessemer steel rails have been growing in favor and decreasing in cost, and to-day the Bessemer plants of this country are capable of producing 350,000 tons of steel rail per annum. When it is remembered that each steel rail possesses fully seven times the life of an iron rail, is it to be wondered at that so many of our iron rail mills are changing their production to merchant bars? Every ton of Bessemer steel rails that has been put into the railroads of the country for the past ten years has possessed a wearing life, as compared to iron rails, as 70 to 10. It requires very little calculation to estimate the required production of steel rails, not only to cover the entire wear and tear of all our iron roads, but in a few years to replace our iron roads

with steel rails. When this is accomplished there will only be required 73,000 tons per annum to supply the wear and tear that in 1865 required 730,000 tons of iron. This will account in part for the decreased production of pig iron in the country for three years past. In 1872 there were produced 2,854,558 tons of pig iron; in 1873, 2,869,278 tons, and in 1874, 2,689,413 tons—a falling off of about sixteen per cent in the production of pig iron in two years. This is fully equalized by the low wear and tear of the steel rails that had gone into the railroads since 1865.

We are now entering on the steel age, and the iron men of the country must meet the question firmly, understanding not only that the market for railroad iron is almost at an end, but that whenever Bessemer steel supplants the use of wrought iron it not only requires less weight for the given result, but that, the life of steel being so much longer than iron, the wear and tear will be proportionately less. England, France and Belgium have already recognized the soverignty of the new metal, "Bessemer," and are now changing their works to meet the emergency. Shall our iron and steel men, with their justly won laurels for the great production with the Bessemer plants, allow others to step in and rob them their glory?—*Cincinnati Times.*

Union Pacific Railroad.

ANNUAL REPORT OF THE GOVERNMENT DIRECTORS.

The Government Directors in the Union Pacific Railroad have filed their annual report for the year ending July 1, 1875. The gross receipts were $11,522,021, an increase over 1874 of $1,275,869, and the increase of net earnings in the same time were $1,576,424. The operating expenses were $4,788,630. There has been added to the road iron bridges, depots, hotels, shops, &c., costing $309,105, and rolling stock costing $275,920, which were charged to the construction account. Ten hundred and fifteen tons of steel and 4,640 tons of iron rails have been laid down. A rolling mill has been built by the company at Laramie and put in operation, reducing the cost of rerolling their rails to nearly one half. New ties are being furnished the company at fifty cents each for red pine and eighty cents for oak. It costs them to mine coal and put it on the cars $1 99 per ton, the production of the company's mines last year being 185,681 tons. The cattle shipped over the road from Cheyenne and other points eastward were 581 car loads, against 262 car loads in 1874. In reference to this new traffic the Directors say:

"The herds on the plains of the Platte are constantly increasing, while the aggregate number of cattle is becoming fabulous. The plains west of Kearney Junction will soon become one of the chief sources from which the Eastern markets will be supplied with beef cattle. These plains furnish an unsurpassed grazing range, and the lands belonging to the Government and to the company ought to be placed under some well devised system of pasturage, from which profit could be secured to both."

They state that the road was substantially free from obstruction by snow last Winter, though the fall was unusually great. The protection of the road against obstruction by snow has been carried to such a degree that the risks are no longer greater than between New York and Chicago. The washouts of last Spring caused a delay of three days to passengers and ten days to freight, but the means adopted to prevent a recurrence are sufficient to dispel any apprehensions for the future. They recommend localized management, and report many things having been done which doubtless would have remained undone for indefinite periods had there not been more than usual attention to and contact with the line of President Dillon.

They report a reduction of the debt last year of $678,000, and a total of $2,600,000 land grant bonds since the completion of the road, and they see no reason why this reduction of the bonded debt should not be a steady, continuous, and increasing operation, as the road has now a capacity of doing over double its present volume of business without any considerable additional expenditure, or which may not be met by its increasing revenues without any increase of its bonded debt. This increase, they estimate, can be run up to $20,000,000 per annum without any increase of its bonded debt.

They give the history of the efforts of the company to compromize with the Government for its obligations to it. They do not specify any amount for which the Government should compromise, but call attention to the decision of the Court of Claims, that the Government would only withhold one half of the amount of its business, and that the company hold that the five per cent on the net earnings to be paid the Government annually as a sinking fund for the redemption of bonds is not five per cent on the amount left to divide among the stockholders, and quote the Supreme Court decisions in St. John vs. The Erie Railway Company to sustain their position. They favor a settlement by semi-annual payments of some fixed sum for a period of years, to constitute a release of all claims of the Government upon the road for its advances and indorsements. They hold that at the end of thirty years the Government will have saved in the item of transportation $56,846,882, and this without any allowance for the natural increase of business beyond what it was on the completion of the road. The mail service has increased ten tons per day. They conclude by saying:

"The road is a vast and valuable property, well cared for and well maintained, and capable of returning to the Government the investment it has made therein."

Peat for Fuel.

The San Francisco *Bulletin* say the Central Pacific Railroad Company have of late been making a series of fuel tests with peat and newly discovered coal, and then adds:

Last Saturday an experiment with peat from Venice Island, in the San Joaquin river, was made. The results were highly satisfactory. It appeared to answer every purpose of locomotive use, in making heat to generate steam. It burned with about the same rapidity as coal, giving no unpleasant smell or blackening dust. It is the intention of the company to make other tests on a larger scale. The Pacific Peat Company, composed of a number of capitalists, have purchased a thousand acres of peat land on Venice Island and propose to supply the fuel on a large scale.

☞ By the laws of Massachusetts it is expressly provided that "no railroad corporation which has previously issued bonds shall subsequently make or execute any mortgage upon its road, equipment and franchise, or any of its property, real or personal, without including in and securing by such mortgage all bonds previously issued, and all pre-existing debts and liabilities of the corporation." [Laws of 1872 chap. 372.]

Eastern Railroad.

The Boston *Journal* publishes a statement regarding the financial condition of this road, which it believes is impartial in its references and correct in its figures. From this statement we make the following extract:

THE DEBT OF THE EASTERN RAILROAD.

The following are the details of the debt of the Eastern Railroad Company, as near as it is possible to get at them in the absence of official information; we assume that the whole of the Sinking Fund bonds have actually been sold by the Company, which is denied in some quarters, but we have authority for the statement that the floating debt is $2,200,000, and the aggregate $15,000,000, in round numbers.

$1,854,400	Bonds 6 per cent	$111,264
959,000	Bonds 1887, 7 per cent	67,130
2,919,900	Sterling 6 per cent, gold	175,199
	Premium on gold 15 per ct.	26,279
178,000	Notes at 6 per cent	10,680
3,523,900	Notes (10 years) 7 per ct.	246,673
2,000,000	Sinking Fund 7 per cent	140,000
$11,430,200	* Funded debt, Mar. 1, '75.	
855,800	† Not classed 7 per cent	59,906
2,200,000	Floating debt 7 per cent	154,000
514,000	‡ Portsmouth, Gt. Falls and Conway 7 per cent.	35,980
$15,000,000	Debt, giving interest	$1,026,806
	Portland, Saco and Portsmouth rent	150,000
	Portsmouth and Dover rent	12,000
	Wolfboro' Branch rent	5,820
	Newburyport City Railroad rent	6,000
	Total interest and rents	$1,230,626

* Funded debt as officially reported, including the $2,000,600 sinking fund bonds proposed for, March 1, 1875.

† Not classed. Understood to be mortgages on land in Charlestown, about half a million, and balance for purchase of Maine Central stock within six months.

‡ Guaranteed by Eastern Railroad and a part of its debt.

New London Northern Railroad.

G. W. Bentley, Esq., Superintendent of the New London Northern Railroad, has just completed the preliminary examination of a proposed branch from the New London Northern Railroad to Turner's Falls. The route examined is one that has been surveyed for other lines, mostly; leaves the New London Northern Railroad at South Montague, and reaches Turner's Falls by a very easy route of five or six miles. It is believed the road can be built for $12,000 per mile. Such a line would give the manufacturers at the Falls—whose freight last year was over 100 tons a day—communication with New York over one continuous line, instead of over four as at present, insuring a material reduction of the present freight rates. Mr. Bentley was favorably impressed with the appearance of things, and said he should call a meeting of the directors at once, having no doubt but that they would decide to go ahead, and that the road might even be put in running order this fall. It is thought that should this line be built the Connecticut River Railroad will be obliged to build a competing branch from Greenfield.

☞ The Corning and Sodus Bay Railroad has passed into the hands of the Corning, Cowanesque and Antrim Railroad Company, which will speedily push it through to Geneva, giving a northern outlet for coal from the Fall Brook mines, and a connection with the New York Central Railroad.

Cotton Crop of the United States.

The production of Cotton in the United States during the years ending September 1, 1874 and 1875, according to the Financial Chronicle, compares as follows:

	1875. Bales.	1874. Bales.
Receipts at the shipping ports	3,497,169	3,804,290
Add shipments from Tennessee, &c., direct to manufacturers	205,339	237,572
Totals	3,702,508	4,051,862
Manufactured South, not included in above	130,483	128,526
Total cotton crop for the year	3,832,991	4,170,388

The movement through the ports has been as follows:

	1875. Bales.	1874. Bales.	Exports. Bales.
Louisiana	993,775	1,221,698	995,270
Alabama	320,822	299,578	181,841
South Carolina	438,897	438,194	275,130
Georgia	603,246	625,857	423,235
Texas	368,288	389,045	224,284
Florida	10,982	14,185	44
North Carolina	101,715	57,895	12,673
Virginia	418 114	505,876	67,212
New York	158,228	209,689	445,172
Boston	39,666	24,680	36,259
Philadelphia	32,161	16,404	26,090
Baltimore	8,132	6,431	44,567
Portland	2,148	8,748	....
San Francisco	.....	.....	431
Totals this year	3,497,169	.....	2,684,708
Totals last year	.....	3,801,290	2,840,981
Stocks	66,059	108,152	....

The exports of the two years compare as follows:

	1875. Bales.	1874. Bales.
To Great Britain	1,893,708	1,867,836
To France	359,699	370 865
To other foreign countries	431,301	602.180
Totals	2,684,708	2,840,981

The Home consumption of Cotton by the Northern mills was 1,062,522 bales, which, with the Southern consumption of 180,483 bales, makes a total consumption in the United States of 1,193,005 bales.

The Coal Trade.

The anthracite coal trade is now without special feature. It has been agreed by all the companies in the coal combination to advance the prices of stove and egg coal ten cents per ton on the 1st of October, all the other sizes of coal remaining at present prices. It has also been agreed that the Delaware, Lackawanna and Western Company and the Delaware and Hudson Canal Company shall not produce coal for competing points for the first two weeks in October, thus affording the Reading Railroad, the Lehigh Valley, and other companies in the combination opportunity to make up the proportion of tonnage to which they are equitably and by the terms of the combination entitled, and are now short of by reason of coal suspension at the beginning of the year. The stock of coal is now ahead of the market, and it is doubtful whether the two weeks' suspension by the two companies named will enable the demand to catch up with the supply. We understand good feeling prevails among the several companies to the combination, and that it is altogether probable that the present policy of the trade will be continued—that is, the policy of a monthly increase of the prices of coal and an equitable division of tonnage among the several companies in the trade. Nearly all the companies advertise their prices of coal for October, which show the advance of 10 cents per ton, as named above. By the last report the tonnage for the week ending on the 18th instant was 557,453 tons, and for the year 13,480,475 tons, against 14,013,731 tons to same last year, a decrease of 533,256 tons. The bituminous tonnage for the week was 93,875 tons, and for the year 2,616,053 tons, making a total of all kinds for the week of 651,328 and for the year of 16,096,528 tons, against 16,542,048 tons to the same time last year, a decrease of 444,520 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 100,953 tons, and for the year 2,940,736 tons, of which 2,387,536 was coal and 466,108 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 25th instant there were receipts of 70,000 tons of coal, shipments of 65,000 tons, leaving 150,000 tons on hand. We continue to quote freight charges to New York at 85 cents, to Providence at $1 30@1 35 and to Boston at $1 50@1 60 per ton. There is little movement yet in the iron interest, and until there is some activity among the iron makers the coal trade will be neither large nor active. The indications are that the productive capacity of the Eastern States, including, of course, Eastern Pennsylvania, has far outgrown the Eastern consumptive demand, and as they have practically lost the Western markets the prospects are far from bright for Eastern furnaces for some time to come. The furnaces of the West, Southwest and South, many of which can make iron at less cost than our Eastern works, and have the freights to the Western markets in their favor, are absorbing nearly all the Western heavy iron business, and, it is thought, will continue to do so even when trade revives. New furnaces and works will be built there, and may find profitable employment, while some of our Eastern works will be idle for want of paying orders. The retail demand for fuel for winter use is as active as usual, indeed, some of the retail yards are considerably behind in their deliveries. At Boston the arrivals of anthracite have been large, and both dealers and manufacturers are now heavily stocked. The sales have ranged from $7@8 25, as to quality, and cargo prices are nominally $6 50@$7 per ton. In bituminous the outlook with many of the dealers is not regarded bright, owing to the continued dullness prevailing among manufacturing, steamship and railway companies. Very low sales are reported, notably $4 15 for Cumberland at Baltimore $5 25 at Fall River from Georgetown (freight and insurance, $1 45). Sales of Pennsylvania bituminous coal are reported at rates that net about 75 cents a ton at the mines. All this is very unprofitable business.—*Phila. Ledger*, Sept. 27.

Rutland Railroad.

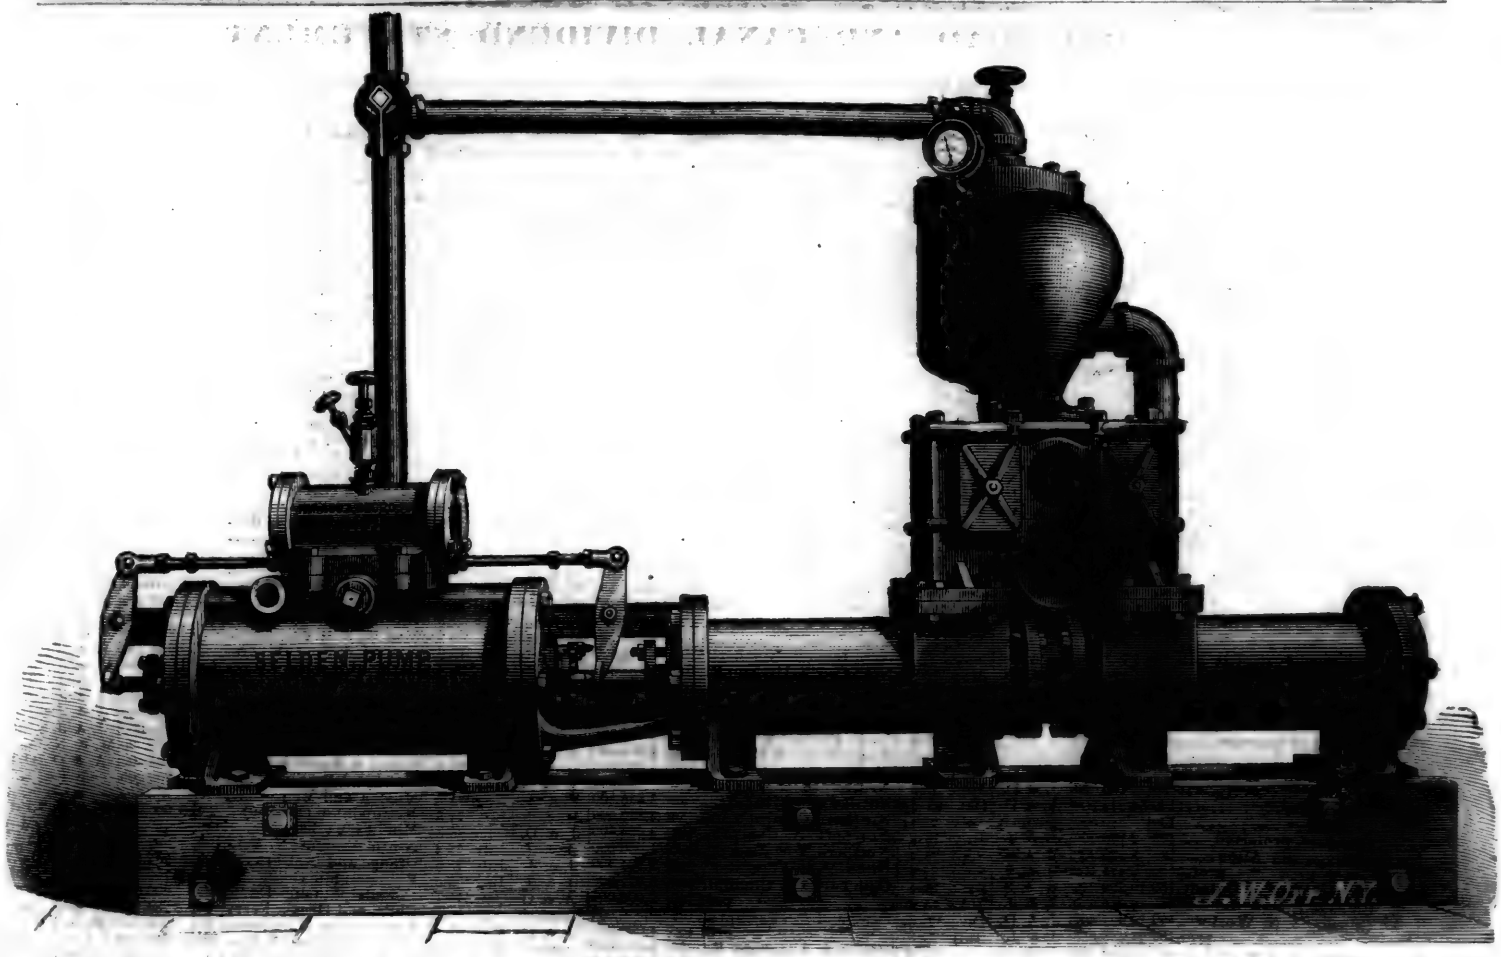
Thomas H. Perkins, Estes Howe and James W. Emery of Boston, holders of trust securities of the Vermont Central and Vermont and Canada Railroads to a large amount, have filed a petition in the Court of Chancery for Franklin county, setting forth that the lease of the Rutland road to the receivers and managers was procured by means of fraudulent concealments and false representations on the part of the officers and representatives of the Rutland road, and praying that it may therefore be declared void; also, praying that the Rutland Railroad Company may be ordered to refund to the receivers and managers the amount expended by them in putting the Rutland road and branches leased with it in proper and safe running condition, and all rent paid by them under said fraudulent procured lease, over and above the actual net earnings of the Rutland road since it has been under the management of the receivers as lessees; and further, praying that the receivers and managers may be ordered to hold the Rutland road and all its property as security until such amounts of money due from it be ascertained and paid, and on payment of the same to deliver up possession of said Rutland Railroad and property. No time of hearing on this petition has yet been announced, but it will probably come up on the 1st of October, to which date was adjourned the hearing on the Rutland Railroad Company's petition for the surrender of its road. —*Boston Journal, Sept.* 25.

Iron Shipbuilding.

The Wilmington (Del.) *Herald*, commenting on an article of the Baltimore *Sun*, on "Iron Shipbuilding," says that the City of Peking and her consort, the City of Tokio, American vessels which are going to pieces as the result of imperfect workmanship, are not fair samples of the work done in this country, and then adds:

It is a fact well known to all persons interested in shipping matters that the building of iron ships has been successfully conducted on the banks of the Christiana for more than twenty five years. During that time more than two hundred ships have been constructed which are now running and doing good service. Some of them have encountered the most trying perils, but have in all cases come out as strong and staunch as ever, and no complaint has ever been made of weakness or slighted work.

The Harlan & Hollingworth Company of Wilmington commenced building iron ships in 1848, and up to this time have constructed about one hundred and sixty ships, many of them being large seagoing steamers. Pusey, Jones & Co. commenced the business at a later date, and have built about sixty ships. Messrs. Cramp & Son, of Philadelphia, have built a large number of ocean steamers for the American line to Liverpool, and Clyde's New York and Havana line.



Chesapeake and Ohio Canal.

The regular monthly meeting of this company was held at Annapolis, Md., on the 14th ult. The revenue accrued for the month of August was $64,685 38, an increase over August, 1874, of $705 53. The coal tonnage for the month was 119,349 tons, an increase of 12,475 tons over August, 1874. Expenses of the month for operating and maintaining canal, pay of officers, &c., were $21,864 67; for operating wharves at Cumberland, $1,312 07; cost of repairs to Rock creek dam and other damages caused by heavy rains, $2,692 03; total expenses for the month, $25,868 77. The net revenue for the month was $39,266 61. The balance in the treasury as of September 4 was $100,416 46. The board appropriated $50,985 to pay the over due coupon on the preferred construction bonds of the company due January 1, 1863. This is now being paid on presentation at the banking house of Alex. Brown & Sons, Baltimore, Md.

The "Selden" Plunger Pump.

The great and increasing demand for water pumps from villages and towns just growing into the necessity for a larger and more certain water supply than can be depended on from the primitive system of wells and rainfall on roofs, is, we think, a sufficient reason for presenting a somewhat detailed account of one of the leading pumps of this class. The illustration represents a direct, double action plunger pump as used for mining and city water works, the centers of the steam and water cylinders being placed in one straight line, (either vertical or horizontal) thus constituting a direct action pump, in contradistinction to those where the power is transmitted from an engine or other motor to a separate pump. It will be seen that the steam is applied to the steam piston and the power is transmitted "direct" to the water plunger which is fastened to the opposite end of the piston rod; the power is therefore all expended in doing useful work excepting the very slight friction of the packing.

The steam piston has self adjusting spring ring packing, requiring no attention whatever from the engineer in charge. There are two steam valves, the auxiliary and main valves, both flat faced slide valves, working on a common face. These valves constitute a very marked feature of this pump; their extreme simplicity and certainty of action and the ease with which they can be faced after much use, giving them such a great advantage over the more complicated forms of valve

movement. A glance at the illustration shows that no "hand lever" or "starting bar" is used; simply because none is needed with these valves.

The easy, smooth manner in which this pump reverses at the end of each stroke, and the consequent absence of pulsation in the discharge pipe, demands notice, and constitutes one of its especial claims as a water works pump, where the "thumping" action of a badly constructed pump is so mischievous to the mains, especially where the pressure is heavy. This steady and continuous flow in the force mains is produced partly by the proper proportioning of the steam passages, and partly by the arrangement of the water valves.

In this pump the steam and exhaust pumps are opened simultaneously at the commencement of the stroke and remain open to the end, when they are similarly opened for the return stroke.

The result of this is, that a steady flow of steam follows the steam piston, giving it a uniform velocity which is communicated to the water in the main. Keeping the above in view it will be evident to any one acquainted with steam that—as compared with a steam engine having a similar cylinder this pump will not require so large steam passages even if its piston moves as fast as the average for the engine. When it is added that the piston velocity of the pump is rarely over 100 feet per minute for large sizes the difference will appear more evident, since the engine piston would generally be more than three times the speed. By pushing this comparison farther so as to include the "lap", "lead" and "cutting off" of an ordinary engine valve we will find that this pump will be better supplied with steam than the engine if its ports are from ½ to ¾ the area allowed for fast running engines.

The great shock delivered to the pump and the water in the mains by instantly admitting steam, and releasing it from the opposite end of the cylinder through large ports, is here totally avoided; in this pump the steam and exhaust passages are reduced to the size found necessary by actual experience to ensure a free admission of steam when the pump is doing its maximum duty, thus avoiding the waste resulting from filling and emptying large ports, and producing the easy admission and emission of steam which makes this pump so remarkably free from thumping in its action.

These pumps are frequently fitted with condenser and circulating pump, the boilers being fed from the hot well and give excellent results for the coal burned. The action of the steam cylinder and condenser is best shown by indicator diagrams—copies of which taken from these pumps under different conditions will be supplied by the builder on application, as their reproduction by explanation here would be too lengthy.

We now come to the water end of the pump which consists of two water cylinders, having one plunger working into both. For sizes over six inch plunger the suction chamber is under the cylinder, the bed being cast hollow for this purpose; between the cylinders and the top of the bed which forms a common chamber for both, two valve plates are placed on which the suction valves work: two similar plates (exact duplicates) are placed over the cylinders and covered with a discharge chamber common to both, all the valves being exact duplicates, and consequently interchangeable. These plates are very easily accessible for cleaning or removal.

The action of the water valves remains to be considered, and for the purpose of making this very important feature distinctly evident we will refer to the action of badly arranged water valves. With any valve where the lift is high (and the usual round valves covering a circular opening must lift half the radius of the opening to give the required area) the "slip" must be great, that is, some of the water which has been drawn through the valves, or forced through the discharge valves, "slips" back again when the pump reverses, before the valves, thus actually producing a return current from the main back again into the pump, and from the pump into the suction pipe; before the valves seat under these circumstances the plunger has reversed and is following the water up with considerable velocity (often greater than the average velocity of the pump), the valves now seat with a heavy thump from the return current on their backs, the plunger coming instantly against the solid column of water just as a "ram" would against a solid wall; even this comparison being too weak, since water is much harder than any wall.

This common and mischievous evil is avoided in the "Seldon" pump by giving the valves a very short lift, the requisite area of discharge being obtained by using a number of long narrow ports with a length of about six times the breadth, thus in the aggregate presenting a very long admission and emission edge. These valves seat easily and quickly, so that the plunger reverses at once against the column of water before it acquires any perceptible velocity, and before the flow of water in the discharge main has noticeably stopped, producing as referred to before, the smooth steady action for which this pump is so celebrated.

The valves are flat rectangular pieces either of brass or faced with rubber or leather, and can be taken out from the small pumps in a few seconds, and from the large water works pumps in from one to two minutes. In emergencies flat pieces of wood can be used till duplicate valves are procured.

This pump was patented in the United States in 1870, since which time some very expensive and important experiments have been made, resulting in several valuable improvements which have been patented, making it as now built one of the finest pumps in the United States. It has been successfully introduced into the mines in Saxony, is patented in England and represented and largely manufactured by one of the leading firms there (J. H. Wilson & Co. Liverpool). More detailed information on particular points may be obtained from the proprietor and builder, Mr. A. Carr, 43 Cortlandt st., N. Y.

American Railroad Journal.

Saturday, October 2, 1875.

Financial and Commercial Affairs.

Money has been in fairly active demand. The supply, however, has been ample for all pressing requirements from responsible sources of inquiry for aid. The speculative call has been quite readily met within the range of 1¼@3 per cent to the leading Street houses. Commercial paper has not been offered with much freedom, especially considering the increased animation reported in some lines of business, notably so in Dry goods, boots and shoes, hardware, foreign fruit, leather, provisions, and breadstuffs. Best mercantile credits have been rated at from 5@7 per cent per annum. The loan and discount line of the City banks has been augmented quite largely during the week, while the bank deposits have been drawn upon by depositors to the extent of nearly four millions, which changes more directly indicate the enlarged wants of the commercial interests, growing out of the Fall trade, which, though late in its full revival, is now developing much more encouragingly than was anticipated a week or two ago. The U. S. Sub Treasury has been a loser of currency to the extent of about half a million dollars, while adding over a million and a half to its coin reserve. The European advices have been of hardening money markets in England and on the Continent, notably so at London, and Berlin. The commercial reports, by cable, have not been of a very pronounced tenor one way or another. Breadstuffs have been quoted stronger; as also Provisions and Scotch Pig Iron. Cotton, weaker. The City Banks last week diminished their re-

serve of legal tender notes $616,100, their deposit item $3,927,100, and their specie average $117,300. They report an increase of $3,030,500, in the loans and discounts and of $179,500 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $58,617,813, against $59,085,232 the preceding week; and a coin hoard of $36,408,678 against $34,825,855 on the previous return. The City bank exchanges in currency during the week were $405,863,315, or a daily average of $67,643,886. The customs revenue of the port, during the week, was $2,643,000. The City banks reported their average of gold last week at $7,269,200, and their greenback average at $67,321,900. Their deposits stood at $285,954 200. The loan item was $285,102,300. The circulation was $17,924,300.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $15,602,550.

The aggregate of the outstanding U. S. currency, of all denominations, September 1, was $415,938,229. The outstanding amount of legal tender notes is $374,245,708. The National bank circulation is now $347,720,223, including $2,640,000 of national gold bank notes.

The specie shipments from San Francisco, January 1, to Sept. 23, were $40,500,000.

On Tuesday, of this week the cash balances of the Treasury Department at Washington were: of Currency $3,007,178; special deposit of legal tenders for the redemption of certificates of deposit, $61,285,000; Coin, $66,886,069; Coin certificates $12,466,000.

The week's import entries of Foreign Merchandise at New York, were $6,292,249, and included of dry goods $2,377,585.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 28½ millions.

Gold has been quoted steadier, and toward the close stronger. The speculative movement has been fairly active. The customs drain fair. The exports of specie have been light, and almost equalled by the imports. A cable dispatch from Southamption advised on Tuesday of a shipment of £28,000 sterling by the *Donau*, for this port. The extremes of the week have been 116⅛@117, closing on Wednesday at 116⅞, as against 116½ on Wednesday of the preceding week. The specie outflow last week was only $280,345 against $343,500 the previous week. The imports of specie at this port since Jan. 1, have been $8,800,150, against $4,786,987 same time last year. The customs demand for Gold last week averaged $440,500. Foreign Exchange has been moderately active, but variable in; price at the close quoted heavy. Bankers' sixty day bills on London closed on Wednesday at $4 79@$4 80; sight bills on London at $4 83@$4 84½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,100,294. The week's imports of Dry Goods and general merchandise were to the specie value of $6,292,249 against, $7,503,092 same week last year.

Government Securities have been in unusually good demand for home investment purposes, and prices have been strengthening as the week advances. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation is $372,150 762.

U. S sixes of 1881 closed on Wednesday of this week at 123¾@124¼; U. S. Five-Twenties of 1864, at 119⅜@119⅝; U. S. Five-Twenties of 1865 119¾@120; U. S. Five-Twenties of 1865, consolidated, 119⅜@119⅝; U. S. Five-Twenties of 1867, 121@121⅛; U. S. Five-Twenties of 1868, 121¼@121½; U. S. Ten-forties at 117¾@118; U. S. Fives of 1881, (Funding Loan) 118⅛@118⅜; Six per cent. currency Sixes, 124@124½.

State and Railway bonds have been in fair demand; and the more substantial loans, bearing assured income to investors, have been quoted firm. And in the line of Railway and Miscellaneous share property, business has been moderately active, with prices early in the week ruling generally lower, but toward the close rallying to some extent, and giving promise of renewed steadiness, if not buoyancy.

More activity has been reported in the leading kinds of domestic produce. Breadstuffs, Provisions and Naval Stores have shown more firmness. Cotton lower under the very heavy arrivals at the shipping ports. Groceries rather tamer. Metals somewhat brisker. Pig Iron selling more freely, particularly American, which, however, ruling low in price. Iron and Steel Rails in better demand. Eglinton Pig Iron quoted here at $29@$30; Glengarnock, $32@$32 50; Coltness, $32@$33; No. 1 American Pig at $25@$26 50; No. 2 do. at $23@$24 50; Forge, $20@$22 50; English Rails at $48@$50, gold; American Rails, at works, $46@$50; Old Rails, $24@$26 00. Wrought Scrap, $31 50@$33 50; some holders asking more. Ocean freights have been fairly active, Grain, Cotton, Flour, and Provision room having been in most demand; and at the close quoted stronger as to rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Morris and Essex Const., 101½; Lehigh and Wilkesbarre 7s, consol., 95¼; Canada Southern, coupon on, 40; Chesapeake and Ohio 1st mort., ex-coupon, 27; Clev., Col., Cin. and Ind. 7s, consol., 98⅛; Galena and Chicago 1st mort., 106½; Central Pacific Land Grant bonds, 95; Delaware and Hudson Canal reg. 7s, 1877, 103; New Jersey Southern R. ☞ Mr. Andrew McKinney, the recently appointed Receiver of the New York, Boston and Montreal Railroad, has put about one hundred men to work between Highbridge and North Yonkers, to complete the construction of the road between the points indicated by the middle of October, if possible.

Interest and Dividends.

Coupons of the Central Pacific Railroad Company Land Bonds, due October 1, 1875, will be paid at the office of the company, No. 9 Nassau street.

The regular quarterly dividend of one and one half per cent. on the capital stock of the Pacific Railroad (of Missouri) will be paid on the 20th of October at the office of the Atlantic and Pacific Railroad Company, No. 3 Broad St. New York.

Coupons of the First Mortgage bonds of the Southern Pacific Railroad Company (of California) due October 1, 1875, will be paid at the office of the company, No. 9 Nassau St., New York.

The Central Railroad Company of New Jersey have declared a quarterly dividend of two and a half per cent, payable October 20th, at the office of the company, 119 Liberty Street, N. Y.

Coupons of the First mortgage bonds of the Central Pacific Railroad Company, (San Joaquin Valley Branch) due October 1, 1875, will be paid at the office of Fisk & Hatch, No. 5 Nassau Street.

The coupons of the Keokuk and Des Moines Railway Company, due October 1, 1875, will be paid at the National Bank of the State of New York, No. 33 William Street.

Panama Railroad.

At the regular meeting of the Panama Railroad Company, held at the office of the company, No. 7 Nassau street, this city, on the 28th ult., a statement of the condition of the corporation was presented by the Secretary, from which it appears that notwithstanding the Colombian war the company has been highly prosperous—the earnings having been largely in excess of those of any former year since the existence of the company. Mr. Philo C. Calhoun, President of the Fourth National Bank, was elected a director in place of Mr. Emmett, resigned. A regular quarterly dividend of three per cent was declared payable on the 15th of October.

Illinois Central Railroad.

During the month of August, 1875, 838.39 acres of Land were sold for $6,621 90. The Cash collected on Land Contracts was $11,755 79. The Traffic on the Main Line in Illinois was $508,663 98, against $572,108 24 in August, 1874. The Traffic on the Iowa Lines (leased at 35 per cent of gross receipts), was $142,688 45, against $139,860 74 in August, 1874.

☞ The grading of the Chester and Lenoir Railroad from Dallas to Lincolnton, N. C., has been let, and the contractors began work last week. The distance is about fifteen miles. The grading is already completed from the present terminus of the road at Yorkville, S. C., to Dallas.

☞ The traffic receipts of the Pennsylvania Railroad Company for the four months ending September 1 were $10,731,000 and the expenses $6,783,000, leaving a net earning of $3,948,000. The net earnings of the past eight months were $6,923,400.

☞ Work on the Delaware Shore Railroad has been resumed under the direction of the sub contractors. The contract for laying the rails has been entered into, the work to be done by the first of December.

☞ The earnings of the Philadelphia and Erie Railroad in August, 1875, were $333,429, the expenses $218,346, and the net proceeds $115,082.

☞ A dispatch from Australia says a committee on railways has recommended the construction of thirty-one lines, aggregating nearly 1400 miles, 800 of which, they urge, should be constructed at once.

☞ The Perkiomen branch of the Philadelphia and Reading Railroad, connecting Allentown, Pa., with Philadelphia was opened on the 27th ult.

Official List of Patents Issued by the United States Patent-Office.

[For the Week ending September 25, 1875.]

MECHANICAL AND RAILROAD.

167,385. Car platforms, G. M. Brill, Philadelphia, Penn.

167,392. Ratchet drills, H. C. English, Wilmington, Del.

167,398. Derricks, B. Freeman, E. Attleborough, Mass.

167,401. W. H. Harrison, Livermore, Col.

167,405. Car trucks, R. McNulty, Nashville, Tenn.

167,408. Direct acting engines, J. R. Paddock, Chicago, Ill.

167,420. Nail cutting machines, W. Wickersham, Boston, Mass.

167,421. Car replacers, O. J. Williams, Buffalo, New York.

167,438. Boilers, J. F. Daniels, Boston, Mass.

167,441. Furnaces, F. P. Dimfel, Baltimore, Md.

167,448. Furnace boiler, W. F. Grassler, Muncy, Penn.

167,454. Car couplings, E. Lewis, Dover, Del.

167,461. Machines for punching boiler plates, J. Morgan, Pittsburg, Penn.

167,467. Feeding air to furnaces, W. J. Oneal, Newport, Ky.

167,472. Die stocks, V. J. Reece, Greenfield, Mass.

167,477. Car couplings, A. Smith, Omaha, Neb.

167,498. Rotary engines, J. Adams, Mattoon, Ill.

167,499. Railroad switches, C. C. Coats, Newark, New Jersey.

167,509. Steam engines, H. Davey, Leeds, Eng.

167,522. Bolt and rivet machines, J. C. Gitz, Philadelphia, Penn.

167,528. Car starters, R. E. Hastings, Philadelphia, Penn.

167,532. Railway signals, F. Heckmon, Reading, Penn.

167,568. Air engines, A. K. Rider, Walton, N. Y.

167,598. Railroad rail joints, A. H. Witmer, Cincinnati, Ohio.

MINING.

167,392. Ratchet drills, H. C. English, Wilmington, Del.

167,442. Tunnelling machines, O. B. Dowd, N. Y.

167,456. Earth augers, W. Lowe, Webster, Mich.

167,465. Cartridge cases for blasting, P. A. Oliver, Wilkesbarre, Penn.

167,486. Amalgamators, C. H. Aaron, San Francisco, Cal.

SHEET METAL,

167,412. Machines for corrugating sheet metal, W. B. Scrife, Allegheny, Penn.

167,504. Metalic vessels, E. T. Covel, New Bedford, Mass.

167,554. Soldering machines, L. P. Meriam, London, Eng.

☞ A meeting was held in Cincinnati on the 22d ult. of delegates chosen in Southern Indiana and Northern Kentucky, along the proposed line of the Chicago and South Atlantic Railroad. The principal topic of discussion was the route between Indianapolis and through Kentucky, on which no definite action was taken. A number of the delegates spoke encouragingly of the prospect of getting right of way and liberal subscriptions. The road is intended to connect Chicago, Ills., and Charleston, S. C. Much has been done at both ends of the line, but there is a long stretch in the middle, where the line has not been established.

Commerce of New York.

The foreign imports at New York for the month of August, 1875, are officially stated as follows:

	1874.	1875.
Entered for consumpt'n.	$16,661,136	$15,224,134
Do. for warehousing	7,729,850	8,332,009
Free goods	7,710,581	7,611,872
Specie and bullion	941,489	866,477
Total entered at port	$33,043,056	$31,534,492
Withdrawn fr. wareh'use	8,373,117	9,704,702

The foreign imports at New York for eight months from January 1, were:

	1874.	1875.
Entered for consumpt'n.	$121,654,776	$106,548,986
Do. for warehousing	83,445,893	71,797,178
Free goods	76,713,217	63,838,421
Specie and bullion	4,009,897	8,721,435
Total entered at port	$284,823,783	$250,906,020
Withdrawn fr. wareh'se.	73,870,841	66,781,570

The duties received at New York for eight months ending August 31, were:

	1874.	1875.
January	$10,042,084 05	$8,072,846 12
February	10,186,365 08	11,811,046 95
March	10,793,792 81	10,323,619 78
April	9,596,770 71	9,603,087 82
May	8,369,597 45	7,474,171 61
June	7,899,243 17	6,656,462 06
July	9,654,569 49	9,273,546 61
August	11 802,593 20	11,417,505 51
Total	$78,345,015 96	$74,632,286 46

The exports from New York to foreign ports in the month of August, were:

	1874.	1875.
Domestic produce	$23,945,524	$19,715,518
Foreign free goods	222,271	60,785
Do. dutiable	417,064	478,046
Specie and bullion	7,316,307	3,966,661
Total exports	$31,901,166	$24,221,010
Do. exclusive of specie.	24,584,859	20,254,349

The exports from New York to foreign ports for eight months from January 1, were:

	1874.	1875.
Domestic produce	$188,059,699	$160,586,206
Foreign free goods	1,499,114	1,501,796
Do. dutiable	4,912,033	4,180,384
Specie and bullion	40,438,701	60,290,300
Total exports	$234,909,547	$226,508,686
Do. exclusive of specie.	194,470,846	166,218,386

Cotton Crop of the United States.

According to the report of the National Cotton Exchange at New Orleans, the Cotton crop of the United States for the year ending September 1, 1875, is estimated at 3,827,845 bales. Of this amount, 2,674,448 bales were exported to foreign ports, and 1,200,473 (including 126,550 bales consumed at the south) were taken by spinners in this country, leaving a stock on hand, as of September 1, of 71,413 bales. During the year there were received at New Orleans 993,482 bales, at Norfolk 387,279 bales, at Mobile 320,822 bales, at Savannah 606,727 bales, at Galveston 354,927 bales, and at Baltimore 18,512 bales. The exports to foreign ports were: From Norfolk 67,212 bales, from New Orleans 995,270 bales, from Charleston 264,305 bales, from Savannah 423,235 bales, from Baltimore 37,709 bales, and from New York 445,389 bales. From Norfolk to coastwise ports there were transferred 826,281 bales, and from Richmond and City Point, Va., 32,385 bales. The Sea Island crop was 16,687 bales, including 8,139 in Florida, 1,074 in Georgia, 7,308 in South Carolina and 166 in Texas. The average weight of the crop was 468 pounds per bale, and of the Sea Island cotton 392 pounds per bale.

Liability of Carriers.

In the case of Henderson against Stevenson, the British House of Lords decides that carriers cannot, by arbitrary printed notices which a passenger may or may not see, avoid responsibility for safe carriage. The following is an abstract of the decision at the head of the report:

"The respondent became a passenger in a steamer of the appellants from D. to W., and on paying his fare received a ticket from the clerk of the appellants, on the back of which was printed a notice exonerating the appellants from liability for loss, injury or delay to the passenger or his luggage, however caused. There was no evidence that the respondent had been made aware of this condition before or at the time that he took the ticket. During the voyage the steamer was lost by the negligence of the servants of the appellants, and the respondent lost his luggage and suffered other damage and inconvenience. Held that, in the absence of proof that the respondent had assented to be bound by the condition endorsed on the ticket, it was no defence to an action by him to recover the loss he had sustained."

☞ At the invitation of the officers of the Connecticut Western Railroad Company a large party, composed of the leading business men of Hartford, Springfield, New Britain and other places, made an excursion on the 22d ult. over the Connecticut Western Railroad to Rondout, via the newly completed Rhinebeck and Connecticut Railroad. The gentlemen were shown the terminal coal facilities at Rondout, and the advantages now presented by the Connecticut Western and Rhinebeck and Connecticut Railroads as a new line for quick and cheap freightage to and through New England from the West. The completion of this line makes a new freight route west from Boston, via Hartford and Rhinebeck.

☞ The Woodstock Railroad, which has just been completed, runs from White River Junction, Vt., to Woodstock, Vt., is fourteen miles long and was commenced several years ago, but for various causes the completion was delayed until the present season. It passes through some of the grandest scenery on the continent, crossing "Quechee Gulf," a yawning chasm—rivaling Watkins's Glen and Niagara River—by a suspension bridge 200 feet above the water.

☞ Operations were commenced on the 20th ult. under the contract recently awarded to Mr. N. C. Munson for the construction of a portion of the new road running from Greenfield, about eight miles in a direct line toward the Hoosac tunnel.

☞ A preliminary survey is being made by the Green Mountain Narrow Gauge Railroad Company from Wilmington to West Dover, Vermont. Both places are in Windham County.

☞ Experiments are to be made on the Providence and Worcester Railroad with petroleum instead of coal for fuel, on several of the locomotives.

☞ It is expected the contractors will have the new North Brookfield Railroad ready to receive the rails by October 15.

☞ The fiftieth anniversary of the establishment of railways in Great Britain commenced at Darlington, England, on the 26th ult.

Bonds of the City of Houston, Texas.

An adjourned meeting of the holders of the bonds of the City of Houston, Texas, was held on the 28th ult. at the office of J. C. Chew, the financial agent, No. 29 Broadway, the object being to adopt some plan for the refunding and consolidation of the debt of that city. The bonds in question are of various issues, some bearing seven, some eight, but the greater part of them ten per cent. interest. Some have, it is alleged, been illegally issued. The city being unable to pay the present rate of interest proposed to consolidate its entire outstanding obligations, waiving all illegalities, and replace the present bonds with a new issue bearing six per cent. interest. The bondholders contended for eight per cent. but finally a compromise was affected, and the following resolutions were unanimously adopted:

Resolved, That the holders of the bonds of the city of Houston, Texas, in convention assembled, after full and free discussion with the financial agent of the city of Houston, of the proposition of said city in regard to refunding and consolidating its debt, do hereby propose to accept a bond of said city at the rate of 7 per cent. per annum, in lieu of bonds now held by them—it being the distinct understanding that such new issue of bonds shall be made by the action of the city authorities of Houston and the Legislature of the State of Texas as will fully guarantee an assessment and collection of a tax sufficient to meet and pay such interest and principal as it becomes due.

Resolved, That a committee of three be appointed by the chairman of this meeting to confer with the financial agent of Houston as to the carrying out of the details of the above resolution.

In pursuance of the above resolutions the chairman appointed the following gentlemen: Albert H. Nicolay, Jno. J. Van Nostrand and R. H. Arkenburgh. The new issue will amount to about twelve hundred thousand dollars.

Boston Water Loan.

The proposals for the City of Boston Water Loan were opened on the 25th ult., and the following awards were made: E. Atkins & Co. $100,000 at 9 per cent. premium; and Richardson, Hill & Co. $900,000 at 8 3 100 premium. The Bonds will be dated October 1, 1875, and will be due thirty years from that date, bearing interest (semi annually in April and October) at 5 per cent per annum, both principal and interest payable in gold. The loan will be issued in certificates of one thousand dollars each, with interest coupons attached, or in registered certificates of any amount of even thousands. The total amount of the bids amounted to $7,224,000.

Improved Sugar Machinery.

Messrs. Morris, Tasker & Co., of Philadelphia, are now shipping a large amount of machinery to be used in Louisiana in a new process of manufacturing cane sugar. The method is what is known as the diffusion process, as distinguished from the maceration process, which is that of all previously constructed sugar machinery. The cane is passed between rollers by the old method and the juice squeezed out. In the new, the cane is sliced and the saccharine matter is dissolved out of it.

☞ The Ohio Construction Company has abandoned the contract for building the Atlantic and Lake Erie Railroad, and a new company with a capital stock of one million dollars, has been formed, with a view to pushing the road to a speedy completion.

Michigan Central Railroad.

The Directors of the Michigan Central Railroad Company have issued a statement, explaining that the reason the company has paid no dividends for the past three years is that they have deemed it best to apply the amount to putting down steel rails and thoroughly equipping the road. The railroad war, they say, prevented a dividend from being declared last January. But that being over and the management having resolved upon a system of strict economy, a cheerful view is taken of the future. Among the many changes to be made is the closing of the company's office in Boston, and transferring the business to the general office in Detroit. At the last meeting of the board, held in Boston, Messrs. James F. Joy, Samuel Sloan, and George F. Talman were appointed a committee with full power to break up all the Eastern agencies of the company, and to carry out in detail the policy of economy before mentioned. At the same meeting Mr. H. H. Hunnewell resigned, and Mr. August Belmont was elected in his place.

☞ The new dredging machine constructed for Ferris & Co., who have the United States contract for dredging a channel at Chrisfield, Md., has been completed, and has been put to work at that point. The machine is the largest in the United States save one. The hull was built in Baltimore, the boiler in Bridgeport, Conn., and the three engines in Brooklyn, N. Y. The hoisting chain alone weighs 3,000 pounds, the dipper about 6,000 pounds, and the bail on the dipper a quarter of a ton. The dipper holds four cartloads at a dip. The cabins, staterooms, &c., are nicely appointed. It cost $30,000, and is called the Crisfield.

☞ A number of business men of Brownsville, Penn., held a meeting on the 22d ult., to consider the project of building a railroad from Brownsville to Mt. Braddocks on the South Western Railroad, the road to connect with both the Pennsylvania and Pittsburg and Connellsville Railroads—with the former at Greensburg and the latter at Connellsville. Upwards of $100,000 were subscribed and a board of directors was elected, with J. H. Bowman, Esq., as President. Work on the road will commence next week.

☞ The gauge of the Corning, Cowanesque and Antrim Railroad is to be changed from 6 feet to 4 feet 8½ inches, and the officers of the road are actively engaged in making preparations for the change. The road is 53 miles long, extending from Corning N. Y., southward to Antrim, Pa., with a branch from Lawrenceville to Elkland, 12 miles.

☞ In addition to the eleven miles already completed from Lexington to Nicholasville, Ky., on the Cincinnati Southern Railroad, about forty one miles of grading have been accepted, and one hundred and fifty miles more are nearly ready. About two hundred miles of grading will be completed by November.

☞ The directors of the Bedford, Springville, Owensboro, and Bloomfield Railroad have closed a contract to build the road from Bedford, Indiana, west by north to Bloomfield, a distance of about 86 miles. The road is to be completed by the close of the year.

National Railroad Convention.

At a recent meeting of the Executive Committee previously appointed at a meeting of citizens of St. Louis, for the purpose of arranging preliminaries for a National Convention. The following resolution was presented by Mr. Samuel and unanimously adopted:

Resolved, That the chairman of this committee be authorized to issue an address, setting forth the action and the object of the people of St. Louis in calling a National convention to be held in St. Louis on the 23d day of November, 1875, and requesting the Governors, and also the various commercial associations of the United States, to send delegates.

☞ The Committee of Investigation on the condition of the European and North American Railway held a meeting in Bangor, Me., on the 23d ult., and agreed upon their report. They propose to call a meeting of the creditors for Tuesday, Oct. 5. The committee feel confident that they can present such a plan as the creditors will accept.

Duquesne Inclined Plane Railroad.

This new enterprise, intended to connect the western end of Mount Washington with Pittsburg via the Point bridge, perfected its organization on the 24th ult. by the election of the following executive officers: President, Charles A. Colton; Vice President, W. B. Lupton; Treasurer, John T. Woods; Secretary, Kirk Q. Bigham. The estimates for various plans of building the inclined plane railroad were submitted, from which it appears that the work can be done for about $40,000. The plan likely to be adopted provides for a road 700 feet long, starting about 100 feet from the southern terminus of the Point bridge, now in course of construction. The inclination will be about thirty five degrees, less than the Monongahela Incline. It is calculated that the Duquesne Incline will carry about 500,000 passengers per annum, at an average fare of five cents each. On this basis the stock will, in a few years, average equal to the Monongahela Incline, which made over fifteen per cent. last year.

Montclair Railroad.

The sale of this road took place at Jersey City on the 25th ult., under an order of the Court of Chancery in the suit of Marcus L. Ward and Abram S. Hewitt, trustees for the first mortgage bondholders. The sale was conducted by Mr. Patterson for R. W. Parker, Master in Chancery, of Newark. The first bid offered was $10,000, and it ran steadily up to $200,000, when it was knocked down to Messrs. Ward and Hewitt, the trustees. The conditions of the sale were ten per cent cash and the balance on the 2d of October. The sale will not affect the rebuilding of the bridge across the Passaic river or the repairs being made along the line of the railroad.

☞ Two suits have been commenced against the Portland and Ogdensburg Railroad, one by the town of Littleton and the other by Geo. B. Redington, to compel them to desist from building their road through the towns of Whitefield and Dalton, instead of through Bethlehem and Littleton, according to the terms of their charter. Two injunctions to stop their building have been obtained and served on the Company's officers.

☞ Mr. John G. Hoyt, Vice President of the New York, Boston and Montreal Railroad, having leased from the Receiver that portion of the road between this City and Yonkers, trains have commenced running from High Bridge to North Yonkers in connection with the Harlem River Railroad from the Forty second street depot, and also in connection with the Harlem boats from Peck slip.

☞ An Attachment against the New Jersey and New York Railroad Co. was granted on the 27th ult. by Judge Donohue on the application of Mr. Jewett, receiver of the Erie Railway Company, on account of non payment of $26,398 22, due on a contract under which the Erie Railway Company furnished rolling stock and the use of portions of its lines to defendants.

☞ The Supreme Court of Illinois has decided that "lay over" railroad tickets, being in the nature of special contracts, are good only in accordance with their terms—if sold "good for thirty days" they do not give the purchaser any rights after that time.

The Harlem Suspension Bridge.

A map of the approaches to the proposed suspension bridge over the Harlem River at One Hundred and Eighty first street has been adopted by the Park Commissioners. The approach on the New York side of the river will begin at Tenth avenue and One Hundred and Eighty first street, and will run over the section marked out for the construction of the Boulevard. It will extend on the Westchester side as far as Aqueduct avenue, spanning Commerce, Sedgwick, and Boscobel avenues. The work of constructing the new bridge, which will be situated a short distance above High Bridge, will not be commenced for a year to come, necessary preliminaries not having been as yet completed by the Department of Parks.

☞ The fifth iron span in the Railroad Bridge at Havre de Grace has been completed.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

Philadelphia and Reading Railroad.

Several plans are on foot for the extension of minor branches of the Philadelphia and Reading Railroad in Berks and Schuylkill Counties, Penn. The Colebrookdale Railroad is to be extended to the Siesholtzville iron mines, and a branch surveyed from Manatawny to Lobacksville, through an iron district. A branch is surveyed from Monocacy on the main line of the Philadelphia and Reading Railroad, up Monocacy creek to the ore banks of Oley township. The Moselem branch is to be extended from Leesport furnace by way of Ontalaunee and the Maiden creek to Virginsville, on the Reading and Lehigh Railroad. There is also talk of completing the Allentown Railroad from Kutztown to Port Clinton, which is all graded except the tunnel at Hamburg.

☞ The ground has been surveyed by the Philadelphia and Chester County Railroad Company, and they are nearly ready to commence work on the new road between Philadelphia and West Chester. It is claimed that it will shorten the distance at least four miles, but it has not yet been determined whether to make it a narrow or broad gauge.

☞ The work of construction of the Florence and Tuscaloosa (3ft. gauge) Railroad is soon to be commenced. It is to run from Florence, south to Tuscaloosa, on the river of the same name, and the Alabama and Chattanooga road, and will be about 100 miles in length.

☞ The Havana, Rantoul and Eastern Railroad Company, of Illinois, have contracted for iron for 35 miles of road and for several locomotives. Track laying will be begun at Rantoul, and will progress westward as fast as material is received.

☞ The new track on the Springfield Division of the Ohio and Mississippi Railroad from Pana, east to Tower Hill, Ill., seven miles, has been completed, and is now in use.

THE

UPHOLSTERERS'

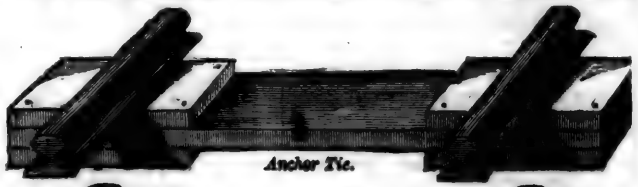
ELASTIC SPONGE

COMPANY,

No. 42 LAWRENCE STREET,
NEWARK, N. J.,

Invite the attention of the trade to their make of **Elastic Sponge** for all Upholstering purposes. This sponge is prepared by an entirely new process (secured by letters patent), free from all the deleterious materials heretofore used in preparing sponge. This make of **Elastic Sponge** is chemically prepared, is dry, and never loses its elasticity; and, by the peculiarity of its preparation, renders insect life of every kind impossible. For particulars, address

GEORGE R. DUNN, Manager.



RAILROAD IRON.

PERKINS, LIVINGSTON, POST & Co.,
59 Liberty Street,
NEW YORK.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

CAMMELL'S CAST STEEL.

American Railroad Journal.

New York, Saturday, October 9, 1875.

Erie Railway.

The following is the full text of the report of Sir E. W. Watkin to the British Committee of Bond and Stockholders of the Erie Railway Company:

LONDON, Sept. 18, 1875.

1. I returned from New York to-day, having had the opportunity of examining on the spot the facts necessary for an understanding of the position of the Erie undertaking.

2. The rental guarantees and also the bond interest below the fourth series of the original mortgages are in arrear, and Board not only failed to pay the half-yearly interest accruing due on the 1st June last, on the Second Consolidated Bonds, which interest was announced as to be paid by Messrs. M'Culloch & Co., on the 14th May last, but, without previous notice or warning, a receiver was appointed by the courts in the States of New York, New Jersey and Pennsylvania on the 26th May, and that receiver, in the person of the Hon. Hugh J. Jewett, President of the company, has been armed under the orders and direction of the courts with all necessary powers and authorities.

3. The current debt of the company, reduced by using up in part net profits of working earned *ad interim*, amounted on the 31st July last (according to the account rendered to me) to $4,218,075. To or from that sum must be added or deducted current debit and credit balances due to or from other railway companies on interchange of traffic account. Probably this account may be at debit occasionally to the extent of $200,000. The present amount as rendered to me is $169,091 to debit. The estimated net balance or "net earnings" on the year ended 30th June, 1875, as rendered to me, was $3,715,609, that is to say, the total income from all sources for the year ended 30th June, 1875, is stated at $17,971,898, the total outgoings at $14,256,289, and the net remainder is therefore $3,715,609 as above. Thus, assuming the undertaking to be incapable of reform and improvement, it would require, if that form of recourse be adopted, nearly fourteen months of the whole net earnings in order to discharge the above debt. There are portions, however, of such debt which may not have priority over bond interest, and that question is now being investigated by Mr. Morris, and for the purpose of his report. At the same time it must be observed, first, that there are also claims on both sides of the account on capital and general account to be considered; and, second, that there are many items not strictly attributable to the ordinary operations of the year in question.

4. The annual account for the fiscal year to 30th September, 1875, will be audited and issued late in November or early in December next, and that account, completed and cleared of the deceptive and irregular entries and credits of past years, will give more exact information than these estimates can possibly furnish. This annual account should be accompanied by a carefully prepared "balance sheet," with some reliable estimate of the outcome of disputed transactions where possible and prudent. In the meantime, I may call attention to the estimate showing that the total receipts and credit items in the year's operations amount to nearly $18,000,000, yet the net result yields but $3,715,609, or only twenty-one per cent. It is only fair, however, to point out that the net profits of the general undertaking are taxed by the losses upon the rentals and working of the fourteen branch lines. Three only of these branches leave a direct profit and the loss on the other eleven in the twelve months ended June 30, 1875, amounted to $480,174, while the net loss, taking the balance on good and bad together, was $195,698. Such figures seriously affect the general result. Mr. Jewett's report of 13th May last omitted from the estimate of "net earnings" of the nine months ended March 31, 1875, these and other deductions of loss, and thus probably an erroneous impression of the actual available net profit was unintentionally produced. Mr. Jewett gave $3,163,454 as the net earnings of these nine months.

5. The annual interest, as claimed upon the bond debt, is stated at $4,073,106, and the annual burden for rents, rent charges and leases, as claimed, is stated at $1,100,911, or a total of $5,174,017 of estimated fixed charge as against the estimated net earnings of $3,715,609, or showing a deficiency in the year in question of $1,458,409. While the three principal main lines of road in competition with the Erie—viz., the New York Central, the Baltimore and Ohio, and the Pennsylvania—give balances of profits varying from 34 to 40 per cent of gross receipts, the Erie would appear only to have given 21 per cent as above. in presence, too, of a not inconsiderable charge to "construction account." The charge to "construction account," or "capital," as it would be designated in England, in the year ended June 30, 1875, was $1,003,297. That includes $154,612 for "steel," or the differences between the value of iron taken up in relaying and steel laid down in its place, a charge which it will be more prudent to debit in future to revenue.

6. Should it be found possible under the management of Mr. Jewett to work the Erie undertaking at the rate of even 70 per cent of outlay, an additional net profit, without any increase of the quantity of traffic and income obtained or of the rates of charge, equal to some $1,600,000 per annum would result, and we shall all watch with anxiety the changes of management already hopefully commenced. Again, if with such a rate of outgoing the traffic portion of the general income should equal or surpass the published figures of 1873, then all the fixed charges would be met and a surplus would remain. I would merely add that Mr. Jewett speaks with confidence of the probable future progress of the net earnings of the undertaking. I postpone the expression of any opinion of my own until

I have had an opportunity of inspecting the annual account and balance sheet. In the interval, some change for the better in the general trade of the country may follow the recent harvest.

7. The exceptional gauge of the railway is, however, a source of exceptional cost in working, and in more prosperous times it must be gradually converted into the national gauge of the country. I refrain, for obvious reasons, from giving particulars of the outside obligations or claims made on behalf of the company, in many cases the subjects of hostile litigation. These are being, and will, I trust, continue to be, dealt with by the receiver with an unbending determination to modify or get rid of burdens now depleting the proper income of the bond and stockholders. The report of Mr. Morris will throw light upon these questions.

8. The ledger entries necessary for constructing a balance sheet taken out at my request will demand your consideration, and they will speak for themselves. They cannot, however, include estimates of the probable results of pending or proposed litigations, such as those with Commodore Vanderbilt, the London Banking Association, Mr. McHenry and Mr. Jay Gould. Complicated transactions and large amounts of money are involved in many of these suits and proceedings.

9. Having inspected the main line, the principal workshops and some of the branch lines, I have formed the conclusion that the railway, together with the plant upon the ground and running, is in a full average state of repair, according to the standard of the United States At the same time it has been stated to me that about one-tenth of the nominal stock of engines and one-seventh of the nominal stock of cars are represented by useless or worn-out vehicles, or are missing in number. Still it is satisfactory to be assured that only one engine in ten of the effective stock is in the shop for repairs or renewal. At the principal workshop at Susquehanna a pay bill of 1,200 names has, they inform me, been reduced to 500, without any reduction in the quantity of work actually performed. But with the pay bills habitually for months in the arrear it would be difficult to imagine the possibility of either discipline or economy, and the mismanagement of years past cannot be all at once remedied or even in some cases modified.

10. In the present state of the credit of the Erie undertaking it seems to me as impossible as it would be unwise, even were it possible, to endeavor to raise and remit more capital from England. I can recommend to you no policy but that of self-redemption; the railway must pay its debts by the use of that part of its current net earnings which the courts may permit to be so appropriated. If the difficulty had been fairly looked in the face in 1872 many unhappy persons would have been saved from loss, and before now discipline and economy would have been fully established. Let it be hoped that the bond and stockholders will have the courage now to submit to a period of self-denial, and will consent to pay their debts and complete essential obligations out of available net profits, the bondholders receiving in place of cash such equitable obligations realizable out of surplus revenue in the future as each according to right and priority may justly claim. Placed in fair and honest hands, hands undefiled by speculation, the undertaking must, if possible, be made self-supporting by increased income and reduced working expenditure.

11. A receivership is the alternative of the time; a foreclosure has been threatened. If the latter is to be avoided there must be co-operation and control in the working of the former. A receivership worked in cordial concert with all the honest interests in the company will give a strong hand where it is so much wanted, and will enable prompt action to resist intrigues, as well as to solve, on rigid principles, many doubtful obligations. Such a management is under the sanction of the courts, which can be appealed to if need be by any bond and stockholder. And however much I may deplore as unfortunate the announcement of the dividend on the second bonds, I advise you to accept the receivership as the best alternative, under all the circumstances now possible, and I further advise you to rely upon the honor, as I feel assured you may, also upon the anxious labors and full experience of the President and receiver. His task, be it remembered, is no light one. He is not responsible for the past, yet he has everything to reform. Following two predecessors, the one a great adventurer and the other a man eminently unfortunate in the conduct of your affairs, he has inherited to some extent the evil reputation of the one and the mistakes of the other. At the same time the burden of irregularities in England has been laid upon his shoulders, while those who induced him to take the helm have been disappointed by his refusal to be either their servant or their defender. Adopting such an attitude of independence he deserves support, and as he invites co-operation and counsel he will, I fully believe, so sustained and advised, do all that is possible to retrieve the future and the honor of the undertaking. Without the support cordially given of all concerned he must be powerless to effect the changes demanded.

12. When I arrived in New York on the 9th August I found that Mr. Jewett had sustained a severe accident, and was lying in bed in his house in Staten Island, his thigh fractured and one of his fingers dislocated. He, however, wished at once to see me, but I refrained from calling upon him until after the interval of a week occupied in inquiry and inspection. My first duty was to ask for an explanation as to the announcement of the payment of interest on the second bonds, followed by default and the appointment of a receiver. I sent home at the time a memorandum on the subject, to which copies of all essential documents were attached. It is sufficient, therefore, here to say that Mr. Jewett, on the 27th May, sent home expressly for publication, and in answer to a demand from England for an explanation for purposes of publication, a complete statement which has never yet appeared in print. Had public circulation been given to it at the time all parties would, I think, have been reassured by such a narrative, clear, frank and complete in its nature and purport.

13. Satisfied with Mr. Jewett's explanation upon this question of confidence or no confidence, discussions between us have proceeded, and I have been able (more recently aided by the sound and mature advice of Mr. Morris, your legal adviser, who, accompanied by Sir Joseph Heron, landed in New York about ten days after my own arrival) to come to a general understanding and agreement with the receiver in terms which, I hope, may meet with general approval. Mr. Jewett cordially adopts the principal that those who really own the property should practically manage it through their own representatives, he himself being one of those representatives, a trustee, but not a master. And in carrying out that principle Mr. Jewett has, with an alacrity for which I feel grateful, proposed or adopted all the details which have appeared to me to be judicious, just and necessary. For example, your legal adviser, Mr. Morris, has been accepted as the colleague of and co-adviser with the counsel of the company; a committee of consultation, composed either of yourselves or of such other representatives of all the classes of securities as upon a deliberate vote, to be at once taken, the bond and stockholders may select, is to oversee all these proceedings and expenditures which the use of net revenue due for bond interests in the payment of debt may lead to, and generally to be consulted by and to co-operate with the receiver. Three new directors, men of high position and character, are to be elected to seats at the board, in place of three of the present directors who resign. An office is to be opened in London, and every month a statement of the actual earnings and expenses of the undertaking, together with periodical reports from the President and receiver, are to be sent to that office for inspection. More important than all, efforts are to be made to give the bondholders, whose interest is or may be in default, a distinct representation in all votes of the company, and the stockholders are to be invited to concentrate their powers of attorney and their proxies in the hands of their chosen representatives, so that the company, bound together by a distinct organization, shall no longer be the mere victim of adventurers speculating on the chances of a loan of so many shares or of the proxies thereon. The memorandum signed between Mr. Jewett and myself, and which memorandum Mr. Morris and Mr. McFarland, with the co-operation of Mr. Eaton, will submit to the court, is as follows:

MEMORANDUM of Understanding between Mr. H. J. Jewett and Sir Edward W. Watkin, for submission to the Committee of Bond and Stockholders:

(1.) The Board of the Erie Company having confirmed the proposals which were passed between Mr. Jewett and Sir Edward Watkin, as detailed in the correspondence, the three nominees of the Bond and Stockholders Committee proposed by Sir Edward W. Watkin, and who have been invited to take seats in the Board, are to be elected by the Board on Thursday next, provided a quorum of the Board be present, and, if not, as soon thereafter as a quorum can be obtained; and should these three, or any, or either of them, decline to act, then nominees to be selected in their places.

(2.) Mr. Morris is associated with counsel for the receiver and for the company, and is to be regarded and treated as one of the professional agents and advisers of the undertaking.

(3.) While Mr. Jewett recommends that the final decision as to a scheme for financial reorganization be postponed until after he has had a further twelve months of opportunity to show what amount he can develop the net earnings of the company by increased business and reduced expenditure, he will nevertheless transmit, without delay, to Sir Edward William Watkin a memorandum showing his views of such scheme for the consideration of the committee.

(4.) It is agreed that the retention and judicious expenditure of net earnings for a certain period of time is essential: that the bondholders, as well as the preference and ordinary stockholders, in proportion to the just measure of their respective interests, ought to have a voice in the expenditure of net earnings otherwise applicable to the payment of interest on bonds. To this end a vote is to be taken, under the charge of the stock and bondholders committee in London, at the earliest possible period, upon the constitution of a committee of consultation consisting of representatives of each class of bonds and of the preference and ordinary stock, and that the committee so appointed shall designate a special representative whose consent and approval shall be taken by Mr. Jewett in the payment and expenditure of all moneys derived from the net earnings of the undertaking (otherwise applicable to the payment of interest

on the bonds which the Court, with the consent of such bondholders or their representatives, may permit to be so dealt with) to defray such past debts as the Court may order, and to complete essential outlays on capital account, such retention of net earnings not to exceed two years from June 1, 1875. The committee so created as herein provided to have authority to open an office in London for general purposes of business, and for a place of meeting for such committee of consultation, and the expenses connected therewith to be defrayed out of the funds of the company, it being understood that all things herein contemplated are to be performed under and subject to such judicial orders as have heretofore been or may hereafter be made in the premises.

(5.) Monthly statements of actual earnings and expenses, together with a report from the president and receiver, to be regularly submitted to that office.

(6.) It is essential to the future prosperity of the undertaking, under any plan of reorganization, that there should be strength and stability in the management of the company. This can only be secured by so placing the voting power that it cannot be used to further disunion and promote the designs of outside parties to the prejudice of bona fide investors in the stock and bonds of the company. It is moreover just in principle that bondholders whose interest is in arrear should participate in the voting power. Therefore the stock and bondholders abroad, and also in the United States, are to be invited and urged to give their power of attorney and proxies to Sir Edward W. Watkin, whom failing, to such other person or persons as the said representative or representatives of the bond and stockholders shall nominate and designate, so that the voting power may be used solely in the interest of good government and to promote harmony and efficiency in the administration of the company.

(7.) In any scheme of financial reorganization provision is to be made for giving a voting power to bondholders whose interest is in arrear so soon as the requisite authority can be obtained, or for such rearrangement of the voting power, now vested in the stockholders alone, as will vest it in the parties really interested, with just regard to the relative position and rights of the different classes in interest, the exclusion of foreign stockholders from the Board of Directors to be if possible repealed.

(8.) On the above basis Mr. Jewett, as president and receiver for himself and for his Board (under the Board resolution of the 2d of September, 1875, and generally) and Sir Edward Watkin, on behalf of the Committee of Bond and Stockholders agree to co operate together, with the view of restoring the Erie undertaking to credit, and of putting an end to the period of receivership as speedily as prudence will admit, regard being had to the necessity of terminating or modifying, by legal process or by arrangement, the various inequitable and oppressive arrangements which have been forced upon the undertaking by past mismanagement.

(Signed) E. J. JEWETT,
E. W. WATKIN.

14. Whatever course is decided on by the English and foreign bond and stockholders will, I believe, be adopted in the United States in the full spirit of co-operation for a common object. The bond and stockholders on that side of the Atlantic are equally sensitive on the point of dishonor involved in the past Erie management, and the organization in New York of Mr. Hooper and others has been dissolved with a view to avoid the slightest appearance of antagonism. The three new directors first proposed are men not known as railway men, probably, but holding high and honorable position. They were the Hon. David A. Wells, who in a critical time filled the office of Secretary of the Treasury; the Hon. William Brown, of Portland, and the Hon. William Spaulding, of Buffalo. As Mr. Wells' public engagements stood in the way of his accepting the office of director, and as Mr. Spaulding pleaded his age and varied occupation, Mr. Welsh and Mr. Talman have been chosen in their stead. Mr. Wells has, however, very kindly offered to act on any committee appointed, and Mr. Spaulding has expressed his readiness to co-operate in any way in his power.

15. Your legal adviser, Mr. Morris, is engaged in preparing a full report of a very important character upon the legal and judicial position of affairs, and that report will be laid before you by him on his return to England. I need not say that the preparation of that report, so important in elucidating the facts of the case, has involved great pains and labor, and will require time to complete it for future reference.

16. When you have this report there will be ample materials before you for the preparation of a carefully considered plan of rearrangement to be submitted to the bond and stockholders; but in the meantime, as preliminary to a general meeting of the bond and stockholders, who will be anxious for a more detailed explanation of their affairs, and upon whom the responsibility of selecting a representation in which they have confidence must now be imposed, you will probably circulate this report.

17. As respects the usually heavy fees and charges attaching to a receivership, I have the pleasure to state that Mr. Jewett does not contemplate or intend to receive any other remuneration than that of his salary as president of the company.

18. An inventory of the whole property of the company is in course of preparation in the form which I here attach.

I beg to remain, very faithfully yours,
E. W. WATKIN.

P. S.—I have since arrival here received a telegram to the effect that Messrs. Brown, Welsh and Talman have been elected as directors, Mr. Barlow and Mr. Roberts having retired.

Delaware Railroad.

The earnings of this road for the years ending October 31, 1873 and 1874, were:

	1873.	1874.
From passengers	$157,844 16	$155,007 28
" freight	368,298 76	269,078 91
" mails, etc	8,528 00	11,882 60
	$534,670 92	$435,968 79
Operating expenses	$384,963 07	$305,178 15
Dividends on stock, and interest on bonds, less rent of branch roads received	125,093 41	125,173 51
	$510,056 48	$430,351 66
Surplus for the year	$24,614 44	$5,617 13

In 1873, the operating expenses, as per agreement with the lessees, are placed at 72 per cent, and in 1874 at 70 per cent of gross earnings. Concerning the business of the road for 1874, the president in his report says:

Considering the loss of the peach crop and the depressed condition of trade, this is a very satisfactory result.

The road has been kept up in good order by the lessees. The canal bridge has been almost entirely rebuilt, both in masonry and superstructure, and thirteen other bridges greatly improved by new work. About nine miles of track have been relaid with new iron, in which were used over 800 tons of new rails. There have also been put into the track 37,487 cross ties, 510 double lengths.

There was expended for construction, for excess of weight of new rails over old taken out, widening draw at Seaford, new freight house at Dover, and other improvements and additions to the road, the sum of $17,404 77, which has been paid for by the issue and sale of stock guaranteed by Lessees. The mileage of trains has been as follows:

Passenger trains	102,433 miles.
Freight "	154,731 "
Gravel "	3,685 "
Wood "	3,336 "
Total	264,185 miles.

The value of the Sinking Fund on January 1st, 1875, was at par	$164,201 08
Value, January 1st, 1874	147,960 80
Gain for the year	$16,240 28

Satisfactory arrangements have been made by which the loans of $600,000, falling due July 1, 1875, will be paid off.

The Lessees have elected to take the road for twenty one years more after the expiration of the present lease, in accordance with the provisions of said lease.

TREASURER'S REPORT, Dec. 31,

	1873.	1874.
Railroad	$1,793,732 18	$1,842,136 86

President.—S. M. FELTON.

Directors—Samuel M. Felton, Isaac Hinckley, Andrew C. Gray, Joseph Bringhurst, Charles Warner, Edward Bringhurst, Jr., Isaac Jump, Manlove Hayes, H. B. Fiddeman, Alexander Johnson, William H. Ross, Albert Curry and J. Turpin Moore.

Treasurer.—MANLOVE HAYES.

Chesapeake and Ohio Railroad.

RICHMOND, Va., Oct. 5.—A bill of foreclosure on the Chesapeake and Ohio Railroad Company's first mortgage was filed yesterday in the United States Circuit Court for this district. An identical bill has also been filed at Parkersburg, West Va. An order preliminary to a receivership, together with an injunction restraining any interference with the mortgage property pending proceedings, has been issued by Judge Bond. Upon the entry of the decree of sale, all the parties interested will unite in the purchase of the line and its franchises, paying therefor the securities they now hold. The judgment will clear off all existing liens on the property, and enable the corporation to obtain additional capital to complete their connections with the West.

☞ The Long Island Railroad Company propose soon to begin the extension of their track from Far Rockaway, on the beach. It will run almost parallel with the Southern Railroad track, and will be continued to a point some distance beyond the Neptune House.

Official List of Patents Issued by the United States Patent-Office.

[For the Week ending October 1, 1875.]

MECHANICAL AND RAILROAD.

167,614. Universal turning lathes, R. Koch, Dortmund, Prussia.

167,616. Car brake shoes, M. Madden, Harrisburg, Penn.

167,639. Feed water regulators, C. M. Bridges, Leon, Iowa.

167,671. R. R. frog points, J. Johnson, Harrowgate, Eng.

167,692. Rotary engines, C. F. Roth, Winterset, Iowa.

167,718. Car couplings, G. Wernimont, Dubuque, Iowa.

167,734. Rolls for rolling metal, A. R. Bolus, Cincinnati, Ohio.

167,743. R. R. switches, D. F. Kavonough, Greenport, Penn.

167,756. Vacuum air brakes, F. W. Eames, Watertown, N. Y.

167,767. Car couplings, W. R. Hunter, Toledo, O.

167,800. Furnaces for manufacture of iron and steel from ore, W. A. Stevens, Succasunna Plains, New Jersey.

167,803. Rotary engines, A. Strum, Harrodsburg, Ind.

167,808. Rotary engines, G. Savage, Sloan, Iowa.

MINING.

167,625. Ore feeders, C. P. Stanford, San Francisco, Cal.

167,628. Earth augers, J. P. Summers, Tiffin, O.

167,638. Ore crushers and amalgamators, C. Braids, Copperopolis, Cal.

167,659. Tripods for rock drills, G. C. Githens, N. Y. City.

167,719, Colliery plants, R. A. Wilder, Cressona, Penn.

SHEET METAL.

167,796. Manufacture of metal tubing, D. M. Sommers,, Brooklyn, N. Y.

Tennessee Railroad Tax.

The railroad tax commissioners of the State of Tennessee have completed their labors and submitted the results to the Controller.

The railroads were allowed to choose between being taxed 1½ per cent. on their gross earnings or 40 cents on the $100 assessed value of the property lying in the State.

The following roads preferred the former: Nashville, Chattanooga and St. Louis, Western and Atlantic, East Tennessee and Virginia, embracing the roads under its contract, East Tennessee and Georgia, Memphis and Charleston, Winchester and Alabama, McMinnville and Manchester, Tennessee Coal and Railroad Company, and Tennessee and Pacific.

The following refused the 1½ per cent. alternative, some denying that the State had any right to tax certain portions or all of their lines, in any manner, and were accordingly assessed for taxation at the rate of 40 cents per $100: Mobile and Ohio, St. Louis and Southeastern, Cincinnati, Cumberland Gap and Charleston, New Orleans, St. Louis and Chicago, Mississippi and Tennessee, Paducah and Memphis, Louisville and Nashville, main stem and roads under their control, namely, the Tennessee and Alabama, Memphis and Clarksville, Memphis and Ohio, Knoxville and Charleston, Knoxville and Ohio, and the Rogersville and Jefferson road.

The county authorities are allowed to tax the latter group of roads at as high a rate as the State, but it is supposed that not more than 10@25 cents will be levied. As to the first group, there will probably arise conflicts of authority, which the courts will have to settle, but the act of the Legislature, as it stands, prevents the counties from taxing them in any way. The result of this will be to cause inequality between the taxes levied, as one set of railroads are protected from any taxation save that of the State, while another set will be taxed additionally by counties and towns.

It will be noticed in the following list of State assessments that the authorities have paid the L. and N. railroad the undesirable compliment of assessing it higher than any other road in the State. The tables show the number of miles in the State and the rate of assessed value:

Mobile and Ohio, 117 miles at $16,000.	$1,872,000
St. Louis and Southeastern, 48 miles at $6,000	288,000
Cincinnati, Cumberland Gap and Charleston, 39.3 miles at $10,000	393,000
New Orleans, Chicago and St. Louis, 116 miles at $12,500	1,451,625
Mississippi and Tennessee, 9.3 miles at $10,000	99,300
Paducah and Memphis 66 miles at $8,000	528,000
Louisville and Nashville (main stem), 45.42 miles at $18,000	817,560
Nashville and Decatur division, 92.97 miles, at $11,000	1,022,670
Memphis and Clarksville, and Memphis and Ohio divisions, 212.6 miles at $15,000	3,189,000
Knoxville and Charleston, 16 miles, at $10,000	160 000
Knoxville and Ohio, 88 miles, at $12,000	456,900
Rogersville and Jefferson, 16 miles, at $5,000	80,000
816.59 totals	$10,357,155
Assessments by counties and towns	10,607,665
Total assessments	$20,964,820

European and North American Railroad.

At a meeting of the creditors of the consolidated European and North American Railroad Company, in Bangor, Me., on the 5th inst., the committee submitted a report showing the total indebtedness of the road to be $7,372,704 95, and the net earnings for 1874 to be $334,830, a sum sufficient to pay four and a half per cent. on this entire indebtedness. They estimate that $600,000 can be realized from the sale of lands and other property of the company to reduce said indebtedness. The committee have obtained the consent of the stockholders to transfer a controlling interest in the road to the creditors, they to organize and take control and devote the net earnings of the road for three years to necessary repairs and improvements and the payment of such debts as are required to prevent the sacrifice of property, the balance to be devoted to the payment of the floating debt with certain restrictions, and to extend payment of the principal of the floating debt six years with interest. They likewise propose to the holders of the funded debt to bond half their coupons, giving certificates of indebtedness for the same, the coupons to be held by the Trustees and canceled when the certificates are paid.

The report was accepted, and resolutions were adopted by the meeting embodying the main features of the report, that the road be conveyed to the creditors in trust for four years, and that if the road pay in the meantime certain mentioned debts amounting to $60,000, the creditors shall reconvey the road to the stockholders; otherwise the property to become the absolute possession of the creditors. This was agreed to by the committee of creditors, the committee of the International Railroad Construction and Transportation Company, and by the Trustees of said company.

A meeting of the bondholders will be held Oct. 19.

Northern Pacific Railroad.

Pursuant to a call issued by the Secretary of the Northern Pacific Railroad Company, the new company (comprising the original bondholders) met at the office of the company, No. 23 Fifth Avenue, on the 29th ult., for the purpose of receiving the report of the committee appointed to purchase the road, and to elect a board of directors. Mr. Joseph Dillworth, of Pittsburg, Penn., was elected chairman, and Mr. David Small, of York, Penn., Secretary. The following report of the committee appointed to buy in the road at the foreclosure sale was then submitted to the action of the meeting:—

The undersigned, a committee chosen by the bondholders at their general meeting, held in the city of New York on the 30th day of June last, "to attend the sale of the railroad and other property of the company, with a view to purchase the same and take title therefor for the benefit of all the parties assenting to and complying with the conditions of the plan of reorganization; to assume the management of the railroad and property when they shall have acquired title thereto; to attend to the issuing of bonds and stock, perfecting the title, and generally to do all things necessary for the complete execution of the plan, and to place the railroad again under the control and management of a board of directors, to be elected hereafter by the preferred stockholders," having attended to the duties assigned to them beg leave briefly to report their proceedings to date:

The foreclosure of your mortgage was initiated on the 16th of April last in the United States Circuit Court, and a receiver was thereupon appointed, and in conformity to subsequent decrees of the court all the property of the Northern Pacific Railroad Company (except the patented and certified lands), together with all its rights, liberties and franchises, including the franchise to be a corporation, was put up at public auction on the 12th of August last, and was purchased by us for the sum of $100,000. And on the 25th day of August last the sale was confirmed by the court. The preparation of the deeds of the property and franchises so purchased, and the papers incident thereto, under such sale and confirmation has been attended to with great care, under the advice of experienced counsel, and their final execution has been delayed until now. We have this morning come into full possession of the property purchased on your behalf, and we propose to immediately place it under the control and management of the directors you are assembled to elect.

The patented and certified bonds of the company remaining unsold amount to about 600,000 acres, all in Minnesota and Dakotah. Their sale is postponed to such future date as the court may hereafter order. The decree for their sale provides that five per cent of the purchase money shall be paid in cash, and the balance may be paid in the first mortgage bonds of this company. To enable us to act efficiently in your behalf when such sale may occur, and for the purpose of securing to the bondholders in general the full benefit of the entire property of the company under the foreclosure, the committee, acting under the advice of counsel, has caused the surrendered bonds

to remain in the hands of the Farmers' Loan and Trust Company, subject to the control of the committee for such further use as the interest of the bondholders may demand.

In compliance with our call issued on the 12th of August last bonds have been deposited with the Farmers' Loan and Trust Company for exchange into preferred stock and for otherwise carrying out the objects of the plan of reorganization, amounting to this date to about $20,000,000. Large daily additions are being made, and we have assurance and reason to expect that nearly all will eventually come in. No time has yet been fixed limiting their reception. The committee feel inclined to make the time ample for all reasonable emergencies and would advise holders to send in their bonds at the earliest practicable time.

The powers of attorney received by and authorizing the committee to carry out the plan of reorganization foot up about $26,000,000, or more than five sixths of the whole, and large additions are being made daily. Without doubt the balance will come forward, as little or no cash dividend can be expected by any who may stand out.

In transferring the road and properties acquired to the management of your directors we take occasion to congratulate you upon the rapid success with which we have been enabled to carry out thus far the purposes of our appointment and to thank you for the confidence you have shown in us by promptly responding to our calls for your powers of attorney and the surrender of your bonds. It augurs well for the ultimate success of your magnificient enterprise that your confidence and unanimity have enabled a mortgage of $30,000,000 to be substantially foreclosed and a reorganization completed in less than six months from the initiatory step, without any of the usual attendant and consequent litigation.

You have now 550 miles of road in paying operation, substantially free from debt and an attaching domain of nearly 10,000,000 acres of land. With this immense extent of unincumbered property as a basis for future operations and the 25,000 and odd acres to be added for every mile of new road built, there ought to be little doubt of your ability to secure means for the early resumption of work on the extension and completion of the road.

JOHNSTON LIVINGSTON,
FREDERICK BILLINGS,
JAMES K. MOORHEAD,
J. N. HUTCHINSON,
GEORGE STARK,
J. M. DENNISON,
} Committee.

NEW YORK, Sept. 29, 1875.

Accompanying the above report of the Purchasing Committee was a communication from Mr. Geo. W. Cass, the Receiver of the road, in which he stated that everything had been prosperous under his management, that the expenses had all been paid out of the proceeds of the business transacted, and that he turned the road over to the new directors about to be elected, in as good condition as it was when he took charge of it, with a balance of $17,000 cash on hand.

The report of the Committee, and the communication of the Receiver were approved by the meeting.

An election for a Board of Directors was then held, which resulted in the choice of the following gentlemen: Edwin M. Lewis, of Philadelphia; Johnston Livingston, of New York; J. K. Moorhead, of Pittsburg; John N. Hutchinson, of Easton Pa.; George Stark, of Boston; John M. Dennison, of Baltimore; George W. Cass, of Pittsburg; C. B. Wright, of Philadelphia; Joseph Dilworth, of Pittsburg; B. P. Cheney, of Boston; Charlemagne Tower, of Philadelphia; Frederick Billings, of Woodstock, Vt.; and J. Fraley Smith, of Philadelphia. At a meeting of the directors, held on the following day, Charles B. Wright, of Philadelphia, was elected President; George Stark, of New Hampshire, Vice President; Samuel Wilkeson, of New York, Secretary, and George E. Beebe, of New York, Treasurer.

Redemption of 5-20 Bonds.

The Secretary of the Treasury has issued his twenty eighth call for $5,000,000 5 20 bonds to be redeemed January 1, one half being coupon and the other half registered issues. The call is made at the request of the syndicate, and shows that they are still finding a ready market in Europe for the new 5s. There remains outstanding $19,755,000 called bonds on which interest has ceased. The bonds called are of the act of June 30, 1864, as follows:

COUPON BONDS.

$50—No.	3301	to No. 3700,	both inclusive.
$100—No.	10501	to No. 12000,	both inclusive.
$500—No.	15301	to No. 18000,	both inclusive.
$1000—No.	59701	to No. 68000,	both inclusive.

REGISTERED BONDS.

$50—No.	69	to No. 150,	both inclusive.
$100—No.	601	to No. 1000,	both inclusive.
$500—No.	482	to No. 750,	both inclusive.
$1,000—No.	2651	to No. 4900,	both inclusive.
$5,000—No.	1551	to No. 2100,	both inclusive.
$10,000—No.	3751	to No. 4600,	both inclusive.

United States securities forwarded for redemption should be addressed to the Loan Division, Secretary's office, and all registered bonds should be assigned to the Secretary of the Treasury for redemption. The calls of the Treasury now outstanding for 5-20 six per cent bonds to be presented for redemption fall due as follows:

Five twenties of 1862.		Five twenties of 1864.	
Oct. 14.....	$10,000 000	Nov. 8.....	$10,000,000
Oct. 28.....	14,897,200	Dec. 1.....	13,000,000
		Dec. 14....	5,000.000
Total...	$24,897,200	Jan. 1.....	5,000,000
		Total..	$33,000,000

The called bonds of the issue of 1862 are of the coupon class, nearly all of them being held in Europe. Of the issue of 1864 about $12,700,000 are of the registered class, chiefly held in this country.

Gold Compared with Coal and Iron.

EXTRACT FROM GOV. ALLEN'S SPEECH.

* * * Some time ago our illustrious Chief Magistrate, a great political economist and profound philosopher in social circles, said that "there," meaning the gold mines of California, "was our strong box." What a philosopher! Why, the coal mines in the Hocking Valley are worth more money, fifty times over, than are the gold mines of California. The soil of Ohio yields more wealth in one year's cultivation than all the gold mines that ever existed from the time of Solomon down to this day. These fellows talk about gold! Why, a chunk of iron ore, a bar of iron out of which the blacksmith creates the plow, these bars of iron are worth thousands of millions of times all the gold that the globe contains. Gold answers very well for certain purposes. It may answer very well to minister to idle vanity and the love of ostentation. But a piece of iron ministers to every man's wants. It is accessible to all; beneficent to all; and, with the addition of a coal furnace under it, it creates the driving power of the world these days. The gold mines of California They have about as much to do with paying off the national debt as had the grasshoppers that invaded the Western country last year. [Applause and laughter.] What makes the chief wealth of the world? The chief wealth of the world is in having something to eat, for all the gold of Ophir would not keep a starving man alive. A good ear of Indian corn ground into a pone would keep him alive, though. A man that was frozen between two icebergs would find no relief in the mines of California, but he would find a great deal from a good, warm coal fire in the Hocking Valley. * * *

Perkiomen Railroad.

The opening of this new route from Philadelphia to Allentown, under the auspices of the Philadelphia and Reading Railroad Company, took place on the 27th ult. Among those participating in the ceremonies connected with this important event were J. W. Jones, First Vice President of the Philadelphia and Reading Railroad Company; G. A. Nicolls, Second Vice President; William Lorenz, Chief Engineer; J. E. Wooten, General Superintendent; William H. Bines, Principal Assistant Engineer in charge of the Perkiomen Road; Daniel Jones, Assistant Comptroller; Colonel James Boyd, Senior Counsel of the road; Judge Henry P. Ross, and others. The Philadelphia Ledger, from which the above was obtained, says:

Heretofore all passengers and freight for Allentown, New York, or points west from this city were first conveyed to Reading, and thence to Allentown over the East Penna. Road, the entire distance being 94 miles. The opening up of this new route shortens the distance 26 miles. A portion of it—that from Perkiomen Junction to Pennsburg—has been in use for a number of years, but the new road from Pennsburg to Emaus, the junction with the East Penna. Road, was passed over for the first time yesterday, except by construction trains. The new road passes through a rich agricultural region, and opens up in many places views of scenery not surpassed in the State. The grade of the road is exceedingly favorable for trade, not exceeding 48 feet to the mile, and this only for a short distance on each side of the tunnel which pierces the South Mountain. This tunnel is 1700 feet long, and is wide enough for a double track.

On the completion of the road the Reading Railroad Company will have a connection with the two railroads in the Lehigh Valley, the new route being only eight miles longer than that by the North Pennsylvania Railroad, but with grades more favorable for heavy freight trains to Philadelphia. It is the intention of the company to place passenger trains upon the road in a few days, which will connect with trains running on the Lehigh Valley roads. Freight and express matter for New York will also pass over this route.

☞ The estimated earnings of the St. Louis and Southwestern Railroad in August, 1875, were $73,613 32; in August, 1874, they were $110,024 45—a decrease of $37,311 13.

☞ The grading on the Gulf, Colorado and Santa Fe Railroad is completed for 32 miles westward from Galveston, Texas, and the working force transferred to the remaining 10 miles, which will carry the road to Arcola.

☞ The Winona and Southwestern Railroad project has been revived, and a survey is to be made from Winona, Minn., to Herper, Iowa, for a narrow gauge road.

☞ The Eureka and Palisade Narrow Gauge Railroad has been completed to the summit, which is twenty five miles from Eureka.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."
